LIST OF PUBLIC LAWS

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws**.

Last List October 30, 1992

ELECTRONIC BULLETIN BOARD

Free **Electronic Bulletin Board** Service for Public Law Numbers is available on 202-275-1538 or 275-0920.

FEDERAL REGISTER SUBSCRIBERS: IMPORTANT INFORMATION ABOUT YOUR SUBSCRIPTION

After 6 years without an adjustment, it has become necessary to increase the price of the **Federal Register** in order to begin recovering the actual costs of providing this subscription service. Effective October 1, 1992, the price for the **Federal Register** will increase and be offered as follows:

- (1) FEDERAL REGISTER COMPLETE SERVICE**—Each business day you can continue to receive the daily **Federal Register**, plus the monthly **Federal Register Index** and **Code of Federal Regulations List of Sections Affected (LSA)**, all for **\$415.00** per year.
- (2) FEDERAL REGISTER DAILY ONLY SERVICE**—With this subscription service, you will receive the **Federal Register** every business day for **\$375.00** per year.

HOW WILL THIS AFFECT YOUR CURRENT SUBSCRIPTION?

You will receive your current complete *Federal Register* service for the length of time remaining in your subscription.

AT RENEWAL TIME

At renewal time, to keep this important subscription coming—you can continue to receive the complete **Federal Register** service by simply renewing for the entire package, or you can select and order only the parts that suit your needs:

- renew your entire **Federal Register Service** (complete service)

or select. . .

- the daily only **Federal Register** (basic service)
- and complement the basic service with either of the following supplements: the monthly **Federal Register Index** or the monthly **LSA**

When your current subscription expires, you will receive a renewal notice to continue the complete **Federal Register** service. At that time, you will also receive an order form for the daily **Federal Register** basic service, the **Federal Register Index**, and the **LSA**.

To know when to expect the renewal notice, check the top line of your subscription mailing label for the month and year of expiration as shown in this sample:

A renewal notice will be sent approximately 90 days before the end of this month. ,

For those of you who must keep informed about **Presidential Proclamations and Executive Orders**, there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period April 13, 1945, through January 20, 1989, and which have continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1945-1989 period—along with any amendments—an indication of its current status, and, where applicable, its location in this volume.

Guide to Record Retention Requirements in the Code of Federal Regulations (CFR)

GUIDE: Revised January 1, 1992

The GUIDE to record retention is a useful reference tool, compiled from agency regulations, designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

Unified Agenda of Regulations

AGENCY: Office of the Secretary, HHS.

ACTION: Publication of unified agenda of regulations.

SUMMARY: The President's February 17, 1981, Executive order (12291) and the Regulatory Flexibility Act of 1980 require the Department to publish an agenda of significant regulations being developed and an indication of those regulatory actions that are being analyzed for their effect on small businesses. The Department published its last agenda on April 27, 1992.

FOR FURTHER INFORMATION CONTACT:

For further inquiries or comments related to specific regulations listed in the agenda, the public is encouraged to contact the appropriate responsible individual. Questions or comments on the overall agenda should be sent to: Gloria P. Ellis, Regulations Coordinator, Office of the Secretary, Department of Health and Human Services, 200 Independence Avenue SW., Washington, DC 20201; telephone: (202) 690-6824.

Jacquelyn Y. White,
Acting Executive Secretary to the
Department.

Additional Information: The current OMB project to completely rewrite its Circular A-87, "Cost Principles for State and Local Governments" includes proposed revisions of the interest allowability provision. OMB is considering the possibility of adopting uniform provisions on interest in each of its Circulars on Cost Principles, A-87, A-21 for Educational Institutions and A-122 for Nonprofit Organizations. If this occurs, HHS will consider adopting the same provisions for interest costs incurred by hospitals under Federal research and training awards.

Legal Authority: PL 99-509, Sec 9313

CFR Citation: 42 CFR 1001; 42 CFR 1003

Legal Deadline: None

Abstract: This proposed rule would prohibit a hospital from knowingly making incentive payments to a physician as an inducement to reduce or limit services provided to Medicare or Medicaid beneficiaries who are under the direct care of that physician. The rule would also set forth standards governing the imposition of CMPs for each such individual for whom payments are made.

953. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74; 45 CFR 92

Legal Deadline: None

Abstract: OMB is in the process of issuing updated fiscal and administrative guidance on requirements governing grants (including cooperative agreements). Separate guidance will be provided for grants awarded to governments and those awarded to colleges and universities and other nonprofit organizations. In separating grant rules

for governments from those of other recipients, OMB recognizes the unique competence of States to administer grants and embraces the concept of Federalism. HHS regulations governing grants to these entities will have to be updated to accommodate these changes. HHS regulations governing grants to governments which implement OMB Circular A-102 are codified in 45 CFR part 92. Those governing grants to colleges and universities and other nonprofit organizations which implement OMB Circular A-110 are codified in 45 CFR part 74.

958. TITLE VI OF THE CRA OF 1964, SUBPART B-NATIONAL ORIGIN DISCRIMINATION IN PROGRAMS RECEIVING FED. FINANCIAL ASSISTANCE FROM THE DHHS AGAINST PERSONS OF LIMITED ENGLISH PROFICIENCY

Legal Authority: 42 USC 2000d-1

CFR Citation: 45 CFR 80

Legal Deadline: None

Abstract: Title VI of the Civil Rights Act of 1964 prohibits discrimination based on race, color, or national origin in programs and activities that receive Federal financial assistance. This addition as Subpart B to the Department's Title VI regulation will address a serious barrier to equal access to health and human services--the denial of services and other unequal or discriminatory treatment to persons of Limited English Proficiency (LEP). Persons of LEP tend to be disproportionately represented in certain national origin groups. The inability to communicate with persons of LEP therefore may have the effect of discriminating against certain persons on the basis of national origin. This regulation will establish standards for compliance by recipients and provide guidance to OCR Regional Offices in conducting complaint investigations and compliance reviews. Compliance with these regulations would improve access to services for persons regardless of national origin. The alternative would be to do nothing about the identified problem, which would be detrimental to LEP persons.

960. AUDITS OF NONGOVERNMENTAL GRANTEES

Significance: Agency Priority

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74.62

Legal Deadline: None

Abstract: This action will implement OMB Circular A-133 which was issued on March 8, 1990. The Circular provides governmentwide standards for non-Federal audits of colleges and universities and other nonprofit recipients of Federal grants and contracts and requires such audits for fiscal periods beginning on or after January 1, 1990. The Circular exempts hospitals not affiliated with institutions of higher education. The HHS implementation of the Circular will contain a definition of affiliation on which the public will be afforded an opportunity to provide comments. The Circular and these amendments replace the audit requirements currently contained in OMB Circular A-110.

Additional Information: Only a small number of public comments on the interim final rule's definition of affiliation were received. However, they contained some misunderstandings about the HHS definition and its effects, as well as a number of suggestions for possible changes thereto. We are carefully considering those comments and expect to issue a final rule responding to misunderstandings and making some minor changes to the definition.

CFR Citation: 42 CFR 1001; 42 CFR 1003

Legal Deadline: None

Abstract: These final regulations provide for the imposition of civil money penalties and exclusions against physicians billing the Medicare program or program beneficiaries for services of an assistant at surgery for cataract operations where prior approval has not been granted. This rule specifically responds to various comments raised as a result of the interim final, and makes a number of technical corrections to those final regulations.

968. IMPLEMENTATION OF THE EQUAL ACCESS TO JUSTICE ACT IN AGENCY PROCEEDINGS

Legal Authority: 5 USC 504(c)(1)

CFR Citation: 45 CFR 13

Abstract: The Equal Access to Justice Act requires agencies to pay attorney fees to parties prevailing against the Government in certain types of administrative proceedings. It requires each agency to issue rules implementing the Act as it applies to these proceedings. As originally enacted, the Act had a sunset clause. A statutory

amendment eliminated the sunset provision and made other changes in the Act. The instant regulation would amend 45 CFR part 13 (HHS's regulation implementing the Act) to eliminate the corresponding sunset provision and to make other changes conforming with the statutory changes.

Abstract: Sections 1.00 and 101.00 of appendix 1 to the Disability Regulations (404.1501 through 404.1599) describe those musculoskeletal impairments which are considered severe enough to

prevent a person from doing any gainful activity or, in the case of a child under age 18, age-appropriate activities. We are proposing comprehensive revisions to these sections to ensure that the medical evaluation criteria are up to date and consistent with the latest advances in medicine. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program.

Legal Deadline: None

Abstract: Sec. 2615 of Pub. L. 98-369 amended sec. 1127 of the Social Security Act to eliminate windfalls that permitted some people who were paid Old-Age, Survivors and Disability Insurance (OASDI) and Supplemental Security Income (SSI) benefits retroactively to receive more in total benefits for the same period than if they had been paid the benefits when regularly due. The two main changes are: (1) SSI benefits will be reduced where retroactive OASDI benefits have been paid before the SSI benefits. Under prior law, reductions could be made only in retroactive OASDI benefits and only when the retroactive SSI had been paid first. (2) OASDI or SSI benefits payable upon reinstatement following a period of suspension or termination will be reduced by the amount of SSI benefits that would not have been paid if the OASDI benefits had been paid when regularly due. We will amend our regulations to conform to the statutory changes. The program savings to SSA are estimated at \$5 million a year. Any costs/savings are associated with the legislation being implemented and not with the regulations themselves.

Abstract: Existing regulations at 20 CFR 404.468(d) provide a vocational rehabilitation exception to the nonpayment of benefits to prisoners provision described at 20 CFR 404.468(a). Under the exception, the nonpayment provision does not apply if a prisoner who is entitled to benefits on

the basis of disability is actively and satisfactorily participating in a rehabilitation program which has been specifically approved for the individual by a court of law. In addition, the Secretary must determine that the program is expected to result in the individual being able to do substantial gainful activity upon release and within a reasonable time. No benefits will be paid to the prisoner for any month prior to the approval of the program. The proposed regulations would set out more definitive criteria for applying the exception and would define terms, such as "rehabilitation program," "court of law," and "reasonable time," for purposes of applying the exception.

Legal Deadline: Other, Statutory, June 1, 1990.

Abstract: These proposed regulations reflect the provisions of section 8010 of Pub. L. 101-239 which waive the SSI income and resource deeming rules (which deem the income and resources of a disabled child's parents to the child if the child is living at home) for disabled children who were eligible for SSI benefits while in a medical institution and who qualify for Medicaid under a State home care plan authorized under title XIX when deeming parental income and resources would make the disabled child ineligible for SSI benefits or eligible for a payment of less than the personal needs allowance. This was effective June 1, 1990.

Abstract: These proposed regulations amend the existing regulations to change how we determine when recovery of an overpayment would be against equity and good conscience. Currently, regulations permit determinations that recovery of an overpayment would be against equity and good conscience under three specific conditions. The proposed regulations will provide for the "against equity and good conscience" determination to be based on an examination and consideration of a variety of factors such as cause and result of overpayment, fairness, and defeat the purpose of the program as they affect both the beneficiary and the Social Security Administration.

Abstract: We propose to add new rules to test modifications to the disability determination procedures that we follow under titles II and XVI of the Social Security Act. On a limited basis, we will test procedures designed to improve the disability claims process. These models are designed to provide us with comprehensive information regarding the effect of these procedures on the disability process. They will enable us to measure whether, and to what degree, the disability process may be improved, especially with respect to obtaining the correct decision earlier in the process and shortening aggregate processing times. We will measure costs and determine the feasibility of each model. The intended result of testing these models is to enable SSA to make recommendations for national implementation of improvements to the disability process.

Abstract: This regulation reorganizes, revises, and clarifies the rules on withholding, reducing, suspending, and terminating an SSI beneficiary's SSI benefits. This regulation's purpose is to make these rules easier to read and understand. These rules also reflect the following statutory enactments: (1) section 3 of Pub. L. 99-643, (2) section 4 of Pub. L. 99-643, (3) section 9103 of Pub. L. 100-203, (4) section 9112 of Pub. L. 100-203, (5) section 9115 of Pub. L. 100-203, (6) section 8009 of Pub. L. 101-239, (7) section 5038 of Pub. L. 101-508, and (8) section 5105 of Pub. L. 101-508.

Abstract: Sections 4.00 and 104.00 of appendix 1 of the Disability regulations (404.1501 through 404.1599) describe cardiovascular impairments considered severe enough to prevent an individual from doing any gainful activity or, in the case of a child under age 18, age-appropriate activities. Because of the advances in medical technologies and practice in this area we are revising the criteria in the Listing of Impairments to bring these sections up to date. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program.

Abstract: Sections 3.00 and 103.00 of appendix 1 to the Disability Regulations (404.1501 through 404.1599) describe those respiratory impairments which are considered severe enough to prevent a person from engaging in any gainful activity or, in the case of a child under age 18, age-appropriate activities. We are proposing revisions to require consideration of the nature and clinical manifestations of respiratory disorders

and the limitations such disorders impose on the individual's ability to function. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance programs.

Abstract: This change permits the continued payment of disability benefits to persons who medically recover while participating in a vocational rehabilitation (VR) program, without regard to whether the person was expected at the onset of the VR program to medically recover before the scheduled completion date of the program and without regard to whether the person has any residual functional limitation. These changes bring the regulations into conformity with certain court decisions.

Abstract: The proposed regulation reflects the provisions of the following statutes: (1) Pub. L. 97-458, enacted

January 12, 1983, which provides that Indian judgment funds held in trust or distributed per capita pursuant to a plan approved by Congress or the Secretary of the Interior are excluded from income and resources under the Supplemental Security Income Program; (2) Pub. L. 98-4 enacted August 2, 1983, which provides for the exclusion of all funds held in trust by the Secretary of the Interior for an Indian tribe and distributed per capita to a member of that tribe; and (3) Pub. L. 100-241, enacted February 3, 1988, which provides for the exclusion from income and resources of certain items received by an individual Alaskan native or descendant of an Alaskan native from a native corporation. The program and administrative impact of these regulations are negligible, i.e., less than \$1 million and/or 30 workyears.

Abstract: Section 8 of Pub. L. 99-643 provides that effective for benefits payable for months after May 1986, an underpayment shall be paid to any surviving spouse of a deceased SSI recipient whether or not the spouse was eligible for SSI, if such spouse was living in the same household with the recipient at the time of death, or within the 6 months immediately preceding the month of death; or to the parent(s) of a deceased disabled or blind child who was an SSI recipient if the recipient was living with the parent(s) at the time of death or within the 6 months immediately preceding the month of death. These proposed regulations would also reflect a policy change that would continue the appeals process (versus automatic dismissal), at the Administrative Law Judge or Appeals Council level, for the survivors' entitlement to an underpayment if they meet certain conditions.

Abstract: Under the current SSI rules, three different formulas are used to calculate the amount of income deemed to an eligible child from his or her ineligible parent(s) when they are living together. The formulas produce different results depending on the type of income (earned versus unearned) and the number of children in the household. This sometimes creates anomalies. The rule would resolve the anomalies by providing that one formula be used regardless of the type of parental income. The formula to be used is the formula now used when the parent(s) has both earned and unearned income.

Abstract: Money borrowed (a loan) is not income for SSI purposes and therefore has no effect on a person's SSI benefits. These regulations will state that only cash transactions may be considered loans. These regulations will also provide that the one-third

reduction rule which applies when a person who lives in another's household and receives in-kind support and maintenance will not apply if the SSI recipient pays his or her pro rata share in cash and no later than the month under consideration. No additional costs or savings are anticipated.

Abstract: These regulations would reflect statutory changes that extend Social Security coverage to work situations not previously covered. These newly covered work situations include: (1) Inactive duty training in the uniformed services; (2) Certain agricultural labor situations; and (3) Work for a spouse or parent. Additionally, the year for reporting corporate directors' income has been changed, and Medicare coverage is provided to many previously uncovered State and local government employees. Also, these regulations would reflect a

Abstract: The proposed rules contain procedures for determining when a State agency has substantially failed to make disability determinations in accordance with applicable Federal law. If it is determined that a State agency has substantially failed to make disability determinations in a manner consistent with Federal regulations or other written guidelines, the Social Security Administration, in accordance with section 221 of the Social Security Act (42 USC 421), must assume the responsibility for making the disability determinations. The costs or savings likely to result from implementation of these regulations are not predictable.

Abstract: This proposed regulation implements the requirement that HHS, beginning not later than October 1, 1990, provide individuals aged 25 or older, who have a Social Security number and have wages or net self-employment income, with a Social Security account statement upon request of the individual. Public Law 101-239, section 10308 also provides that by September 30, 1995, statements would be automatically provided to all such individuals who attain age 60 (but are not yet receiving benefits) before October 1, of the previous year and for

whom HHS can determine a current address. Starting in October 1999, statements would be automatically provided on an annual basis to those under age 60 as well. (Retirement benefit estimates would not be required in the case of persons under age 50 although a general description of benefits available upon retirement would be required.) Regulations implementing these latter two provisions are to be issued at a later date.

Abstract: We will publish a proposed revision to 20 CFR 416.1242(a) to indicate that the time period for disposal of property begins on the date SSA accepts the individual's signed written agreement, provided that, on or before that date, SSA has determined that the individual meets the eligibility requirements in 20 CFR 416.202, with the exception of the resource requirement. The proposed rules will further state that if SSA receives a signed agreement prior to the date it determines that all nonresource requirements are met, SSA's acceptance of the written agreement will not occur (and thus, the time period for disposal of property will not begin) until SSA notifies the individual that all nonresource requirements are met.

Abstract: These proposed rules amend our regulations governing payments to States on alternate participants for vocational rehabilitation (VR) services provided to disabled or blind Social Security or Supplemental Security Income beneficiaries. They expand the use of non-State VR providers in situations in which a State VR agency declines to provide services to a beneficiary; ensure in appropriate cases that payment may be made only for those VR services that contribute to a beneficiary's return to work; prescribe the specific kinds of VR services for which payment may be made; and make other changes intended to improve the VR payment programs.

Abstract: The Department of Health and Human Services proposes to exempt a new system of records, 09-37-0021, "Public Health Services Records Related to Inquiries and Investigations" from certain requirements of the Privacy Act. The purpose of this

exemption is to protect records compiled in the course of an inquiry and/or investigation and to protect the identity of the confidential source of information. There are no known costs associated with the NPRM. The benefits will be that the investigative files will not be disclosed inappropriately and promises to withhold identities of individuals will be honored.

Abstract: The proposed rule addresses three major problems of the current regulation by (1) substantially upgrading laboratory performance tests for certifying respirators; (2) adding quantitative face seal performance tests; and (3) replacing current certification tests that are design- or application-specific with tests that are performance-based. The first NPRM for revising 42 CFR part 84 was published in the Federal Register on August 27,

1987 (52 FR 32402). In response to the many comments on the first proposal, NIOSH is in the process of developing a second NPRM.

Abstract: As a prerulemaking activity, FDA is developing guidance for manufacturers respecting how FDA would apply existing statutory requirements to the regulation of computer products (i.e., both hardware and software) when such products meet the definition of a medical device under the act.

On September 25, 1987, FDA made available a draft policy guidance intended to clarify how FDA would apply existing statutory requirements to the regulation of such products to provide opportunity for public participation in this activity.

Upon analysis of the public comments on the complex issues pertaining to the regulation of computer products, the agency will decide whether any additional steps are necessary to clarify which computer products meet the definition of a medical device and what level of regulation, if any, is appropriate under the act.

Abstract: FDA will request public comment and information on a plan to

Abstract: Acceptable evidence and information exist to show that a subgroup of asthmatics is at moderate to severe risk for a severe reaction upon exposure to sulfites. The agency's primary tool for handling a situation where population subgroups may be at increased risk from a food ingredient that is safe for most people is to use labeling to inform those persons who need or want to avoid the ingredient. The agency issued a final rule, effective January 7, 1987, that requires that when a sulfiting agent is present in a finished food at 10 parts per million or greater, the sulfiting agent must be declared on the label. In addition, FDA issued a final rule, effective August 8, 1986, prohibiting the use of sulfiting agents on raw fruits and vegetables intended to be served or sold raw to consumers (e.g., in salad bars). On December 10, 1987, FDA announced its tentative conclusion that there is no longer a basis to find that the use of sulfiting agents on "fresh" potatoes served or sold unpackaged to consumers is GRAS. On December 19, 1988, FDA proposed to affirm, with specific limitations, that certain other uses of sulfiting agents are GRAS (cont)

CONT: and to establish labeling requirements for sulfiting agents in standardized foods.

On March 15, 1990 (55 FR 9826), FDA issued a final rule prohibiting the use of sulfiting agents on "fresh" potatoes (55 FR 9826) and requested data and information concerning the use of sulfiting agents on frozen potatoes (55 FR 9834).

On August 3, 1990, the United States District Court for the Middle District of Pennsylvania declared the final rule concerning fresh potatoes to be "null and void" based on perceived procedural defects in the rulemaking proceeding. The Government appealed the district court's decision. On May 22, 1991, the U.S. Court of Appeals for the Third Circuit en banc affirmed, by an equally divided vote and without opinion, the decision of the district court invalidating on procedural grounds FDA's final rule revoking the GRAS status of the use of sulfiting agents on fresh potatoes.

FDA's repoposed rule will include the GRAS status of sulfiting agents on both fresh and frozen potatoes.

Abstract: The agency currently requires that all blood and blood components intended for the manufacture of any product be tested for antibody to human immunodeficiency virus (HIV). In instances when the blood of a donor is found to contain antibodies to HIV, some blood centers have initiated a program of voluntary "look-back" to notify consignees of blood and blood components obtained from the donor's prior donations. Consignees may withdraw or destroy such blood and blood products, and may trace and notify recipients. A well-conducted look-back program can provide an effective mechanism for identifying, testing, and counseling transfusion recipients who are at increased risk of HIV infection--those who receive blood from a donor later found to be infected with HIV. The agency is considering a proposal to establish a mandatory look-back program. The proposal would require blood collection facilities to develop a procedure to notify

Abstract: In light of the public health concerns raised by continuing findings concerning the effects of low levels of exposure to lead, particularly exposure by pregnant women, infants, and children, the agency is undertaking a comprehensive effort to further reduce lead levels in food where controllable or avoidable sources of lead addition to food can be identified. The goal of FDA is to reduce consumer's exposure to lead in the diet to the lowest level that can be practicably obtained. FDA has identified several potential sources of dietary lead exposure that it intends to address in proposed rules in its initiatives to reduce exposure to lead in the diet. The agency is also considering rulemaking concerning lead glazed

If final regulations are not issued by 11/08/92, the proposed regulations shall be considered the final regulations.

Abstract: The agency issued an advance notice of proposed rulemaking on August 8, 1989, requesting public comment on possible changes in the labeling of food products regulated by FDA. The agency sought public comment on five areas: 1) whether to revise the requirements for nutrition

labeling; 2) whether to change the nutrition label format on food packages; 3) whether to revise the requirements for ingredient labeling; (4) whether to formally define commonly used food descriptions and/or reconsider the use of standards of identity for foods; and (5) how to reasonably permit the use of messages on food labels that link food components to the prevention of disease. The agency also held four public hearings (see September 20, 1989; 54 FR 38806) to gather first-hand the views of consumers, industry, health professionals, and State and local government officials about labeling revisions. The agency issued three proposed regulations on July 19, 1990, that addressed nutrition labeling. On November 8, 1990, the President signed into law the Nutrition Labeling and Education Act of 1990. This Act requires that most foods bear nutrition labeling. The Act required that necessary (cont)

Proposed Rule Stage

Abstract: The Prescription Drug Marketing Act of 1987 (PDMA) amended the Federal Food, Drug, and Cosmetic Act to: (1) require State licensing of wholesale distributors of prescription human drugs under Federal guidelines including minimum standards for storage, handling, and recordkeeping; (2) ban the reimportation of prescription human drugs produced in the United States, except when reimported by the manufacturer for emergency use; (3) ban the sale, trade, or purchase of drug samples; (4) ban trafficking in or counterfeiting of drug coupons; (5) mandate storage, handling, and recordkeeping requirements for drug samples; (6) require licensed practitioners to request drug samples in writing; (7) prohibit, with certain exceptions, the resale of prescription human drugs purchased by hospitals or health care facilities; and (8) set forth criminal and civil penalties for violations of these provisions. In the Federal Register of September 14, 1990 (55 FR 38012), FDA issued a final rule setting forth Federal guidelines for State licensing of wholesale drug distributors. Abstract: The Safe Medical Devices Act of 1990 (SMDA), enacted November 28, 1990, was intended to assure marketed devices are safe and effective, FDA learns quickly of device problems, and has authority to remove defective devices from the market. The act directs or authorizes FDA to develop these regulations: Medical Device Reporting--This rule will require healthcare facilities and distributors to report deaths and serious injuries/illnesses related to medical devices. Medical Device Tracking--This regulation will require manufacturers to track certain devices to the user. Classification of Transitional Devices--FDA issued a notice to require submission of adverse safety and effectiveness data on transitional devices. FDA will now propose to keep each device in class III, or reclassify it in class I or II. Good Manufacturing Practices for Medical Devices--FDA will propose to add preproduction design validation in existing CGMP regulations. Exemption of Humanitarian Devices--A proposed rule will give procedures for applications for certain premarket review exemptions for humanitarian devices. (cont)

Abstract: The Food and Drug Administration is considering incorporating additional Hazard Analysis Critical Control Point (HACCP) principles into its proposal of mandatory seafood inspections. HACCP involves the identification and monitoring of "critical control points" in a processing or other operation the failure of which can render a product adulterated. HACCP has been strongly endorsed by the National Academy of Sciences for incorporation by the seafood industry.

CFR Citation: 21 CFR 600; 21 CFR 606

Legal Deadline: None

Abstract: All licensed blood establishments are required to notify FDA promptly of errors or accidents in the manufacture of products that may effect the safety, purity, or potency of any biological product (21 CFR 600.14). The reporting of certain errors or accidents occurring in the manufacture of blood and blood components is

necessary so that FDA can respond where the public health may be endangered and provide added assurance as to the continued safety, identity, quality, purported quality, and purity of blood and blood components. FDA has determined that errors and accidents that are detected and corrected before a finished unit is removed from the unprocessed inventory and made available for release and distribution do not affect the safety of the blood supply and need not be reported to the agency. The proposed rule not only makes this clear but also provides definitions of "error," "accident," "reportable error," and "reportable accident." The proposed rule would require licensed establishments, unlicensed establishments, and transfusion services to report and keep records. The cost to licensed establishments would be minimal (cont)

Abstract: The agency has determined that several steps should be taken to facilitate the early phases of clinical investigations of drug and biologic products, as part of the larger effort to speed the development and approval of promising new therapeutic products, without jeopardizing the safety of human study subjects or the quality of the data obtained. These steps are intended to eliminate the need by investigators to submit, and for FDA to review and approve, protocols that present minimal risk to subjects and do not require FDA involvement as part of an efficient drug development effort.

FDA is considering an amendment to 21 CFR Part 312 to exempt certain clinical investigations from the investigational new drug (IND) requirements, provided that specific requirements are met. The investigator would have to submit protocols for qualified studies to an institutional review board (IRB) rather than FDA.

Abstract: The Food and Drug Administration (FDA) is proposing a policy for determining when the likelihood/extent of migration of a component of a food contact article is so trivial as not to require regulation as a food additive. A substance considered under this Threshold of Regulation Policy would undergo an abbreviated review by the FDA, as opposed to the extensive review and formal issuance of a regulation required for other food additives. This proposal lists the criteria which must be met for a food-contact material to be reviewed under this policy and identifies the types of data that FDA will need for its review.

FDA has examined the economic implications of the proposed rule as required by Executive Order 12291 and finds that this proposed rule is not a major rule as defined by the Executive Order. However, this policy will reduce regulatory cost and delays and thereby bring important and innovative products to market faster.

Additional Information: ABSTRACT CONT: for "Antimicrobial Products." NPRM for "Alcohol (Topical) Products" to be included in revised NPRM for "Antimicrobial Products." The NPRM for "Antimicrobial Products" is being revised because it is being updated and split into two sections: first aid products and health care products.

SMALL ENTITIES AFFECTED: The effects, if any, vary depending on the individual rulemaking. However, the agency anticipates that the rules would not have a significant economic impact on a substantial number of small entities as defined by the Regulatory Flexibility Act.

1081. NEW ANIMAL DRUG APPROVAL PROCESS

Legal Authority: 21 USC 360b Federal, Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act

CFR Citation: 21 CFR 514.1; 21 CFR 514.8

Legal Deadline: None

Abstract: On December 17, 1991, the Agency published a proposed revision

of the existing regulations that are consistent with the current procedural regulations for human drugs where appropriate. The New Animal Drug Application (NADA) revisions would articulate general requirements in regulations containing performance standards and would complement them through detailed guidelines on, among other matters, appropriate ways of meeting requirements for submission of chemistry, pharmacology, and statistical data that would better address the intricate scientific issues involved. A separate proposed rule for reporting requirements for marketed animal drugs also published on that date.

1082. PROPOSED RULE TO IMPLEMENT THE ORPHAN DRUG AMENDMENTS TO THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

Significance: Regulatory Program

Legal Authority: PL 97-414 Orphan Drug Act; PL 100-290

CFR Citation: 21 CFR 316

Legal Deadline: None

Abstract: The Orphan Drug Act is intended to provide incentives for drug companies to invest in the development

of drugs for rare diseases or conditions. Certain incentives are necessary because "orphan drugs" are unlikely to be profitable. The agency is required to carry out provisions of the Orphan Drug Act, e.g., by designating a drug as an orphan drug, by providing protocol assistance, and by granting seven years of exclusive approval status. The proposed rule was published on January 29, 1991 that would establish procedures whereby drug sponsors can take advantage of the incentives to encourage development of orphan drugs. Several provisions of the Orphan Drug Act call for promulgation of regulations to provide the framework and guidance for implementing a program of incentives to drug sponsors and manufacturers.

1083. ABBREVIATED NEW DRUG APPLICATION REGULATIONS (TITLE I OF THE "DRUG PRICE COMPETITION AND PATENT TERM RESTORATION ACT OF 1984")

Significance: Agency Priority

Legal Authority: PL 98-417, title I

CFR Citation: 21 CFR 10; 21 CFR 310; 21 CFR 314; 21 CFR 320

Legal Deadline: None

Abstract: Until the passage of Title I of the Drug Price Competition and Patent Term Restoration Act of 1984, abbreviated new drug application (ANDA) procedures were only available for generic products equivalent to pioneer drugs approved

HHS-PHS-FDA

Final Rule Stage

before 1962. Title I opened up the ANDA policy to generic copies of products approved after 1962. On July 10, 1989 (54 FR 28872), FDA proposed regulations to implement Title I. The proposal provides for the submission of abbreviated new drug applications for generic versions of drug products first approved after 1962. These new provisions will benefit consumers by making generic drug products available more quickly.

The agency is reviewing the public comments submitted in response to the proposed rule and preparing the final rule in two segments. The first segment will establish requirements for format and content of an ANDA, suitability petitions, and certain administrative actions. The second segment will establish requirements for patient certification and exclusivity.

Abstract: The Food and Drug Administration and the National Institute on Drug Abuse have proposed to revise the conditions for the use of methadone in the maintenance treatment of narcotic addicts. The proposal would allow programs to provide minimum service (interim) maintenance treatment to patients awaiting placement in comprehensive maintenance treatment and require programs to provide counseling on avoidance of human immunodeficiency virus (HIV) transmission. These requirements are being considered in response to the HIV epidemic and are intended to allow more narcotic addicts into treatment more quickly, thereby decreasing the incidence of intravenous drug abuse and the transmission of HIV. Comments on the proposal revealed a large number of differing opinions on both the desirability of adopting interim maintenance standards and on a number of related issues. Because it was necessary to improve the administrative record before making a decision regarding any final action based on the proposal, FDA and NIDA held a public hearing on February 28, 1990, to solicit additional information. After careful review of the administrative record, including information received (cont)

Abstract: In the Federal Register of October 21, 1988 (53 FR 41561), FDA issued an interim rule effective upon date of publication, with opportunity for public comment, that set forth procedures designed to speed the availability of new therapies to desperately ill patients, while preserving appropriate guarantees for safety and effectiveness. These procedures are intended to facilitate the development, evaluation, and marketing of such products, especially where no satisfactory alternative therapies exist. These procedures reflect the recognition that physicians and patients are generally willing to accept greater risks or side effects from products that treat life-threatening and severely-debilitating illness. These procedures also reflect the recognition that the benefits of the drug need to be evaluated in light of the severity of the disease being treated. The procedures apply to life-threatening or severely debilitating illnesses. The agency is reviewing the public comments submitted in response to the interim rule and preparing a Federal Register document that will respond to these comments. The (cont)

Abstract: On November 8, 1990, FDA issued an interim rule effective upon date of publication, with opportunity for public comment. The interim rule requires the retention for a specified period of reserve samples of the drug products used to conduct bioavailability or bioequivalence studies of drug products and, when specifically requested, to release the reserve samples to FDA. The agency has reviewed the public comments submitted in response to the interim rule and is preparing a Federal Register document that will respond to these comments.

Abstract: In the Federal Register of October 4, 1991 (56 FR 50248), FDA issued an interim rule effective on November 4, 1991 with opportunity for public comment, revising the fee schedule for insulin certification services. The fees are intended to recover the full costs of operation of FDA's insulin certification program, including the unfunded liability of the Civil Service Retirement Fund and

appropriate overhead costs of the Public Health Service and Department of Health and Human Services. FDA is also considering similar amendments to the regulations governing fees for the color additive certification program.

Abstract: In the Federal Register of April 15, 1992 (57 FR 13234), FDA published proposed procedures under which the Agency would accelerate approval of new drug, antibiotic, and biological products used to treat life-threatening, very serious, or severely debilitating conditions when the condition lacks satisfactory alternative therapy. The procedures set forth in this proposed rule would accelerate approval of new drug, antibiotic, and biological products for serious or life-threatening illnesses, with provisions for continued study of the drugs' clinical effects after approval or, if necessary, with restrictions on use. Products approved under this proposal will have met the requisite statutory standards for safety and effectiveness, and will have full approval for marketing.

Legal Authority: 21 USC 321(n); 21 USC 351 to 352; 21 USC 355 to 357; 21 USC 371

Abstract: An agency study of drug product recalls over a 5-year period identified label mixups as the leading cause of recall incidents involving mislabeled products. An analysis of the recall incidents attributed to label mixups showed that the use of cut labels, labels of similar size, shape, or color, and deviations from existing current good manufacturing practice (CGMP) labeling requirements were the leading causes of such mixups. On June 23, 1989 (54 FR 26394), the agency proposed to amend the CGMP regulations to specify conditions for the use of gang-printed or cut labeling, exempt from CGMP labeling reconciliation requirements manufacturers that use automated 100-percent labeling inspection systems, and to require manufacturers to identify filled drug product containers that are not immediately labeled. This final rule, thus, establishes as requirements the proposed revisions to the CGMP regulations.

Abstract: The agency has proposed to require that human drugs in solid oral dosage form (e.g., tablets and capsules) be imprinted with a product specific code. The proposal would apply to both over-the-counter (OTC) and prescription drugs. Drug identification by imprinting serves a number of important public health functions such as identifying drugs in drug overdosing, alerting patients to drug substitution, identifying illicit products, and aiding FDA and other drug regulatory authorities in tracking counterfeit and defective drug products. The agency is reviewing the public comments submitted in response to the proposed rule and preparing a Federal Register document that will respond to those comments.

Abstract: This regulatory action is being taken to improve FDA's surveillance and enforcement activities with respect to new drug and abbreviated new drug applications (NDA's and ANDA's) and supplemental applications consistent with the agency's efforts to address certain fraudulent practices found during investigations of the generic drug industry. This regulation will amend the regulations governing the approval for marketing of new drugs and antibiotic drugs for human use (21 CFR Part 314) to require the submission by applicants of NDA's, ANDA's, and supplemental applications of an additional copy of the chemistry, manufacturing, and controls section of their applications. The additional copy will be used by FDA investigators during a preapproval inspection to audit application commitments and statements against actual manufacturing practices used by applicants. The regulation will also require the submission of certain information about the batches of a drug product used to perform bioavailability, bioequivalence, and stability tests.

Abstract: FDA has become aware through various sources of numerous reports of complications including permanent physical injuries, severe psychological disabilities, other serious injuries and deaths that have been attributed to incorrect supervision, handling or application of protective restraint devices by medical or paramedical personnel. Complications associated with protective restraint devices frequently result from misuse of the devices. To address potential misuse, it would be advisable for manufacturers to include specific

directions for use, to the extent that such directions are not currently available or not attached to or kept with the garment. Revocation of the premarket notification exemptions will allow FDA to collect information about the current availability and actual employment of directions for use and to monitor the introduction into commerce of new and changed protective restraints. Revocation of the Current Good Manufacturing exemption will allow FDA to require the necessary labeling. FDA is also considering educational programs to address this problem. FDA anticipates total first year costs of \$930,000 for this regulation. (CONT)

Abstract: Section 1138 of the Social Security Act requires Medicare and Medicaid participating hospitals that perform organ transplants to be members of and abide by the rules and requirements of the Organ Procurement and Transplantation Network (OPTN) as established by section 372 of the Public Health Service Act. Section 1138 also requires that for organ procurement costs attributable to payments to an Organ Procurement Organization (OPO) to be paid by Medicare or Medicaid, the OPO must be a member of and abide by the rules and requirements of the OPTN. No other entity (for example, a histocompatibility laboratory) is required to be a member of or abide by the rules of the OPTN under the provisions of the statute. It is the

Department's position that no rule, requirement, policy, or other issuance of the OPTN will be considered to be a "rule or requirement" of the Network within the meaning of section 1138 unless the Secretary has formally approved that rule. The OPTN is currently in operation and these rules will impose no further cost or provide any benefit other than that which now exists.

Section 312 of PL 99-660 requires the Secretary to propose regulations to amend the Vaccine Injury Table, based on the findings of the Institute of Medicine (IOM) study, (cont)

Abstract: The National Vaccine Injury Compensation (NVIC) Program, administered by the Secretary, and governed by subtitle 2 of title XXI of the Public Health Service Act, as enacted by the National Childhood Vaccine Injury Act of 1986 (the Act), provides a system of no-fault compensation for certain individuals who have been injured by specific childhood vaccines. The nature of the injuries, disabilities, illnesses, conditions, and deaths which will be presumed to result from the administration of specific vaccines, and the time period in which the first

symptom or manifestation of onset must occur for this presumption to apply, are outlined in section 2114 of the Act in what is known as the Vaccine Injury Table. This NPRM proposes to make refinements to the Vaccine Injury Table to more accurately reflect current scientific knowledge about the conditions that result from vaccines which will result in appropriate compensation for injuries related to vaccines.

Abstract: This NPRM proposes to require that in addition to reporting to the National Practitioner Data Bank medical malpractice payments made where physicians or other health care practitioners are named in judgments or settlements, payments be reported where they are made for the benefit of physicians or other health care practitioners not named in the judgments or settlements but who furnished or failed to furnish the health

care services upon which the actions or claims were based. The purpose of this NPRM is to prevent the evasion of the medical malpractice payment reporting requirement of the Data Bank through the agreement of the parties to a lawsuit to use the "corporate veil" to prevent the health care practitioner from being reported.

1107. HEALTH EDUCATION ASSISTANCE LOAN (HEAL) PROGRAM: PERFORMANCE STANDARDS

Significance: Regulatory Program

Legal Authority: 42 USC 216; 42 USC 294 to 294l

CFR Citation: 42 CFR 60

Legal Deadline: None

Abstract: This rule amends existing regulations governing the HEAL program to establish performance standards against which school, lender, and holder default rates would be measured. These standards would provide schools, lenders, and holders a greater incentive to work to maintain low HEAL default rates and, thus, improve the long-term solvency of the Student Loan Insurance Fund.

1109. NATIONAL HEALTH SERVICE CORPS LOAN REPAYMENT PROGRAM

Legal Authority: PL 100-177; 42 USC 2541-1

CFR Citation: 42 CFR 62.25(a)

Legal Deadline: None

Abstract: Abstract LRP -- This amendment revises section 62.25(a) of the interim rule for the National Health Service Corps Loan Repayment Program (LRP) as published April 3, 1989. The LRP authorizes the Secretary to repay a participant's graduate and undergraduate educational loans in exchange for health services provided in a federally designated health professional shortage area for a certain period of time. Loan repayments by the Secretary in advance of a participant's service are limited to one month or less. This amendment removes the provision which limits the Secretary's payment to one month in advance of services before the restrictive payment schedule has had an adverse affect on the successful implementation of the LRP. Deleting the payment limitation permits the program lump-sum payments at or near the beginning of the participant's service thereby increasing the attractiveness of the program. Other subparts of the interim rule will be revised to reflect the National Health Service Corps Revitalization Amendments of 1990 and will be published as an NPRM (see RIN 0905-AC65) in the near future. These amendments do not address the payment schedule issue.

Abstract: Public Law 93-638 passed in 1975, requires the IHS to turn over administrative responsibility to tribes so requesting, using the mechanism of contracting. Public Law 93-638 also authorizes the IHS to make grants to tribe(s) for the planning, development, and/or operations of health programs. Public Law 100-472, enacted October 5, 1988, made significant changes to the state and required that regulations implementing the amendments be promulgated in final within ten months of enactment. The law provides for tribal consultation and participation in the development of the regulations.

Procurement: This is a procurement-related action for which there is a statutory requirement. There is a paperwork burden associated with this action.

Additional Information: 1. The Act (P.L. 100-472) provides that except for construction contracts, the Office of Federal Procurement Policy Act and Federal Acquisition Regulations shall

not apply to self-determination contracts. Therefore, implementing regulations for the Indian Self-Determination Act amendments will include a subpart on construction contracts which, unlike other self-determination awards, will be made subject to certain procurement rules (e.g., FARS, HSARS, FSARS). 2. There is a statutory requirement to implement P.L. 93-638 regulations. 3. There is a paperwork burden associated with the action. It will be included with the overall clearance package.

GRANTS FOR HEALTH SERVICES RESEARCH, EVALUATION, DEMONSTRATION, AND DISSEMINATION PROJECTS**Legal Authority:** 42 USC 299c-1(e)**FR Citation:** 42 CFR 67**Legal Deadline:** None**Abstract:** This NPRM proposes to revise the regulations under 42 CFR part 67 governing grants for health services research and grants for health services research centers made by the former National Center for Health Services Research and Health Care Technology Assessment (NCHSR).

Public Law 101-239, enacted on December 19, 1989, established the Agency for Health Care Policy and Research, replacing the NCHSR, and provided the new agency with a much expanded role in health services research. The NPRM will incorporate applicable provisions of the new law.

We anticipate that the increased use of electronic claims will help reduce administrative costs by eliminating the need for burdensome paperwork and duplication of effort.

Abstract: This proposed rule would implement section 9401 of Pub.L. 99-272, which provides that, under Medicare, a physician must request from the Peer Review Organization (PRO) a readmission review for certain surgical procedures. Under section 9401, if the PRO determines that the procedure is not appropriate and medically necessary, the PRO will deny payment under Medicare. If the PRO cannot determine whether a surgical procedure is medically necessary and appropriate, the beneficiary would obtain an opinion from a second physician, or where the opinion of the second physician differs from the first physician, the beneficiary may obtain an opinion from a third physician. In addition, as required by section 4096(b) of Pub.L. 100-203, if an assigned claim by a physician or supplier or any claim by a provider is denied because the services furnished are not reasonable and necessary or constitute custodial care and the physician, supplier or provider, but not the beneficiary, knew, or reasonably could be expected to know, that the services were not covered by Medicare, (cont)

Abstract: This rule would revise the method Medicare uses to determine payment for the costs of malpractice insurance incurred by a hospital. A hospital would receive payment for its malpractice insurance costs based on the utilization formula adopted by the Secretary at the beginning of the Medicare program. That is, malpractice insurance costs will be included in the general and administrative cost center, along with other provider overhead costs, to be apportioned to the Medicare program based on the hospital's Medicare patient utilization.

Abstract: This rule proposes to establish optional prospective payment rates for routine services furnished by certain skilled nursing facilities. The

prospective rate would be on a per diem basis and would include payment for the cost of furnishing general inpatient routine services and associated capital-related costs. Ancillary services will be paid on the basis of reasonable cost. Abstract: This rule would amend or establish regulations relating to appeal rights and procedures for Medicare beneficiaries who are enrolled in health maintenance organizations (HMOs), competitive medical plans (CMPs), and health care prepayment plans (HCPPs). Specifically, the proposed rule would extend to HMO and CMP members the right to request review by a PRO of early hospital discharges; impose a 60-day limit for HMOs and CMPs to process requests by beneficiaries for reconsideration of decisions on denied services or claims; and require HCPPs to establish appeal procedures for enrollees who are Medicare beneficiaries. These changes are aimed at improving efficiency and at providing beneficiaries equitable appeal rights, regardless of their enrollment status.

Legal Deadline: None

Abstract: This rule would organize and codify in regulations the statutory changes to Medigap provisions made in 1987, 1988, 1989, and 1990. It will contain specific procedures for review of State regulatory plans (and individual policies) as required in the Omnibus Budget Reconciliation Act of 1990. These procedures are needed to permit Medigap insurance sales to continue uninterrupted as the program phases in during 1992 and 1993. The new standards were enacted by OBRA '87, and '90, the Medicare Catastrophic Coverage Act of 1988 and the Medicare Catastrophic Coverage Repeal Act of 1989.

Abstract: These rules would propose to require States to include in their State plans payment of Medicare cost-sharing for low income Medicare beneficiaries, Qualified Medicare Beneficiaries (QMB) and Qualified Disabled and Working Individuals (QDWI). The territories have the option to do the same. We would define cost-sharing, specify criteria for determining QMB status, propose requirements and options for payment amounts and limitations, and provide for Federal financial participation in State payments for Medicare cost-sharing on behalf of QMBs. For QDWIs Federal financial participation would be limited to Medicare, Part A premium. The changes would implement provisions of the Medicare Catastrophic Coverage Act of 1988 as modified by the Family Support Act of 1988, the Technical and Miscellaneous Revenue Act of 1988, the Omnibus Budget Reconciliation Act of 1989, and the Omnibus Budget Reconciliation Act of 1990. Abstract: Sections 1819(b)(3) and 1919(b)(3) of the Social Security Act, as amended by PL 100-203, require that in order for an institution to qualify to participate as a skilled nursing facility in the Medicare program, and, before October 1, 1990, as a skilled nursing facility or as an intermediate care facility in the Medicaid program, and effective October 1, 1990, as a nursing facility in the Medicaid program, it must conduct a comprehensive, standardized assessment of each resident's capability to perform daily life functions. The assessment must also describe significant impairments in the resident's functional capacity and be based on a uniform minimum data set specified by the Secretary. Sections 1819(f)(6)(A) and 1919(f)(6)(A) of the Act require the Secretary to specify a minimum data set of core elements and common definitions for use by nursing facilities in conducting the assessments. Section 6205(b)(2) of PL 101-239 required that a proposed rule be published before July 1, 1990 and that a final rule not be effective before 10/01/90.

Abstract: This proposed rule would set forth our policy for the payment of the costs of approved nursing and allied health science programs, an action directed by section 6205(b)(2) of PL 101-239. For the most part, the provisions set forth in this proposed rule restate or clarify our current policies governing these costs, which have been previously set forth in the provider reimbursement manual and other documents, but have never been included in the regulations. In addition, we are proposing to amend the list of approved programs and clarify payment rules for certified registered nurse anesthetist programs. This proposed rule would also implement section 4004 of PL 101-508, which provides that, effective with cost reporting periods beginning on or after October 1, 1990, under certain conditions, costs incurred by a hospital or educational institution related to the hospital for clinical training are treated as pass-through costs and paid on the basis of reasonable cost even though the hospital does not operate the education programs.

Legal Authority: PL 101-239; Sec 6024; 42 USC 1302

CFR Citation: 42 CFR 413.3(b)(2)

Legal Deadline: None

Abstract: Section 6024 of PL 101-239 required the Secretary to update the skilled nursing facility (SNF) cost limits effective for cost reporting periods beginning on or after October 1, 1989 in accordance with regulations that require the use of cost reports submitted by SNFs for cost reporting periods beginning not earlier than October 1, 1985. Many of the cost reports that HCFA uses to update limits on SNFs' costs are "as submitted" and therefore not "settled." Since using only "settled" cost reports is not always feasible, due to the lengthy time needed to receive and audit cost report data, HCFA is proposing that the adjustment factor be applied uniformly to all "as submitted" cost reports, contained on the SNF data base and the home health agency data used to establish future cost limits to adjust for the overstatement of costs that occurs in those reports. This rule sets forth the proposed adjustment factors and the methodology used to complete the factors.

Abstract: This rule would incorporate provisions of section 6113 of the Omnibus Budget Reconciliation Act of 1989 (OBRA '89) and section 4157 of the Omnibus Budget Reconciliation Act of 1990 (OBRA '90). Section 6113 of OBRA '89 provides coverage for the services of clinical psychologists (CPs) and clinical social workers. It requires CPs to agree to consult with the patient's primary care or attending physician. Also, it eliminates the dollar limitation that previously applied to mental health services although the 62.5 percent limitation still applies. OBRA '89 also defines the term "clinical social worker services" and places two exceptions on where such services can be covered. These exceptions include services provided to inpatients of hospitals and skilled nursing facilities that are Medicare participating. Section 4157 of OBRA '90 unbundled CP services from the definition of "inpatient hospital services."

Abstract: Section 6411(g) of the Omnibus Budget Reconciliation Act of 1989 prohibits disallowance on day habilitation services included in State plans which were approved on or before June 30, 1989. This prohibition will continue until clarifying regulations are promulgated. This proposed rule would specify the types of day habilitation and related services that a State may cover under paragraph (9) or (13) of section 1905(a) of the Social Security Act on behalf of persons with mental retardation or with related conditions.

Legal Authority: 42 USC 1395cc; 42 USC 1396a; 42 USC 1302

CFR Citation: 42 CFR 488

Abstract: These proposed regulations provide an alternative to terminating a psychiatric hospital's participation in the Medicare and Medicaid programs for facilities found to be out of compliance with participation requirements. These alternative sanctions could be imposed instead of terminating a psychiatric hospital's

participation in the Medicare and Medicaid programs where deficiencies do not present immediate jeopardy to the health and safety of psychiatric hospital patients.

These amendments are necessary to conform HCFA regulations to changes made by section 6020 of the Omnibus Budget Reconciliation Act of 1989 (Pub. L. 101-239) and section 4755 of the Omnibus Budget Reconciliation Act of 1990 (Pub. L. 101-508).

Abstract: This rule would implement section 1902(k) of the Social Security Act by defining Medicaid Qualifying Trust (MQT); establishing rules for counting as available income or resources the maximum amount that could be paid to or on behalf of a Medicaid applicant or recipient from the body of the MQT, from income to the trust, or from both; and permitting States to waive the application of the rule in situations in which its application would result in undue hardships.

The purpose of the rule is to prevent individuals who have sufficient income and resources to pay for medical care to shelter that income and resources through MQTs so that they can then become eligible for Medicaid.

Abstract: This rule would require State Medicaid agencies to refer Medicaid families with an absent parent to child support enforcement (CSE) agencies. Section 9142 of the Omnibus Budget Reconciliation Act of 1987 required CSE agencies to provide all CSE services to such Medicaid families who have assigned to the State their rights to medical support. State Medicaid agencies were encouraged to refer Medicaid recipients with absent parents to CSE agencies. However, consistency in referrals among States has not been good. The purpose of these rules is to

Abstract: This rule would allow States to choose to implement at their option a variation of the spenddown for medically needy individuals. Under the regular spenddown program a medically needy individual becomes eligible for Medicaid by spending down income in excess of the medically needy income standard until the standard is reached. Under the optional program, an applicant would pay the anticipated amount of regularly incurred expenses to the State instead of becoming eligible only after incurring expenses. Abstract: This rule would amend the regulations governing federally qualified health maintenance organizations (HMOs) and competitive medical plans (CMPs) contracting with the Medicare program, and certain HMOs and health insuring organizations (HIOs) contracting with States under the Medicaid program, by implementing changes made by sections 4204(a) and 4731(a) of the Omnibus Budget Reconciliation Act of 1990

Abstract: This rule would revise the regulations that govern the establishment of criteria and standards used to evaluate the performance of "fiscal intermediaries" (FIs) and "carriers" in the administration of the Medicare program. ("Intermediaries" and "carriers" are the contractors that process Medicare claims and bills under Part A (Hospital Insurance) and Part B (Supplementary Medical Insurance) of the Medicare program, respectively.) Under the Medicare program the performance of intermediaries and carriers is measured by using a Contractor Performance and Evaluation Program (CPEP) that evaluates activities against established performance criteria and standards. The criteria and standards vary from year to year to reflect shifting program emphases and statutory changes. The revisions will update and remove outdated material from the regulations, which will improve administration of the program.

Abstract: This rule would establish a definition of Medicaid expenditures for purposes of providing Federal matching funds (FFP) for State medical assistance claims. The rule would address the required documentation that States must submit to HCFA to qualify for FFP in State Medicaid expenditures and States' use of the estimation technique in submitting Medicaid expenditure claims.

Abstract: This regulation would impose a one-time user fee on those organizations seeking to qualify as health care prepayment plans. It would also require health care prepayment plans to specify the geographic service area in which it provides services and to ensure that medical services are available throughout that area. Finally, it would require the health care prepayment plan to inform Medicare beneficiaries of which Part B services it provides.

Legal Authority: PL 101-508, sec 7002

CFR Citation: 42 CFR 489

Legal Deadline: None

Abstract: Existing Medicare conditions of participation and provider agreements do not require that hospitals accept the Medicare Prospective Payment System (PPS) rate as payment in full when issued by a Federal Employee Health Benefit (FEHB) plan for an enrollee not entitled to Medicare Part A. As required by Section 7002(f) of Pub. L. 101-508, this regulation would require that FEHB plans limit their inpatient payment for retired FEHB enrollees who are age 65

and older, but who are not entitled to receive hospital insurance benefits under Medicare, to rates that would have been paid by Medicare under PPS. It also requires the Secretary to consider termination of the Medicare provider agreement when a hospital knowingly and willfully attempts to collect, on a repeated basis, from the patient the difference between the Medicare payment rates and the hospital's charge, less any deductible or coinsurance obligation.

Abstract: These regulations will reflect provisions of section 948 of Pub. L. 96-499 and section 2307 of Pub. L. 98-369.

This legislation deals with certain problems that have arisen in the Medicare program with respect to payment for physicians in the teaching setting. Specifically addressed by Congress is the problem of distinguishing between the services a physician furnishes to individual patients as a teaching physician and services furnished to the provider, as well as the method of payment for these services. These rules will set forth the conditions under which physicians in teaching settings will be paid on a

reasonable cost basis or, alternatively, on a reasonable charge basis. It also describes the methods used to determine the customary charges for the services of those physicians. The rules will also clarify related physician payment issues.

Abstract: This final rule with comment period will formally implement statutory requirements that require Medicare participating hospitals with emergency departments to provide upon request medical examinations and treatments for individuals with emergency medical conditions and women in active labor. A participating hospital that has specialized capabilities or facilities (such as burn, shock trauma, or neonatal intensive care units) must accept appropriate transfer if they have the capacity to treat the individual. Hospitals failing to meet those requirements may have their Medicare provider agreements terminated, and hospitals and responsible physicians may be subject to civil money penalties. Under section 9122 of Pub. L. 99-272, Medicare participating hospitals are required to accept CHAMPUS and CHAMPVA payment as payment in full for services provided to CHAMPUS and CHAMPVA beneficiaries. These regulations will also implement section 9305(b) of Pub. L. 99-509, which requires Medicare hospitals to give patients a notice of their discharge rights.

Final Rule Stage

Abstract: The rule will establish in regulations generally applicable standards and procedures for determinations as to whether and under what circumstances specific medical items and services should be paid for under Medicare. It establishes and explains the criteria relied upon for determining whether an item or service is "reasonable and necessary." The objective of the criteria and procedures set forth in this rule is to assure that Federal funds are expended only for medical services that are properly covered under the Medicare program.

Abstract: This final rule will require hospitals, as a condition of participation, to provide a discharge planning process for Medicare patients in accordance with section 9305(c) of Pub. L. 99-509. Revisions will also implement section 6025 of Pub. L. 101-239 to allow a doctor of dental surgery or dental medicine to be a hospital medical director if the laws of the State in which the hospital is located permit. The preamble to this final rule

withdraws proposed regulations for the qualifications of laboratory directors under section 9339(d) of Pub. L. 99-509. The information collection burden of several end-stage renal disease regulations is reduced.

Abstract: These regulations will implement sections 9343(c)(1), (c)(2), and (c)(3) of the Omnibus Budget Reconciliation Act of 1986, as amended by section 4157 of the Omnibus Budget Reconciliation Act of 1990. This rule, issued jointly by HCFA and OIG, will prohibit Medicare payment for most nonphysician services furnished to a hospital outpatient by a provider or supplier other than the hospital, unless the services are furnished under an arrangement with the hospital. The hospital will be obligated by its provider agreement to furnish the services directly or under an arrangement. These regulations also authorize OIG to impose a civil money penalty, not to exceed \$2,000, against any individual who knowingly and willfully presents, or causes to be presented, a bill or request for payment for a hospital outpatient service under Part B of Medicare in violation of an arrangement.

Legal Deadline: Final, Statutory, October 1, 1989.

Abstract: This regulation will implement section 1915(d) of the Social Security Act, which allows a State to obtain a waiver of certain Medicaid requirements to permit Federal financial participation for home and community based services provided to individuals age 65 or older who are shown by an evaluation to be likely to require the level of care provided in a skilled nursing facility (SNF) or intermediate care facility (ICF), (nursing facility (NF) effective October 1, 1990), the cost for which could be paid by Medicaid. The statute allows for waivers of statewideness, comparability, and income deeming. Under the waiver provisions, the total amount expended by the State for home and community based services, SNF services, and ICF services (NF effective October 1, 1990) for individuals over age 65 may not exceed a "projected amount," determined under the methodology provided in these regulations. For States electing this option the waiver would replace home and community based waivers available under section 1915(c) of the Act, for individuals in this age category.

Significance: Regulatory Program

Legal Authority: 42 USC 263a

CFR Citation: 42 CFR 493

Abstract: Historically the Department has regulated laboratories by "location," rather than by types of tests they perform. Amendments to the Clinical Laboratories Improvements Act of 1988 change this approach. The amendments require that the Department "regulate by test," using what is commonly referred to as the "complexity model." A final rule with comment period was published February 28, 1992, that set forth standards for all laboratories based on complexity and responds to public comments on the proposed standards. A final rule which will respond to public comments on the February 28 rule will also be issued.

CFR Citation: 42 CFR 485; 42 CFR 405; 42 CFR 482

Legal Deadline: Final, Statutory, November 16, 1991.

Abstract: This final rule sets forth changes to the conditions of coverage for organ procurement organizations (OPOs). It deals with the definition of an OPO service area, expansion of the qualifications for the Board of Directors, OPO assistance to be provided to hospitals in establishing and implementing protocols governing organ procurement activity, establishing criteria for allocating organs, and organ testing for AIDS.

1232. PREADMISSION SCREENING AND ANNUAL RESIDENT REVIEW (BPD-661-F)

Significance: Regulatory Program
Legal Authority: 42 USC 1395r; 42 USC 1302
CFR Citation: 42 CFR 483
Legal Deadline: NPRM, Statutory, March 19, 1990.

Abstract: This final rule would formally implement sections 4211 of the Omnibus Budget Reconciliation Act of 1987 (OBRA '87), section 6901 of the Omnibus Budget Reconciliation Act of 1989 and section 4801 of the Omnibus Budget Reconciliation Act of 1990 (OBRA '90). The provisions include: (1) State requirements for preadmission screening and annual resident review of individuals with mental illness or mental retardation who are applicants to or residents of nursing facilities that are certified for Medicaid; and (2) appeals systems for persons who may be transferred or discharged from facilities or who wish to dispute a determination made in the preadmission screening and annual review process. The changes in this rule include OBRA '90 provisions defining "severe mental illness" and "specialized services" which will reduce State review workloads and clarify Medicaid matching payment for the States.

CFR Citation: 42 CFR 405.502; 42 CFR 405.504
Legal Deadline: None

Abstract: This rule responds to comments we received on the proposed rule relating to the Medicare Economic Index (MEI). It would revise the procedure used to calculate the MEI in order to more accurately reflect year-to-year economic changes affecting the cost of providing physician services, thus insuring that Medicare payments for those services do not increase more than is justified. The final rule also amends current regulations to specify dates of services to which the revised MEI applies and to provide a procedure for further revisions of the MEI methodology.

Legal Authority: 42 USC 300e(c); 42 USC 300e-1(l); 42 USC 300e-9
CFR Citation: 42 CFR 417
Legal Deadline: None
Abstract: This rule would conform existing regulations to sections 5(b) and 7 of the Health Maintenance Organization (HMO) Amendments of 1988 (Pub. L. 100-517). It would prohibit employers from financially discriminating against HMO enrollees in setting employee health plan contributions. It would also eliminate the requirement that one-third of a HMO's policymaking body be HMO enrollees.

Legal Deadline: None

Abstract: This rule amends the fire safety standards for hospitals, long term care facilities, and intermediate care facilities for the mentally retarded and affects only those facilities. It deletes references to the 1967 and 1973 editions of the Life Safety Code of the National Fire Protection Association and requires compliance with either the 1981 or 1985 editions depending on the date when the facility was first certified to participate in Medicare or Medicaid. This rule creates a uniform policy for all types of facilities that participate in the Medicare and Medicaid programs. The revision of the 1967 and 1973 editions of the Life Safety Code is intended to ensure that Medicare and Medicaid beneficiaries and recipients have the benefit of the most current fire protection standards.

Abstract: This final rule with comment period amends the Medicare and Medicaid regulations by removing obsolete long-term care survey forms, guidelines, and procedures used by State agencies when they evaluate a Medicare skilled nursing facility or a Medicaid nursing facility for compliance with Federal certification requirements. Effective October 1, 1990, the application of new Federal participation requirements for these facilities with an increased focus on actual or potential resident outcomes has made the survey forms and process in existing regulations outdated. Retention of the outdated items could cause confusion in connection with directions State survey agencies must follow in determining facility compliance.

that implements sections 6003(g) and 6116 of the Omnibus Budget Reconciliation Act of 1989 (Pub. Abstract: This final rule with comment period updates the Medicare regulations to add or conform them to certain self-implementing provisions on coverage of services and payment requirements under the Omnibus Budget Reconciliation Act of 1990. In some cases, certain self-implementing provisions of the Omnibus Budget Reconciliation Act of 1989 and the Medicare Catastrophic Coverage Repeal Act of 1989 have been included so that

the OBRA '90 provisions could be accurately reflected in the regulations.

The immediate update of the regulations will remove existing conflicts between the regulations and the statute, thus preventing possible public confusion. A final rule may be published in response to public comments.

Legal Authority: 42 USC 1302; 42 USC 1396a

CFR Citation: 42 CFR 442.105(a)

Legal Deadline: None

Abstract: This rule will delete a requirement in Medicaid regulations pertaining to State survey agencies, which certify facilities as meeting the requirements for participation in the Medicaid program. Specifically, we will delete the requirement that State survey agencies, when certifying facilities with deficiencies, must provide written documentation that the deficiencies do not jeopardize resident health and safety or seriously limit the facility's capacity to furnish adequate care. Because there are already other written requirements for documentation of these deficiencies, this revision will eliminate a duplicative administrative burden, while ensuring patient health and safety.

Abstract: This rule would incorporate into our regulations the provisions of section 4401 of the Omnibus Budget Reconciliation Act of 1990 which concern reimbursement for prescribed drugs. Section 4401 amended title XIX of the Social Security Act to add specific requirements for payment for covered outpatient drugs. In general, the requirements concern: denial of Federal technical participation unless rebate agreements and drug use review are in effect; prohibiting State plan drug access limitations for drugs covered under a rebate agreement; and the content of the rebate agreements. The drug rebate agreement was previously published in the Federal Register on February 21, 1991 (56 FR 7049).

Abstract: This final rule establishes criteria to be applied in determinations whether a wheelchair qualifies for treatment as a customized item for payment purposes. Section 4152(c)(4)(B) of the Omnibus Budget Reconciliation Act of 1990 established a broad definition, effective for items furnished on or after January 1, 1992, that could have the effect of encompassing many more items than are presently being determined to be "customized" for

payment purposes. However, that section also provides that the statutory criteria will not become effective if the Secretary develops specific criteria prior to January 1, 1992, for the treatment of wheelchairs as customized items for purposes of Medicare payment.

Abstract: The final rules will make minor changes in the interim rule which implemented statutory provisions effective in December 1991. They will amend the Medicare and Medicaid regulations governing provider agreements and contracts to establish requirements for States, hospitals, nursing facilities, skilled nursing facilities, providers of home health care or personal care services, hospice programs and prepaid health plans concerning advance directives. An advance directive is a written instruction, such as a living will or durable power of attorney for health care, recognized under State law,

Abstract: This rule provides for Medicare coverage of the drug erythropoietin (EPO) when used at home by ESRD patients who dialyze at home. This makes it more convenient for home dialysis patients, who previously had to go to a dialysis facility or a physician's office to have the drug administered. The rule establishes requirements to ensure that only patients found capable of home use of the drug are approved for it, and that those patients are properly monitored during home use of the drug. Section 4201(d)(1)(C) of the Omnibus Budget Reconciliation Act of 1990 provides for Medicare coverage of EPO effective July 1, 1991, subject to methods and standards established by the Secretary in regulations for the sale and effective use of the drug.

Significance: Agency Priority

CFR Citation: None

Legal Deadline: None

Abstract: In this final notice, we would recognize the accreditation program of the Joint Commission on the Accreditation of Healthcare Organizations (JCAHO) for Home Health Agencies (HHAs) that wish to participate in the Medicare or Medicaid programs. We have found that the accreditation process of this organization provides reasonable assurance that HHAs accredited by it meet the conditions required by Federal law and regulations. As a result of this determination, HHAs accredited by JCAHO would be "deemed" to meet the Medicare conditions of participation for HHAs, and therefore would not be subject to routine inspection by State survey agencies to determine their compliance with Federal Requirements. They would, however, be subject to validation and complaint investigation surveys.

Abstract: Section 1834(a)(7)(A) of the Social Security Act requires that the Secretary determine the meaning of the word "continuous" as it is used in defining a period of continuous use for which we make payments for durable medical equipment. Our current policy on this issue has been in effect under manual issuances since January 1, 1989, but it has not been published as a regulation. On May 31 1991, the U.S. District Court for Puerto Rico in *Medics, Inc. et al. v. Louis Sullivan* ordered the Secretary to publish a notice and comment rulemaking document in the Federal Register that sets forth rules concerning the meaning of continuous use as it applies to the rental of durable medical equipment under Medicare. The Court also ordered publication of a final rule. This rule addresses items required by the Court order.

Abstract: This rule interprets a
statutory requirement that State
Medicaid agencies must provide for
receipt and initial processing of
Medicaid applications filed by certain
low-income pregnant women, infants,
and children at locations which are
other than those used for receipt and
processing of Aid to Families with

Abstract: This interim final rule would
allow States to choose to provide home
and community care for functionally
disabled elderly as a State plan option.
Rather than imposing a cost-neutrality
component, as is the case in home and
community based care waiver programs
under section 1915 of the Social
Security Act, this rule imposes two cost
"caps" which are applied
independently. One cap prohibits States
from spending more than 50 percent of
the amount Medicare would pay for
certain nursing facility care, the second
cap is an aggregate limit on the amount
of Federal funding. This rule would
implement section 4711 of the Omnibus
Budget Reconciliation Act of 1990.

CFR Citation: 42 CFR 413.30

Legal Deadline: None

Abstract: The final notice with
comment period sets forth an updated
schedule of limits on skilled nursing
facility (SNF) inpatient routine service
costs for which payment may be made
under the Medicare program. The limits
will be developed using the most recent
hospital wage data and SNF market
basket inflation rates. It implements the
requirement in section 4008(e)(2) of Pub.
L. 101-508 that we provide for an

update to the per diem cost limits for
SNFs for cost reporting periods
"beginning on or after October 1, 1992
and every two years thereafter."

1270. ● REVIEW AND ADJUSTMENT TO RELATIVE VALUE UNITS IN THE MEDICARE PHYSICIAN FEE SCHEDULE FOR FY 1993 (BPD-758-N)

Significance: Regulatory Program

Legal Authority: 42 USC 1395w-4

CFR Citation: 42 CFR 415.24

Legal Deadline: None

Abstract: On November 25, 1991, we
published in the Federal Register the
Fee Schedule for Physicians Services. In
that final rule, which contained over
10,000 relative value units (RVUs), we
indicated our intention to publish
annual notices indicating adjustments
to the RVUs. Because it was believed
there was insufficient opportunity for
the public to comment on the proposed
RVUs which appeared in a proposed
rule of June 5, 1991, and because many
values changed after publication of the
proposed rule, the values published in
the final rule were considered initial
values on which we accepted public
comments. This final notice announces
additions or revisions to the RVUs.
Changes will be effective January 1,
1993.

Significance: Agency Priority

Legal Authority: PL 102-234, Sec 3

CFR Citation: None

Legal Deadline: Final, Statutory, September 30, 1992.

Abstract: This notice announces the National Fiscal Year 1993 Limit and Individual State Allotments for aggregate Medicaid payments made to hospitals that serve a disproportionate number of Medicaid recipients and low-income patients with special needs. This notice is being published in accordance with the provisions of Section 1923(f)(1)(c) of the Social Security Act. That section requires the Secretary of the Department of Health and Human Services, before the

beginning of each Fiscal Year (beginning with Fiscal Year 1993), to estimate and publish in the Federal Register the National Payment Limit, and each State's allotment within that limit, for disproportionate share hospitals payment.

Legal Authority: 42 USC 1302

CFR Citation: 42 CFR 424.350; 42 CFR 424.352; 42 CFR 424.354

Abstract: This rule revises the Medicare regulations governing the procedures for replacing checks issued by our fiscal intermediaries and carriers that are lost, stolen, defaced, mutilated, destroyed, or paid on forged endorsements. Since State has an established legal process for pursuing a claim for check replacement and recovery under these circumstances it is inefficient to provide duplicative Federal requirements. Our revised regulations would provide that any replacement or reclamation proceedings will be carried out in accordance with applicable State banking laws. We will continue to reissue only checks that have not been negotiated.

Abstract: This rule amends the regulations governing Utilization and Quality Control Peer Review Organizations (PROs) to provide for payment to hospitals for the costs of furnishing photocopies of medical records of Medicare beneficiaries to PROs. Currently, regulations provide that when PRO review is conducted offsite, the hospital must photocopy and deliver to the PRO, without charge, all required information within 30 days of the request. This rule is needed to accommodate the increased costs that hospitals incur as a result of offsite

review that are not already paid under the Medicare program.

Abstract: This NPRM, which implements section 20 of the Child Support Enforcement Amendments of 1984 (Pub. L. 98-378), specifies that in any case where the collection or increased collection of support under title IV-D of the Social Security Act contributes in whole or part to a family's ineligibility for AFDC, the family is deemed, but only for the purpose of Medicaid eligibility, to be receiving AFDC for a period of four calendar months after the last month of AFDC eligibility. This applies only to families who receive AFDC in three of the six months immediately preceding the month of ineligibility. "Received" includes those individuals denied an AFDC payment solely because of a payment under \$10, the recoupment of an overpayment, or because the payment is determined to be zero as a result of rounding.

Legal Deadline: None

Abstract: This regulation revises existing audit procedures as a result of changes to program regulations to implement the child support provisions of the Family Support Act of 1988. These changes establish timeframes and standards for providing child support enforcement services, and require use of guidelines to establish support orders among other things. Audit regulations are being revised for consistency with new program requirements.

The rule implements changes to the LIHEAP statute which were made by the Augustus F. Hawkins Human Services Reauthorization Act of 1990 (Pub. L. 101-501) and which affect grantee administration of the LIHEAP program in fiscal years 1991 and 1992. These changes involve the Department's response to formal

complaints, a reduction in the percent of LIHEAP funds that grantees may carry forward from one fiscal year to the next, waiver authority to increase the percent of LIHEAP funds that grantees may use for weatherization from 15% to 25%, a requirement for additional outreach and intake services under certain circumstances, and a new leveraging incentive program.

Semiannual Regulatory Agenda

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT (HUD)

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

24 CFR Subtitles A and B

[Docket No. N-92-3493; FR-3304-N-01]

Semiannual Agenda of Regulations

AGENCY: Department of Housing and Urban Development.

ACTION: Semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, of regulations expected to be issued and under review.

SUMMARY: In accordance with section 5 of Executive Order 12291 "Federal Regulation," the Department is publishing its agenda of proposed regulations already issued or expected to be issued and of currently effective rules that are under review. Also, under section 602 of the Regulatory Flexibility Act, the Department has prepared a regulatory flexibility agenda of regulations expected to be proposed or promulgated, which are likely to have a significant economic impact on a substantial number of small entities. As permitted by Executive Order 12291 and the Regulatory Flexibility Act, the two agendas are combined for publication.

FOR FURTHER INFORMATION CONTACT: Grady J. Norris, Assistant General Counsel for Regulations, Department of Housing and Urban Development, Room 10276, 451 Seventh Street SW., Washington, DC 20410, (202) 708-3055. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation," issued on February 17, 1981 (46 FR 13193), requires each agency to publish semiannually an agenda of regulations that the agency has issued or expects to issue and of currently effective regulations that are under agency review.

The Regulatory Flexibility Act, 5 U.S.C. 601-612, requires each agency to publish semiannually a regulatory

flexibility agenda of rules expected to be proposed or promulgated, which are likely to have a significant economic impact on a substantial number of "small entities," meaning small businesses, small organizations, or small governmental jurisdictions.

Executive Order 12291 and section 605 of the Regulatory Flexibility Act each permits incorporation of the agenda required with any other prescribed agenda. Accordingly, the agenda set out below combines the information required by the Executive order and by the Regulatory Flexibility Act. In addition, the agenda contains certain information not required by either the Executive order or by the Act which the Department considers useful, both better to inform the public and to enhance the Department's own inventory control over its body of regulations.

For purposes of Executive Order 12291, "regulation" or "rule" is defined as "an agency statement of general applicability and future effect designed to implement, interpret, or prescribe law or policy or describing the procedure or practice requirements of an agency" subject to certain exceptions. The agenda published below concentrates upon regulatory material contained or expected to be contained in the Code of Federal Regulations (CFR) (or incorporated therein by reference) following publication in the **Federal Register**. As appropriate, however, issuances in the nature of general statements of policy may be published in the **Federal Register** but not for coordination in the CFR.

The Department also is subject to certain requirements involving congressional review of rulemaking action, including publication of an agenda. Section 7(o) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)) requires that the Secretary transmit to the congressional committees having jurisdictional oversight (the Senate Committee on Banking, Housing and Urban Affairs and

the House Committee on Banking, Housing and Urban Affairs) a semiannual agenda of all rules or regulations which are under development or review by the Department. A rule appearing on the agenda cannot be published for comment before or during the first 15 calendar days after transmittal of the agenda. If, within that period, either committee notifies the Secretary that it intends to review any rule or regulation which appears on the agenda, the Secretary must submit to both committees a copy of the rule or regulation, in the form it is intended to be proposed, at least 15 calendar days before it is published for comment. The semiannual agenda published today is the agenda transmitted to the committees in compliance with the foregoing requirement.

The agenda items are divided first by program office. Within each program office, the agenda items are divided into four groups: (i) Prerulemaking actions, (ii) publication or other implementations of notices of proposed rulemaking, (iii) publications or other implementations of final rules, and (iv) completed actions. Within each grouping, rules are listed in chronological order by the part number of the CFR affected. Where a rule affects multiple parts of the CFR, the rule is listed by the first affected part number. Priority rules include all regulations designated for priority development by the Department.

Items listed in this agenda are from the following offices within the Department: Office of the Secretary; Office of Housing; Office of Public and Indian Housing; Office of Community Planning and Development; Office of Fair Housing and Equal Opportunity; Government National Mortgage Association; and Office of Administration.

Dated: August 25, 1992.

Frank Keating,

General Counsel.

Proposed Rule Stage

1339. NATIONAL HOMEOWNERSHIP TRUST DEMONSTRATION PROGRAM (S-13-91; FR-3032)

Legal Authority: PL 101-825

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: This rule would establish a seven-member board of directors, chaired by the HUD Secretary, within HUD for National Homeownership Trust that would provide funding for downpayments and limit interest on mortgage to 6 percent for eligible, first-time homeowners.

1340. PREFERENCE FOR NATIVE HAWAIIANS ON HAWAIIAN HOMELANDS UNDER CERTAIN HUD PROGRAMS (S-26-91; FR-3127)

Legal Authority: 42 USC 1437f

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Sec. 958 of the Cranston-Gonzalez National Affordable Housing Act of 1990 requires that HUD provide a preference for Native Hawaiians for certain housing assistance programs located on Hawaiian homelands. The programs affected by the new law

include multifamily FHA mortgages, the program under section 202 of the U.S. Housing Act of 1959 (elderly housing), project-based section 8 assistance, and public housing.

Legal Authority: 29 USC 794; 42 USC 3535(d); 42 USC 5309
CFR Citation: 24 CFR 1; 24 CFR 8
Legal Deadline: None

Abstract: This proposed rule would authorize the Secretary to defer financial assistance, during the pendency of administrative proceeding, on the basis of alleged noncompliance with the regulations implementing Title VI of the Civil Rights Act of 1964 and section 504 of the Rehabilitation Act of 1973.

Legal Authority: 42 USC 3535(d)
CFR Citation: 24 CFR 6
Legal Deadline: None

Abstract: This proposed rule would create a new part 6 which would implement section 109 of Title I of the Housing and Community Development Act of 1974. Section 109 requires that no person in the United States shall, on the ground of race, color, national origin, religion or sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program activity funded in whole or in part with community development funds. The rule will set forth the procedures and policies to assure nondiscrimination under section 109 in programs and activities receiving assistance from HUD under Title I of the HCD Act of 1974.

1343. ● RULEMAKING POLICIES AND PROCEDURES—EXPEDITING RULEMAKING AND POLICY IMPLEMENTATION (FR-3292)

Significance: Regulatory Program
Legal Authority: 5 USC 552; 5 USC 553; 42 USC 3535(d)
CFR Citation: 24 CFR 10
Legal Deadline: None

Abstract: This rule would amend 24 CFR Part 10, HUD's "rules on rules," to make possible the more timely implementation of new and changed policies of the Department in circumstances where notice and comment rulemaking is not required by law. The purposes of this rule are: to provide greater flexibility to the Department in implementing statutory and other changes to its program authorities; to avoid unnecessary rulemaking procedures; and to assure the more prompt delivery of program benefits provided for in new and amended statutes.

Legal Authority: 42 USC 3535(d)
CFR Citation: 24 CFR 24
Legal Deadline: None

Abstract: This proposed rule would amend existing 24 CFR 24.305, a part of the HUD Debarment Regulation. A recent United States District Court decision, involving an appeal of a debarment action taken by the Department, has greatly reduced the effectiveness of Section 24.305(d). The purpose of this rule is to correct the effect of the District Court's decision, and to clarify the Department's established and unchanged policy regarding causes for debarment.

Legal Authority: 42 USC 4321; PL 95-557

CFR Citation: 24 CFR 50

Legal Deadline: None

Abstract: This rule proposes to revise the regulations that govern environmental review and decisionmaking by HUD staff and officials for projects under all HUD programs except for programs for which State or local governments exercise these responsibilities (under 24 CFR part 58). The rule will take account of pertinent legislative changes to the authorizations for established programs. It will include any changes as may be required under new authorizations, including those programs of the National Affordable Housing Act of 1990 for which HUD retains environmental review responsibility. In addition, the rule will propose language to amend the current interim rules; to clarify provisions based on HUD experience with those rules; to reduce regulatory burdens and procedural details consistent with environmental laws and other authorities; and to assure policy consistency with Part 58 on matters common to both rules.

1347. ENVIRONMENTAL REVIEW PROCEDURES FOR STATE & LOCAL GOVERNMENTS UNDER HUD PROGRAMS (S-6-84; FR-1965)

Legal Authority: 42 USC 1437o(i); 42 USC 5304(f)

CFR Citation: 24 CFR 58

Legal Deadline: None

Abstract: This rule would accomplish the following purposes. First, it will implement section 288 of the Cranston-Gonzalez National Affordable Housing Act which, provides for the performance of environmental review responsibilities by States and units of local government for programs under title II of the Act, "Investment in Affordable Housing" (HOME programs). Second, it will indicate requirements and further exemptions and categorical exclusions applicable to the following: Community Development Block Grant Program; section 17 Rental Rehabilitation and Housing Development Programs; and programs under the Stewart B. McKinney Homeless Assistance Act. Finally, the rule will include certain clarifications based on public comments HUD received on the current interim rules.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 59

Legal Deadline: None

Abstract: This rule proposes to implement the requirements of Section 106 of the National Historic Preservation Act of 1966, as amended and the Archeological and Historic Preservation Act. The rule is designed to accommodate historic preservation concerns with the needs of HUD programs. The rule would apply to all HUD programs. It would require the agency official to take into account the effects of an undertaking on historic properties and, prior to approval of an undertaking, assure compliance with these regulations.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 95

Legal Deadline: None

Abstract: This proposed rule would restrict nepotism in employment and contracting by officials or grantees receiving grants from the United States Department of HUD. Under this rule, grantee officials may not employ relatives or participate in contracting with an entity in which a relative has a financial interest, unless the relationship is fully disclosed and a waiver is granted by the HUD Assistant Secretary responsible for the program under which the grant is provided. These prohibitions will standardize the rules imposed on HUD grantees and will minimize the possibility of improper favoritism through employment of, and contracting with, relatives of grantee officials.

Legal Deadline: None

Abstract: This rule implements changes made by the National Affordable Housing Act in the way the Federal preferences are applied. Now the statute provides that the preference for assisting families that occupy substandard housing, who pay more than 50 percent of income for rent, or who are involuntarily displaced, applies not to all the units but to 70 percent of units in project-based assistance programs and 90 percent of units in the tenant-based program (Housing Voucher and Certificate Program.) The rule also clarifies that the term "substandard housing" includes homelessness or housing in a homeless shelter.

Abstract: This rule would make the repayment of disallowed costs, as determined under the Departmental Audits Management System, a threshold requirement to be met in all of HUD's Discretionary Assistance Programs.

As such, this rule would provide an additional important tool for the Department to collect moneys expended for ineligible purposes under HUD

programs. This is particularly true with respect to State and Local Governments, which are not subject to administrative offset under the Federal Claims Collection Act.

There is no administrative or programmatic cost under the proposal. The potential for recovering disallowed costs, by establishing such a precondition for discretionary program assistance, lies in the millions of dollars.

Significance: Regulatory Program

Legal Authority: 42 USC 12721

CFR Citation: 24 CFR 92

Legal Deadline: None

Abstract: This rule implements the HOME Investment Partnership Act, as enacted by Title II of the Cranston-Gonzalez National Affordable Housing Act. This program among other purposes is intended to expand the supply of decent, safe, and sanitary affordable housing. Under the HOME Program, HUD provides formula allocations to participating jurisdictions to be used for specified eligible housing uses in accordance with the jurisdiction's approved comprehensive housing affordability strategies. A portion of these allocations may be used for investment in housing developed, sponsored, or owned by community housing development organizations. HUD may also provide technical assistance to develop the capacity of participating jurisdictions and will develop model programs designed to carry out the purposes of the Act.

Legal Authority: PL 101-625

CFR Citation: 24 CFR 92

Legal Deadline: None

Abstract: This rule implements the distribution of funding for insular areas under the HOME Investment Partnerships Act, Title II of the National Affordable Housing Act, as amended December 12, 1991. This rule will ensure that insular areas receive a HOME allocation in an amount that reflects their share of the total population of eligible jurisdictions and will establish additional specific criteria to regulate the amounts reserved for insular areas.

Legal Authority: PL 101-625

CFR Citation: 24 CFR 92

Legal Deadline: None

Abstract: This rule amends the HOME Investment Partnerships Program Interim rule that was published on Dec. 16, 1991. The HOME Program, among other purposes, is intended to expand the supply of decent, safe and sanitary affordable housing. Under the HOME Program, HUD provides formula allocations to participation jurisdictions to be used for specified housing activities. This rule would amend the effective interim rule by making technical corrections, clarifying intent, and making changes necessary to facilitate the implementation and purpose of the program.

Legal Deadline: None

Abstract: This rule will implement section 214 of the Housing and Community Development Act of 1980, as amended in 1981, 1986, and 1988. That Act prohibits the Secretary from providing financial assistance to substantially all illegal aliens as well as to most classes of aliens admitted for temporary purposes. The restriction applies to the Public and Indian Housing programs, the Section 8 Housing Assistance Payments programs, the Rent Supplement program, the Section 236 program, and the Section 235 homeownership assistance program.

This new rule will provide that alien status must be verified with the Immigration and Naturalization Service by the entity responsible for tenant selection (or for approval of a Section 235 mortgage application).

Final Rule Stage

Legal Deadline: None

Abstract: This rule amends the regulations at 24 CFR parts 203 and 234 to make certain changes to the FHA Single Family Mortgage Insurance program regulations in support of the new HOPE Grant Programs, authorized by Title IV of the Cranston-Gonzalez National Affordable Housing Act (NAHA). In the single family FHA mortgage insurance programs, there is a requirement for a down payment by the mortgagor in cash or the equivalent. The NAHA creates an exception to this requirement for the HOPE programs. The NAHA provides that the required down payment may be paid by a corporation or person other than the mortgagor if the mortgage covers a unit under the HOPE program. Accordingly, this rule amends the regulations at parts 203 and 234 to reflect this exception.

Abstract: This rule would amend the regulations which set forth the requirements for approval of mortgagees to participate in the FHA mortgage insurance programs and to maintain their approval status. The rule would establish new standards and

requirements for mortgagee approval. The new standards would include an increase in the net worth requirements for both FHA-approved mortgagees and loan correspondents. The purpose of the rule is to ensure that only responsible and soundly capitalized mortgagees participate in the FHA programs.

Abstract: This rule implements sections 601-605 of the Cranston Act, and is intended to preserve affordable, federally-assisted housing by: (1) permitting owners of eligible housing to prepay their HUD-insured mortgages only under certain circumstances; (2) providing incentives to owners to extend the low-income use of the housing; and (3) permitting owners to transfer the low-income housing to qualified purchasers, but only after priority purchasers (residents, nonprofits and public agencies) are given a right of first refusal. In addition, HUD is authorized to provide subsidies to these priority purchasers to acquire and rehabilitate the low-income housing and to fund operating and replacement reserves.

Significance: Regulatory Program

Legal Authority: 42 USC 11301 Stewart B. McKinney Homeless Assistance Act

CFR Citation: 24 CFR 582

Legal Deadline: Final, Statutory, August 5, 1992.

Abstract: The Cranston-Gonzalez National Affordable Housing Act amended the McKinney Act to create a new program for the homeless called Shelter Plus Care. The program provides rental housing assistance, in connection with supportive services to be provided by the recipient from sources other than this program, to homeless persons with disabilities (primarily persons who are seriously mentally ill, have chronic problems with alcohol, drugs, or both, or have AIDS and related diseases). The legislation requires HUD to publish a Notice establishing requirements for the program not later than 120 days after funds first become available for obligation and a regulation based on the Notice within 8 months following date of Notice.

Abstract: Section 802 of the Cranston-Gonzalez National Affordable Housing Act establishes a revised congregate housing services program which supersedes the Congregate Housing Services Program under the Congregate Housing Services Act of 1978. The new statutory provisions authorize provision of supportive services to enable frail elderly persons and persons with disabilities to live independently and also the provision of assistance for the retrofitting of dwelling units and common space to meet the special physical needs of residents. HUD and the Department of Agriculture are directed by Section 802(m) to jointly issue any necessary regulations within 180 days after enactment. No funds were appropriated for this program for FY 1991.

Legal Deadline: None

Abstract: This rule would amend HUD's regulations governing the location of assisted housing projects (site and neighborhood standards) to establish a quantitative standard by which HUD determines whether the location contains an undue concentration (high proportion) of poverty-level population. The existing regulations do not specify how an undue concentration determination will be made. The rule would require projects to be located only in census tracts in which the percentage of people with incomes below the poverty level is less than a stated, fixed percentage, with certain exceptions. The purpose of this rule is to provide for a more objective standard for determining undue concentration of lower-income households.

1389. PRE-FORECLOSURE SALE OPTION (H-12-89; FR-2682)

Legal Authority: 12 USC 1710

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Section 1064 of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 authorizes HUD to add pre-foreclosure sales to its roster of servicing options, as a means of saving the Department money and of assisting qualified mortgagors to avoid foreclosure of their FHA-insured mortgages. The Department is now able to pay a claim to a mortgagee to "bridge the gap" between the proceeds of a sale of the property to a third party buyer at current fair market value, and the original owner's indebtedness under the note. Until the Department received the authorization to pay these claims, such pre-foreclosure sales (or "short sales," as they are also known) were impracticable. At this time, a six to twelve month demonstration of pre-foreclosure sales is being conducted in five local HUD offices; subsequently, full implementing regulations will be issued to introduce the pre-foreclosure sale option throughout the Department.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 203.402(f); 24 CFR 203.402(g)

Legal Deadline: None

Abstract: Currently, section 203.402(g) authorizes mortgagees to be reimbursed 100% for all allowable expenses made for preservation and protection of properties until conveyance to HUD. There is little incentive for mortgagees to keep costs down. HUD has experienced problems with mortgagees exceeding established limits without approval and submitting claims for inappropriate expenditures. Requiring a two-thirds cap on reimbursements will provide a financial incentive for the mortgagees to cooperate in reducing expenses.

Tighter internal controls within a mortgagee's own operation ideally would improve due to the sharing of expenses and this would decrease demands on HUD's insurance funds.

24 CFR 203.402(g) would be changed to reflect a two-thirds reimbursement. Additionally, HUD is recommending removing the reference in 203.402(g) to eviction costs and moving it to 203.402(f), which covers foreclosure and other costs of acquiring the property.

Abstract: This proposed rule will modify the existing procedures governing (1) 291.105 maximum closing costs HUD will pay, (2) 291.110 direct sales to government entities and non-profit organizations, and (3) 291.130 extensions to the contract closing time requirement. (1) 291.105 provides that the closing costs HUD will pay may not exceed 6%. (2) 291.110 permits direct sales to government entities and nonprofit organizations at a discount of 10% off the list price. It is now proposed, for both (1) and (2), that the pre-set amount(s) be discontinued and that the Assistant Secretary for Housing have the discretion to determine the amount(s) as circumstances warrant. (3) 291.130 requires any request to extend the closing date to be accompanied by a predetermined fee. It is now proposed that owner-occupant purchasers be granted the initial 15 day extension at no cost if documentation is provided which indicates that proper and timely loan application was made, that the delayed closing is not the fault of the buyer, and that mortgage approval is imminent.

Significance: Regulatory Program

Legal Authority: PL 101-625

CFR Citation: 24 CFR 206

Legal Deadline: None

Abstract: Section 255 of the National Housing Act authorizes HUD to carry out a demonstration program for insuring mortgages on the homes of elderly homeowners, enabling the homeowners to convert the equity in

their homes into cash. Section 255 authorized HUD to insure up to 2,500 mortgages under this demonstration program until September 30, 1991. Section 334 of the 1990 National Affordable Housing Act amended Section 255 to: extend the program to September 30, 1995; increase the size of the program to 25,000 mortgages; and make other program changes, including specifying types of loans available to mortgagors, and imposing certain disclosure requirements on lenders.

Section 334(a), which extends the program and increases the number of insurable mortgages, will be implemented by final rule. The remaining provisions of Section 334, which require regulatory elaboration, will be implemented by proposed rule.

Abstract: This rule would amend HUD regulations to implement section 181 of the Housing and Community Development Act of 1987, section 1010 of the Stewart B. Section 181 expanded the scope of section 203 of the HCD Amendments of 1978 to include projects that are subject to a HUD-held mortgage and are delinquent, under a work out agreement, or being foreclosed upon by HUD. HUD, when it is owner or mortgagee-in-possession, and the owner in other situations now covered by section 203 must, to the greatest extent possible, maintain all such occupied projects in decent, safe, and sanitary condition and maintain full occupancy and must also maintain all such projects for purposes of providing rental or cooperative housing for the longest feasible time. The statute directs HUD to provide not less than one of several specified forms of financial assistance to a purchaser other than HUD at foreclosure, or after sale by the Secretary. Abstract: Section 8(c)(2)(B) of the United States Housing Act of 1937 permits HUD to adjust contract rents covering Section 8 assisted units to reflect increases in certain specified costs of owning and maintaining. Section 542 of the Cranston-Gonzalez National Affordable Housing Act amended Section 8 (c)(2) to provide the Secretary with the authority (subject to the availability of appropriations) to provide for rent adjustments where a project's operating, maintenance, and capital repair expenses have been substantially increased primarily as a result of the prevalence of drug-related activity. This section limits the rent adjustments to a level no greater than

120% of the project rents, to cover the costs of maintenance, security, capital repairs and reserves required for the owner to carry out a strategy acceptable to the Secretary for addressing the problem of drug-related criminal activity.

This proposed rule would implement the provisions of Section 542.

Abstract: Section 10 of the Real Estate Settlement Procedures Act (RESPA) establishes limits on the amount that lenders/servicers can collect in escrow accounts associated with federally related mortgage loans. When Regulation X, implementing RESPA, was published in 1976, no explication of this section was made. However, in recent years, the Attorneys General of several States have charged that

lenders/servicers were over-escrowing, in contravention of the RESPA limitations in Section 10. The Department has studied this situation, including making an analysis of servicers' practices of all the major servicers, and has concluded that a rule issued by the Department would be advantageous to the servicing industry in clarifying the allowable practices under Section 10 of RESPA.

Abstract: This final rule removes from the Code of Federal Regulations language concerning the Temporary Mortgage Assistance Payments (TMAP) program that has never been made effective. Since the Code now contains two sets of provisions pertaining to assistance to homeowners in default on FHA-insured mortgages that bear overlapping section numbers, this rule is needed to remove the TMAP provisions and to make technical changes in the provisions governing under section 230(b) of the National Housing Act. Among the technical changes is a requirement that a mortgagee inform a mortgagor of the possible right to assignment before it accepts a deed in lieu of foreclosure from the mortgagor.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 203

Legal Deadline: None

Abstract: This final rule would amend miscellaneous provisions of part 203 regarding the servicing of insured mortgages on single family housing. Specifically, the rule would amend the regulations (1) to require mortgagees to begin foreclosure proceedings on mortgages in default within 6 months of default; (2) to require commencement of foreclosure on abandoned or vacant property in default within 30 days after discovery; (3) to require mortgagees to repair any damage to the property that occurs while the property is in the mortgagee's possession; and (4) other amendments regarding deficiency judgments, title defects, completion of foreclosure, and notice of transfer of servicing.

TITLE BY MORTGAGEE OR THE
SECRETARY ON TITLE INSURANCE
POLICY (H-3-92; FR-3224)**

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 207

Legal Deadline: None

Abstract: Current regulations require a
mortgagee to furnish a survey and a
policy of title insurance or its
equivalent as a prerequisite to the
closing of an insured multifamily
housing loan. If a mortgagee
subsequently chooses to exercise its
right to assign a mortgage to HUD, it
must submit an owner's title policy in
favor of HUD that is effective on the
date that the project is conveyed to the
Secretary. This rule would amend HUD

regulations deleting the phrase "it will
become an owner's policy running to
the mortgagee or the Secretary as the
case may be," and substituting "it will
continue to provide the same coverage
as the original policy, and will run to
the mortgagee or the Secretary, as the
case may be." This will allow HUD to
decide on a case-by-case basis to either
purchase an owner's policy at its own
expense, or self-insure the time period
between assignment and foreclosure.

1449. REVISIONS TO HUD ENTERPRISE ZONE REGULATIONS (CPD-7-89; FR-2692)

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 596

Legal Deadline: None

Abstract: Amendments to existing enterprise zone legislation are currently under legislative consideration. This proposed rule (which is dependent upon

the adoption of pending legislation) would implement the new law insofar as it affects HUD's rule as selector of enterprise zones.

Legal Authority: 42 USC 5301 to 5320; 42 USC 4151; 42 USC 4153

CFR Citation: 24 CFR 570; 24 CFR 571

Legal Deadline: None

Abstract: This proposed rule would amend the regulations governing the CDBG grant program to require compliance with the structural accessibility standards promulgated under the Architectural Barriers Act of 1966 (ABA). The proposed rule, through amendments to 24 CFR parts 570 and 571 (the CDBG regulations), would provide that any building or facility designed, constructed or altered with grants made available under the CDBG Program, and which meets the ABA's definition of "building" is subject to the requirements of the ABA. The requirements of the ABA would apply to entitlement grants and nonentitlement grants under the CDBG Program, the Indian CDBG Program, and to the section 108 Loan Guarantee Program. The rule would provide for the ABA requirements to be applicable to funds allocated or reallocated after the effective date of the final rule. The purpose of the rule is to bring the CDBG Program into compliance with the requirements of the ABA.

1451. INCOME DEFINITION AND OTHER AMENDMENTS (CPD-5-90; FR-2772)

Legal Authority: 42 USC 5301

CFR Citation: 24 CFR 570

Legal Deadline: None

Abstract: This proposed rule would revise the Community Development

Block Grant (CDBG) program rules (24 CFR Part 570) in response to recommendations or suggestions by the Department's Inspector General, to clarify the language in section 570.204, and to include recent departmental policy determinations.

The proposed rule will address:

1. A proposed definition of income for families and households; changes in the definition of program income; and a definition of ineligible income payments.
2. Removal of the special protection afforded program income in revolving loan funds.
3. How "float loan" activities should be included in grantees' final statements.
4. The return of interest earned on loans made for ineligible activities to the U.S. Treasury.
5. Performance standards for CDBG grantees to make possible their certification that they are following their CHAS.
6. A requirement that the submission of an acceptable GPR is prerequisite to receiving a new grant award.

Legal Authority: PL 100-242, Sec 101

CFR Citation: 24 CFR 570.202

Legal Deadline: None

Abstract: A recent IG audit finding involving a sample of CDBG grantees revealed that general improvements were being undertaken in CDBG-assisted rehabilitation properties while leaving health and safety violations uncorrected. As a result of this finding, CDBG regulations need to be amended to incorporate a provision that would require the correction of all health and safety violations in CDBG-assisted rehabilitated properties before any general improvements to these

properties can be undertaken. The proposed rule will also include an exception that will allow properties with uncorrected health and safety violations to still take part in rehabilitation programs that grantees have established to expressly address significant community housing needs, such as energy conservation through weatherization programs and improving the exterior appearance of deteriorating buildings through painting programs. Moreover, the proposed rule will make clear that grantees will still have the flexibility to continue to provide funding for the general improvement of properties that are free and clear of health and safety violations.

Abstract: Current regulations define unused grant amounts and provide that the Department will reallocate these amounts from time to time, using certain selection criteria. Through its experience in administering the ESG Program, the Department has determined that the low amount of unused grant funds available for reallocation do not justify the current selection process. Under this rule the Department will add unused amounts to the next fiscal year's appropriation, to be distributed to entitlement grantees on the formula basis initially applicable to ESG appropriations.

Legal Authority: 12 USC 1721(g)

CFR Citation: 24 CFR 400

Legal Deadline: None

Abstract: GNMA is considering creation of a program under which GNMA will guarantee timely payment under Real Estate Mortgage Investment Conduits backed by GNMA Mortgage-Backed Securities. The regulation will provide an outline of the program. The program will be self-funding. It is projected that benefits will include attracting more capital and liquidity to the mortgage market which will reduce loan expenses, thus providing a greater opportunity for homeownership and affordable housing.

Abstract: The regulation fills a gap in the Office of the Inspector General's overall regulations (24 CFR Chapter XII) by creating rules to implement the requirements of the Privacy Act of 1974 in the OIG. The regulation incorporates the Department's existing Privacy Act

regulations (24 CFR Part 16) with modifications which conform those regulations to the OIG's organizational structure. In addition, the regulation addresses needed changes in the OIG's Privacy Act exemptions. With respect to the OIG's investigative files, the applicable exemptions are clarified; the reason provided for such exemptions are more detailed than those currently found at 24 CFR 16.14 and 16.15. In addition, the regulation sets forth the exemptions that are applicable to two new OIG systems of records.

Abstract: The Low Income Housing Preservation and Resident Homeownership Act of 1990 provides the Secretary of HUD with permanent authority to deal with HUD-assisted multifamily projects where owners have the option of prepaying their mortgages. Its basic objectives are to assure that

most of the inventory of HUD-assisted housing with mortgages eligible for prepayment remains affordable to low- and moderate-income households, while at the same time fairly compensating owners for the value of their properties. Section 222(e) specifies that, to prevent payment of windfall profits, the Secretary may make available incentive payments under the Act only to owners in those rental markets where there is an inadequate supply of decent, affordable housing or where necessary to accomplish other public policy objectives. The Notice explains in detail HUD's methodology for making these determinations.

Abstract: This rule will amend the Indian Housing rule's provisions concerning a resident's lease and grievance procedures to conform to statutory amendments made in 1990 by the National Affordable Housing Act. Those amendments made certain criminal activity by a member of the resident's household cause for termination of tenancy and permitted an IHA to use an expedited grievance procedure concerning such a termination. It also specified elements of due process, which—if provided under local law—would eliminate the need for providing a grievance procedure for this type of termination of tenancy or eviction.

Legal Authority: PL 101-625; 42 USC 3535(d)

CFR Citation: 24 CFR 960.500, subpart E

Legal Deadline: None

Abstract: The rule would permit HUD to waive the applicability of any occupancy requirements to allow police officers and other security personnel, not otherwise eligible for residence in public housing, to reside in public housing dwelling units upon submission by a PHA and approval by HUD of a plan identifying the projects in which the police officers or security personnel will reside and describing the benefits of their residence.

Significance: Regulatory Program

Legal Authority: 42 USC 1437g; PL 101-507

CFR Citation: 24 CFR 965; 24 CFR 905

Legal Deadline: None

Abstract: This rule would specify the requirements for a financially sound and responsible insurance provider for coverage of PHA and IHA required coverages. It would permit selection of a nonprofit insurance entity owned by PHAs or IHAs without competitive selection procedures when the entity satisfies these financial standards, in accordance with provisions of the HUD Appropriations Act for FY 1991.

Additional Information: This rule has been split off from a rule that dealt primarily with the Performance Funding System for calculating operating subsidy for PHAs. A proposed rule was published on December 19, 1989. After public comments were received, Congress legislated on the subject of PHA insurance--in the HUD Appropriations Act for FY 1991. As a result, this proposed rule is being undertaken as a separate project.

Final Rule Stage

Abstract: This rule established the Public Housing Management Assessment Program (PHMAP) in accordance with Section 502 of the National Affordable Housing Act of 1990 (approved Nov. 28, 1990, PL 101-625, 104 Stat. 4079. Section 502 requires HUD to assess the management performance of Public Housing Agencies (PHAs) in all major areas of management operations and designation of troubled PHAs. PHMAP uses 12 indicators, including seven specifically listed in the section and five other indicators deemed appropriate by HUD. HUD is required to seek to enter into agreements with troubled PHAs to improve their management performance. In the event of a substantial default on an agreement, HUD may petition for the appointment of a receiver or make other management changes for the troubled PHA. HUD is also authorized to commend exemplary PHAs.

PHMAP is intended to foster a uniform, nationwide level of excellence in public housing.

Abstract: This rule establishes procedures for the approval and funding of replacement housing for public housing units that have been demolished or disposed of. In addition,

HUD—PIH

under this rule HUD may approve an application for demolition if the project is obsolete, making it unusable for housing purposes and if no reasonable program modifications are feasible to return the project to a useful life. The rule also requires HUD, in allocating assistance for public housing acquisition or development or for Section 8 moderate rehabilitation, to give consideration to housing that replaces demolished public housing units in accordance with an approved replacement plan. PHAs are prohibited from taking any action to demolish or dispose of public housing projects without obtaining HUD's approval and satisfying pertinent statutory requirements.

Abstract: This rule will not include original proposals affecting comprehensive occupancy plans and acceptable occupancy standards, since these elements were disfavored by Congress. The rule will continue other elements included in the proposal. Operating subsidy expenditures for vacant units will be reduced in several newly defined subcategories of vacant units. Some units removed from the rent roll for non-dwelling use in anti-drug and in economic self-sufficiency activities may continue to be eligible for full subsidy. In addition, for small PHAs/IHAs the rule will maintain the five-unit exception from the 97 percent acceptable occupancy standard.

Abstract: The Department is proposing to amend 24 CFR chapter IX by adding a new subpart C in section 990 to require public housing agencies, but not Indian Housing Authorities, to establish and maintain a system of accounting for income and expenses by project or other appropriate cost center. This proposed change is directed by section 502(c) of the National Affordable Housing Act of 1990. The 1990 Act required that the Department promulgate regulations under section 553 of title 5, USC, taking into account the requirements of public housing agencies of different sizes and characteristics, to achieve compliance with the requirements of the above-cited section by January 1, 1993.

Semiannual Agenda of Rules
Scheduled for Review or Development

AGENCY: Office of the Secretary, Interior.

ACTION: Semiannual agenda of rules
scheduled for review or development.

SUMMARY: This notice provides the
semiannual agenda of rules scheduled
for review or development between

October 1992 and April 1993. An agenda
is required by the Regulatory Flexibility
Act and Executive Order 12291.

ADDRESSES: Unless otherwise indicated,
all agency contacts are located at the
Department of the Interior, 1849 C Street
NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT:

All comments and inquiries with regard
to these rules should be directed to the
appropriate agency contact. General
comments relating to the agenda should
be directed to the Division of Directives
and Regulatory Management, Office of
Management Improvement, Department
of the Interior, at the address above or
on (202) 208-6191.

SUPPLEMENTARY INFORMATION: With this
publication, the Department satisfies the
requirement of Executive Order 12291
that the Department publish, in April
and October of each year, an agenda of
rules that have been issued or are
expected to be issued and currently
effective rules that are scheduled for
review.

Simultaneously, the Department meets
the requirement of the Regulatory
Flexibility Act (5 U.S.C. 601 *et seq.*) that
an agenda be published in April and
October of each year identifying rules
which will have significant economic
effects on a substantial number of small
entities; those rules which will have
such effects are specifically identified in
the agenda.

This agenda also identifies rules
determined to be "significant" under
Executive Order 12498 and which are
included in this Department's 1992
regulatory program. A more
comprehensive discussion of this
program and the rules are contained in
the Regulatory Program of the United
States Government, which is published
by the Office of Management and
Budget.

Dated: August 26, 1992.

Procurement: This is a procurement-related action for which there is no statutory requirement. There is no paperwork burden associated with this action.

Additional Information: The previous RIN (1090-AA14) for miscellaneous revisions to the Department of the Interior Acquisition Regulation was used for the April 18, 1991, Federal Register publication of a revision in the acquisition regulation's numbering system. This office wishes at this time to reserve another agenda entry and RIN for the publication of future

revisions to the Department of the Interior Acquisition Regulation.

1523. NATURAL RESOURCE DAMAGE
ASSESSMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 9651(c)

CFR Citation: 43 CFR 11

Legal Deadline: None

Abstract: The Department is currently revising its CERCLA type B procedures based on a court ruling. Section 301(c)(3) of CERCLA requires that the regulations be reviewed and revised, as appropriate, on a biennial basis. The Department will begin a review of the type B rule once it is revised. The Department will ask trustees, other interested parties, and members of the public to draw upon their experience with the type B procedures and the general assessment process to advise the Department of areas where revisions to the process and the type B procedures may be desired. If these comments and suggestions show areas where revisions to the general process or to the type B procedures are needed, a notice of proposed rulemaking will be issued to revise the rule. This review will be closely coordinated with the rulemaking of the National Oceanic and Atmospheric Administration (Commerce), which has responsibility for natural resource damage assessment rulemaking under the Oil Pollution Act of 1990.

1524. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND AGREEMENTS WITH INSTITUTIONS OF HIGHER EDUCATION, HOSPITALS AND OTHER NONPROFIT INSTITUTIONS

Legal Authority: 5 USC 301; OMB Circular A-110

CFR Citation: 43 CFR 12

Legal Deadline: None

Abstract: This proposed rule will implement in a regulatory format the Department's Implementation of OMB Circular A-110. Prior implementation has been limited to a reference to the applicability of the Circular. Since the revision currently under way provides an opportunity for executive agencies to use this format to facilitate the preparation of their regulations, the Department has decided to use this approach.

1526. NATURAL RESOURCE DAMAGE ASSESSMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 9651(c) CERCLA

CFR Citation: 43 CFR 11

Legal Deadline: None

Abstract: CERCLA allows natural resource trustees to bring a claim

against a potentially responsible party for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c) (2) (A) calls for the promulgation of simplified assessment procedures. The Department has begun the development of a type A procedure for use in the Great Lakes environment. After a review of the natural resource damage

assessment rule, the U.S. Circuit Court of Appeals for the District of Columbia remanded certain parts of that rule to the Department for revision. The court upheld the use of an interactive computer model, but stated that such a model should incorporate restoration or replacement costs and all reliably calculated lost use values in the damage calculations. The Department will revise its development of a type A

procedure for Great Lakes environments to comply with the court's ruling.

Abstract: CERCLA allows natural resource trustees to bring a claim against a potentially responsible party for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c)(2)(A) calls for the promulgation of simplified assessment procedures. The first type A procedure for coastal and marine environments uses a computer model known as the natural resource damage assessment model for coastal and marine environments (NRDAM/CME). The U.S. Circuit Court of Appeals for the District of Columbia upheld the use of an interactive computer model, but stated that such a model should incorporate restoration or replacement costs and all reliably calculated lost use values in the damage calculations. The Department will revise the type A procedure for coastal and marine environments to comply with the court's ruling and will incorporate changes in response to the first biennial review of the type A procedure at the same time.

Legal Authority: EO 12549; 5 USC 301; EO 12689

CFR Citation: 43 CFR 12

Legal Deadline: None

EO 12689 directed agencies to simultaneously publish proposed rules within 6 months after resolution of differences between procurement and nonprocurement rules.

Abstract: This action proposes a revision to the Department's regulation establishing a uniform system of nonprocurement debarment and suspension. This proposed rule would implement the requirements of paragraph (a)(1) of section 12.110, Coverage, of common final rule on Governmentwide Debarment and Suspension (Nonprocurement).

Legal Authority: 35 USC 18

CFR Citation: 48 CFR 1400; 48 CFR 1427; 48 CFR 1452

Legal Deadline: None

Abstract: PL 98-620 amended 35 USC 18 dealing with patent rights in inventions made with Federal funding. On June 12, 1989, Federal Acquisition Regulation implementation of PL 98-620 was issued through FAC 84-48. Patent rights under Government contracts are covered in FAR subpart 27.3. FAR 27.304-5(b) requires agencies to establish and publish their respective appeals, administrative due process, and fact-finding procedures related to patent rights. The proposed Department of the Interior Acquisition Regulation coverage establishes Department of the Interior policy with regard to title rights, exception determinations, appeals, greater rights determinations, retention of rights by inventors, assignment of rights, exercise of march-in rights and licensing to third parties. It also identifies key Departmental points of contact in matters concerning patent rights. The proposed coverage supplements FAC 84-48 and amends sections 14227 and 1452, as parts of 48 CFR, chapter 14.

1536. NATURAL RESOURCE DAMAGE ASSESSMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 9651(c) CERCLA

CFR Citation: 43 CFR 11

Legal Deadline: None

Abstract: CERCLA allows natural resource trustees to bring a claim against a potentially responsible party for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c)(2)(B) calls for the promulgation of a set of alternative protocols for the testing, sampling, and determining compensation for natural resource damages, referred to as the type B procedures. Final rules for the assessment of damages were promulgated by the Department consistent with those requirements. In a review of those rules, the U.S. Circuit Court of Appeals for the District of Columbia held that restoration or replacement costs are the basic measure of natural resource damages under CERCLA, and all reliably calculated lost use values of injured natural resources should also be recoverable, with no required hierarchy of methodologies for conducting those valuations. The Department is considering revisions to the proposed rule based on comments received as of July 16, 1991. The required biennial review of the Type B rule will await completion of this revision implementing the court ruling.

Legal Authority: R.S. 2478, as amended; 43 USC 1201

CFR Citation: 43 CFR 4.21

Legal Deadline: None

Abstract: The proposed rule would revise the regulation found at 43 CFR 4.21(a) which governs the effect of an administrative decision pending appeal before the Office of Hearings and Appeals. The current rule provides that the filing of a Notice of Appeal will

automatically suspend the effect of the decision appealed from pending the decision on appeal, unless the Director, Office of Hearings and Appeals or the Appeals Board makes a special finding to the contrary. The revision would mandate that a decision remain in full force and effect pending appeal unless the appellant files a petition for a stay of the decision. In ruling on the petition the Appeals Board shall consider (1) the relative harm to the parties if the stay is granted or denied, (2) the likelihood of the appellant's success on the merits, (3) the likelihood of irreparable harm to the appellant if the stay is not granted,

and (4) whether the public interest favors granting the stay.

Originally scheduled: April 1985. EO 12291: These rules are major because of the economic values associated with migratory game bird hunting; however, the need to obtain and consider the latest population data for these migratory birds requires that the regulatory schedule be shortened. Legal Authority: 16 USC 701 to 711

CFR Citation: 50 CFR 21.13; 50 CFR 21.14

Legal Deadline: None

Abstract: The Service is proposing to review the regulations governing the release and harvest of captive-bred waterfowl on State-licensed shooting preserves. Considerable concern has been generated about these activities and their effects on the harvest and well-being of wild populations. The possibility for introduction of diseases into wild populations remains a serious concern. Current activities may be in conflict with prohibitions against live decoys (20.21f), and baiting (20.21i).

1548. ● MIGRATORY BIRD HUNTING: HUNTING REGULATIONS FOR RESTRICTION OF SHOTSHELL LENGTH

Significance: Agency Priority

Legal Authority: 16 USC 703 et seq

CFR Citation: 50 CFR 20

Legal Deadline: None

Abstract: Before the passage of the Migratory Bird Treaty Act (MBTA), there were no restrictions on firearms or ammunition used in the taking of migratory birds. The MBTA gave rise to regulations that required shotguns used

in the sport hunting of migratory birds to be not larger than 10 gauge. Recently, there has been a trend toward long shotshells, which defeats the intent of the present regulatory restriction to limit firepower to reduce crippling and unretrieved harvest of migratory birds. The 10 gauge 3 1/2 inch shotshell now in use has a larger payload than the 8-gauge, 3-inch shotshell outlawed for use earlier in this century. The intent is to limit shotshell length to the current maximum (3 1/2) to stop market competition for ever longer shells and to eliminate any waste of migratory gamebird resources that added shell length would induce.

Significance: Agency Priority

Legal Authority: 16 USC 1531 to 1543

CFR Citation: 50 CFR 23

Legal Deadline: Other, Judicial, June 11, 1992.

In accordance with Article XVI, paragraph 2 of the Convention, this addition will take effect 90 days after notification of all Party Nations.

Abstract: The Service adds the saffron toucanet, chestnut-eared aracari, red-breasted toucan, and the spot-billed toucanet, at the request of Argentina, and the hill myna at the request of Thailand, to Appendix II of the Endangered Species Convention. The

Convention regulates import, export, re-export, and introduction from the sea of certain animal and plant species. Species for which trade is controlled are listed in Appendices I, II, and III to the Convention. The countries participating in this treaty, including the U.S., recently adopted species amendments to Appendices I and II. The U.S. did not enter a reservation on any of the listing amendments approved at the recent eighth meeting of the Conference of the Parties. These amendments will be implemented in a separate rulemaking action.

1559. SEASONS AND BAG LIMITS FOR SUBSISTENCE MANAGEMENT REGULATIONS

Significance: Regulatory Program

Legal Authority: 16 USC 3111 to 3126

CFR Citation: 50 CFR 100

Legal Deadline: None

Abstract: This rule amends management regulations for subsistence hunting, trapping, and fishing on Federal lands in Alaska. The regulations implement the subsistence priority provisions for rural residents for Alaska under the Alaska National Interest Lands Conservation Act and provide for issuance of subsistence hunting, trapping, and fishing seasons and bag limits. Due to a decision by State court, management responsibility for subsistence taking of fish and wildlife was assumed by the Federal land management agencies in 1990.

This rule also provides for the seasonal bag limits and dates for subsistence hunting, trapping, and fishing on Federal lands in Alaska. The seasons and bag limits are developed in cooperation with State and local governmental entities to ensure that fish and wildlife populations in the State are adequately protected.

Additional Information: ANILCA requires the Secretaries of Interior and Agriculture to implement a joint program to grant a preference in favor of subsistence uses of fish and wildlife

resources on public lands unless the State of Alaska enacts and implements laws of general applicability consistent with ANILCA's requirements. The State implemented such a program; however, in December 1989, the Alaska Supreme Court ruled such program unconstitutional. As a result of that decision, the Departments of Interior and Agriculture were required to take over the implementation of title VIII of ANILCA on Federal lands on July 1, 1990. On June 29, 1990, the temporary Subsistence Management Regulations for Public Lands in Alaska were published in the Federal Register. The Service proposes to extend the temporary subsistence managements regulations to June 1992 in a separate rulemaking action.

Legal Authority: 16 USC 1531 et seq

Legal Deadline: None

Abstract: The Service proposes to amend 50 CFR 23, subparts A and B, to consider the following proposals recommended by the Conference of the Parties to the Convention on International Trade in Endangered Species of Wild Fauna and Flora: (1) Whether or not to reduce the paperwork burden for trade in certain hybrid plants. Such reduction would cause slight risks to wild plants, but a substantial reduction of administrative and public burdens. (2) Whether to require a fitness-to-travel checklist to reduce the high mortality/morbidity in the shipment of live animals. Processing such checklists would increase costs but would also increase awareness of live animals transport requirements/needs. (3) To allow innocent infractions of regulations to be cured by issuance of permits retroactively. While such action would increase costs slightly, there would be slight reductions in the cost of processing violations and such action would encourage voluntary compliance.

1564. APPLICATION FEES FOR CONTROLLED HUNTS ON NATIONAL WILDLIFE REFUGES

Legal Authority: 16 USC 668dd

CFR Citation: 50 CFR 25

Abstract: The popularity of controlled hunts has increased greatly over the last several years. Consequently, the number of applications for hunting permits has increased proportionately to such an extent that individual national wildlife refuges have been overburdened financially, and in terms of personnel work hours, with their review of such applications for permit eligibility and issuance. The purpose of this rulemaking is to provide a regulation that will pertain to the establishment of application fees for controlled hunts on national wildlife refuges. The establishment of an application fee would defray the additional burden placed upon the individual national wildlife refuge managing a controlled hunt.

Significance: Agency Priority

Legal Authority: 16 USC 1531 to 1544

CFR Citation: 50 CFR 17

Legal Deadline: Final, Statutory.

In accordance with 16 USC 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than 1 year after such proposal.

Abstract: The Fish and Wildlife Service proposes to establish four additional manatee sanctuaries (32 acres) in Kings

Bay, Crystal River, Citrus County, Florida. All waterborne activities would be prohibited in these sanctuaries from November 15 through March 31 of each year. The proposed action would prevent the taking of manatees by harassment resulting from waterborne activities during the winter months. The number of sanctuaries in Kings Bay would be increased from three (10.7 acres) to seven (42.7 acres) to accommodate the increase in the number of manatees using the area each winter, and to offset the harassment from increasing public use.

1569. ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Legal Authority: 16 USC 1531 to 1543

CFR Citation: 50 CFR 17

Legal Deadline: Final, Statutory. In accordance with 16 U.S.C. 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than one year after such proposal.

Abstract: Regulations will be developed to list, reclassify, or delist certain species of wildlife and plants as endangered or threatened species. When prudent, critical habitat will also be identified.

1570. ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Legal Authority: 16 USC 1531 to 1544

CFR Citation: 50 CFR 17

Legal Deadline: Final, Statutory. In accordance with 16 U.S.C. 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than one year after such proposal.

Abstract: Regulations will be developed which would list, reclassify, or delist, as appropriate, certain species of fish, wildlife and plants under the Endangered Species Act, and where prudent would identify critical habitat for endangered and threatened species. Such actions are taken upon determination that species are endangered, threatened, or neither and are based solely on the biological information available to the Department.

1571. PROPOSED DETERMINATION OF EXPERIMENTAL POPULATION STATUS FOR AN INTRODUCED POPULATION OF COLORADO SQUAWFISH

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service proposes to introduce Colorado squawfish (*Ptychocheilus lucius*) into the lower

Final Rule Stage

Colorado River in Arizona and to determine the population to be "nonessential experimental" population according to section 10(j) of the Endangered Species Act. The Service will propose a special rule to allow take in accordance with State law. In the past, Colorado squawfish were more widespread in the State of Arizona, occurring in several river drainages. This action is being taken in an effort to establish an additional population within the species' historic range.

1575. MIGRATORY BIRD PERMITS: DETERMINATION THAT KANSAS MEET FEDERAL FALCONRY STANDARDS

Legal Authority: 16 USC 703 to 712

CFR Citation: 50 CFR 21

Legal Deadline: None

Abstract: The Service proposes to revise 50 CFR 21 to add Kansas to the list of States participating in the joint Federal/State falconry permit system. The Director has determined that the falconry laws of the State meet or exceed the minimum Federal standards for the use of certain migratory birds for falconry. The proposed rule would permit the practice of falconry in that State.

1579. FARM-RAISED FISH; EXEMPTION FROM FISH AND WILDLIFE EXPORT REQUIREMENTS

Significance: Agency Priority

Legal Authority: 18 USC 42

CFR Citation: 50 CFR 14

Legal Deadline: None

Abstract: The Service has determined that the export of live farm-raised fish and farm-raised fish eggs does not adversely affect the wild resources. This rulemaking would exempt exporters from licensing requirements, designated port requirements, and payment of user fees. This rule will relieve exporters of the requirement of obtaining an import/export license (\$125 per year), and of the payment of user fees (\$25 per shipment).

Abstract: There is a need to obtain better estimates of migratory bird harvests toward the end of aiding decisions affecting the ability to maintain populations at healthy levels. Names and addresses of a representative sample of migratory bird hunters are needed in order to develop improved surveys that are free from bias. The action will be to develop, through existing State and Federal hunter licensing activities, a more reliable sample of names and addresses of persons who hunt migratory birds than is currently available. One proposed alternative would require all migratory bird hunters to obtain and maintain in their possession a program card. Cards would be available through the State license vendors, with States having the option to charge a fee to recover administrative and distribution costs. More efficient and less costly means of acquiring the necessary names and addresses may exist. Therefore, the FWS will solicit recommendations for alternatives to the previously identified option. The main benefit of the proposed action will be to increase the quality and extent of migratory bird harvest information.

Significance: Agency Priority

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: Final, Statutory. In accordance with 16 USC 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than 1 year after such proposal.

Abstract: Regulations will be developed which would list, reclassify, or delist, as appropriate, certain species of fish, wildlife, and plants under the Endangered Species Act, and where prudent, would identify critical habitat for endangered and threatened species. Such actions are taken upon determination that species are endangered, threatened, or neither, and are based solely on the biological information available to the Department.

Abstract: The Service proposes to remove 50 CFR 17.40 (b)(1)(i)(E), the special rule which allows take of grizzly bears through a special hunt in northwestern Montana. The Service further intends to review the Grizzly Bear Special Rule to address actions needed due to population pressure within a grizzly bear population. The proposed removal of the authorization for the special hunt in Montana is to allow time to review the regulation based on current biological information. The removal of the special rule will, in no way, change the remainder of the Grizzly Bear rule in 50 CFR 17.40(b).

Abstract: The Service is adding the Snake River spring/summer chinook salmon and the Snake River fall chinook salmon to the list of Endangered and Threatened Wildlife. Under the Endangered Species Act, and in accordance with the Reorganization Plan No. 4 of 1970, the National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Department of Commerce, is responsible for chinook salmon. The Fish and Wildlife Service is responsible for the actual addition of a species to the List of Endangered and Threatened Wildlife in 50 CFR 17.11(h).

In accordance with 16 USC 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than 1 year after such proposal.

Abstract: The Service will exercise its emergency authority to determine the Kanab ambersnail to be an endangered species. Only two populations of this snail are known to exist, both on wetlands on private lands in Kane County, Utah. A status survey completed in 1991 discovered that one population is nearly extirpated, the other has been subjected to major habitat alteration and destruction. Both populations are exceptionally vulnerable to extinction from natural or human-caused events. Immediate listing would trigger the protections in sections 7 and 9 of the Endangered Species Act. The Service finds that good cause exists to make the emergency rule effective upon publication. The emergency rule will implement Federal protection for 240 days. A proposed rule to list the Kanab ambersnail as

endangered will follow the emergency rulemaking, and will allow for public comment.

CFR Citation: 36 CFR 9

Legal Deadline: Final, Statutory, January 29, 1989.

Section 8 of the Big Cypress National Preserve Addition Act directs the Secretary of the Interior to promulgate regulations governing nonfederal oil and gas development by 1/29/89.

Abstract: Several sections of 36 CFR part 9, subpart B contain ambiguous language which has caused confusion in interpreting the existing regulations. The NPS wants to make technical revisions to clarify requirements for both applicants and the Service. Also, the existing regulations exempt two classes of operators from compliance. Because of these exemptions, the regulations apply to only 30% of the existing operations resulting in avoidable impacts to park resources and visitor values from unregulated operations. Finally, the Service intends to propose revisions to the existing regulations to incorporate congressionally mandated requirements and timetables governing nonfederal oil and gas development in the Big Cypress National Preserve Addition. Examples of such revisions include: making the regulations applicable to all oil and gas operations within all units of the National Park System; updating terms for consistency with existing policies, practices, and laws; and removing the monetary ceiling and floor on bonds and security deposits so that bonds may be calculated and posted commensurate with reclamation costs.

Significance: Agency Priority

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 7.13

Legal Deadline: None

Abstract: The proposed regulation will exempt the section of U.S. 191 within Yellowstone National Park from the

prohibition on the use of National Park Service roads by commercial vehicles when such use has in no way a connection with operation of the park; delete the special regulations establishing the speed limit on U.S. 191 within Yellowstone National Park; and restrict the amount and type of hazardous materials which may be transported on U.S. 191 within Yellowstone National Park. The special regulation establishing the present fee schedule for commercial traffic within Yellowstone will be eliminated and the Superintendent provided the discretion to establish and adjust fees for such use on an annual basis.

These actions will clearly define the management and regulation of commercial traffic on U.S. 191 through Yellowstone and assure a certain measure of protection against hazardous waste 'spills.

Abstract: The existing regulations at 36 CFR part 9, subpart A, promulgated in January of 1977, contain a provision regarding the use of water in connection with mining claims within

National Park System units that creates a "catch 22" for miners seeking to use water in connection with their claims. In order to use water in a park, a miner must have a perfected water right. However, to obtain a perfected water right, a miner must use water. Herein lies the "catch 22." The National Park Service would like to rectify this dilemma through a rule change that would eliminate the perfected water right language while at the same time preserve the Service's ability to protect water quality and quantity.

Abstract: The National Park Service is proposing rules that will prohibit the hunting of certain wildlife species in the National Preserve areas in Alaska on the same day in which a hunter is airborne. Hunting will continue to be allowed pursuant to State and Federal regulations. Access to those areas by

aircraft for sport hunting and other purposes is also allowed. While the State of Alaska has a similar regulation in place, commonly referred to as the "same-day-airborne" regulation, recent changes to their regulation have allowed exceptions for some species in certain State of Alaska game

Final, Statutory, October 5, 1989.

Abstract: The primary purpose of the amendments to 93 USC 638 is to permit an orderly transition from Federal domination of programs for and services to Indians to effective and meaningful participation by the Indian people in the planning, conduct, and administration of those programs and services while maintaining the Federal Government's unique and continuing relationship with and responsibility to individual Indian tribes and to the Indian people as a whole. In addition to extensive consultation with the tribes and Native American groups, the Bureau of Indian Affairs is examining all of its planning administrative procedures from the perspective of maximizing tribal participation. Due to the broad scope of the review, an estimate of the potential cost and potential benefit is premature. The changes are one of process rather than

increases or decreases in budget or program funding.

Abstract: The BIA is proposing to revise the regulations at 25 CFR 214 governing management of non-oil and gas minerals on Osage Reservation Lands in Oklahoma. The proposed revisions eliminate specific royalties for minerals not found within the Osage Mineral estate and give authority to the Osage Tribal Council, with the approval of the Superintendent of the Osage Agency, to set applicable royalty rates. This revision also replaces outmoded methods of exchange with modern methods, and correctly designates those officials responsible for the management of non-oil and gas minerals within the Osage Mineral estate. The proposed revisions are intended to enhance the management ability of the Department over the production of these minerals, and to eliminate various inaccuracies in the current regulations.

CFR Citation: 25 CFR 67**Legal Deadline:** None

Abstract: The Bureau of Indian Affairs is proposing to add a new part 67 to provide procedures to govern the preparation, certification, and approval of a descendancy roll of independent Seminole Indians of Florida. The Act of April 30, 1990, provides for the use and distribution of funds awarded the Seminole Indians in dockets 73, 151 and 73-A of the Indian Claims Commission. Section 7 directs the Secretary of the Interior to compile a roll of independent individuals of Seminole descent. The descendancy roll will be used as the basis for a per capita distribution of a portion of the Seminole judgement funds.

Abstract: This regulation will modify existing regulations governing the Individual Indian Monies Trust (IIM) Funds and establish guidelines on

accepting new IIM accounts. The Federal Government has sole responsibility for the protection of Indian trust funds which have been either collected from receipts from Indian trust land or through judgment awards to tribes and/or individuals.

The Bureau of Indian Affairs has established the Office of Trust Funds Management to oversee Indian Trust Funds operations. The modified and new regulations will result in the added protection, and more efficient handling of the Indian trust funds.

Legal Authority: 25 USC 2; 25 USC 9; 25 USC 13

CFR Citation: 25 CFR 11

Legal Deadline: None

Abstract: The Bureau of Indian Affairs has recently revised its regulations governing Courts of Indian Offenses to provide those courts with an updated code of laws and to clarify the jurisdiction of those courts and their relationships to tribal governments and the Department of the Interior.

New provisions concern drug abuse, abuse of psychototoxic substances, child abuse prostitution, domestic violence and increased maximum penalties for various offenses in the Code. Other added provisions include a change in the method of listing Indian reservations to which the Code applies, together with a repeal of the supersession provision by which tribal ordinances, inconsistent with the regulations, may override the Code's

text. A clarifying provision on jurisdictional limitations is added, specifically excluding from jurisdiction under this part Federal employees acting within the scope of their employment.

Legal Authority: 5 USC 301; 25 USC 9; 25 USC 13

Abstract: On May 14, 1991, the Ute Mountain Tribal Council voted to retrocede the operation of the law enforcement services and tribal court programs citing ongoing problems which have hindered the fair and impartial administration of justice. This decision has created a jurisdictional void since neither State or Federal authorities have jurisdiction over minor offenses committed by Indians. To

minimize the potential danger to the residents of the Ute Mountain Ute Reservation, the BIA is undertaking this rulemaking to authorize the establishment of Courts of Indian Offenses to fill this apparent jurisdictional void.

Abstract: The Bureau of Indian Affairs is proposing a new Part 10 in 25 CFR to establish standards for governing Indian adult and juvenile detention, holding and community residential facilities and programs. The current detention regulations in 25 CFR are over 20 years old and extremely limited. The proposed changes will cover all important issues governing detention and residential services. The standards will increase the bureau's capability to provide Indian tribes the direction to administer constitutionally sound detention and residential programs. District Court for Arizona abolished 25 CFR 153, Grazing Regulation for the Joint Use Administrative Area and ordered the Secretary to promulgate new regulations for the control of grazing and livestock for the former Joint Use Administrative Area. Significance: Agency Priority
Legal Authority: 25 USC 2; 25 USC 9; 25 USC 13
CFR Citation: 25 CFR 11; 25 CFR 12
Legal Deadline: None

Abstract: The present regulations contain an incomplete criminal code that does not cover many areas of the law that are usually in the laws of the States where the reservation is located. The current regulations also contain very sketchy provisions on criminal and civil procedure. This rule proposes to update the sections on criminal offenses and create new sections on criminal procedures, domestic relations, probate proceedings, appellate proceedings and juvenile proceedings. This will provide the Courts with more complete and up-to-date proceedings and rules. Courts will have a six month period from the date of publication of the final rule to the effective date in which to revise their court codes. It is not anticipated that this revision will have any effect on the annual caseload for these courts or routine additional staffing. Therefore, the initiation of these rules should not result in additional costs.

Abstract: The Bureau proposes to publish regulations in 25 CFR part 225 that will govern mineral agreements for the development of Indian-owned oil and gas resources pursuant to the Indian Mineral Development Act of 1982, Public Law 97-382. This Act authorizes the tribes to enter into negotiated agreements rather than go through the previously required competitive advertising procedure. The regulations in 25 CFR part 211 govern contracts for the prospecting and mining of Indian-owned minerals, other than oil and gas. Revisions will be made which would combine rules for

the review and approval of mineral development contracts on both tribal and allotted lands into one part. This part has been redesignated from 25 CFR part 171.

As a result of the public comments on the previously proposed rules for 25 CFR parts 211 and 225, it has been determined that 25 CFR part 212 will not be removed. Public response to the proposed rule contained reasonable and compelling arguments for retaining 25 CFR part 212 and for restructuring the format of the regulation. 25 CFR part 212 will not be removed.

Abstract: This proposed rule will provide stronger and more consistent guidelines for reviewing trust applications than the current case-by-case review, which uses general criteria. The Secretary of the Interior announced on July 19, 1990, a new policy for Indian Tribes acquiring in trust for gaming and non-gaming purposes lands contiguous to or outside the tribe's existing reservation boundaries. This proposed revision will add two new sets of criteria that will be used in evaluating tribal off-reservation acquisition for gaming and non-gaming purposes.

1656. LEASING OF RESTRICTED LANDS OF MEMBERS OF FIVE CIVILIZED TRIBES, OKLAHOMA, FOR MINING

Legal Authority: 25 USC 355; 25 USC 365; 25 USC 325; 28 USC 179; 28 USC 179a; 25 USC 356

CFR Citation: 25 CFR 213

Legal Deadline: None

Abstract: This rule is being revised to ensure consistency with existing law and to improve operating procedures. Issues to be addressed include authority to lease inherited restricted land, the processing of lease payments through the Minerals Management Service, and the approval process for division orders.

Abstract: Publication of this proposed rule is necessary so that tribes, tribal organizations, and consortia of tribes who have combined memberships of 500 members or more may provide the necessary services to parents and children under six years old whose needs are not being met by existing programs. National studies show that for every dollar spent on early childhood development programs there is a return of six dollars. The benefits include increasing the literacy rate, the graduation rate, and the rate of enrollment in higher education. High quality early childhood programs can also decrease the rate of cognitive learning and emotional handicaps; teenage pregnancy; welfare dependency and the incidence of arrest and juvenile delinquency.

Significance: Regulatory Program

Legal Authority: 31 USC 9701 (b); 25 USC 2; 25 USC 13; 25 USC 413

CFR Citation: 25 CFR 143

Legal Deadline: None

Abstract: This interim rule will give the Bureau authority to bill and collect for services currently provided to non-Federal users. These rules must be promulgated before fees are charged by the Bureau for services and goods to non-Federal users under the Independent Offices Appropriations Act. Billing and collecting for the goods and services will not increase or decrease the current appropriated funding level. This rule is only to clarify the legality of the process that is already in effect. Since less than 90 locations will be affected, this rule will not have a significant effect on the national economy.

County, Oklahoma. Current regulations governing such leases were developed over 30 years ago and no longer reflect current practices or standards in the mining industry. The proposed revisions will assist affected Indians with the efficient development of their lead and zinc deposits without waste, avoidable loss or damage to their natural resources, the environment, or other resources. The Bureau also proposes to retitle 25 CFR 215 as "Lead and Zinc Mining Operations and Leases, Miami Agency."

CFR Citation: 30 CFR 218

Legal Deadline: None

Abstract: Responsibilities of Minerals Management Service include the collection of royalties, bonuses, rentals,

and related revenues from Federal and Indian mineral leases. These monies are, for the most part, collected from the current designated payor on the lease. However, if MMS is unable to collect from the current payor, it must pursue collections from a prior payor(s), the lessee, or an assignee of the lease. Existing regulations are unclear as to the responsibilities and liabilities of the parties involved. Therefore, MMS is proposing to amend its regulations to clarify payor, lessee, and assignee requirements and responsibilities.

Legal Deadline: None

Abstract: The rules at 30 CFR 250.22(c) are being evaluated to determine whether the requirements for the operation and maintenance of cranes installed on fixed platforms are adequate to promote safety on the Outer Continental Shelf. The advance NPRM will discuss current maintenance, testing, and inspection requirements contained in the regulations through incorporation by reference of the American Petroleum Institute's Recommended Practice for Operation and Maintenance of Offshore Cranes (API RP 2D). Alternative rules will be discussed in the notice. The advance NPRM will also discuss training, crane operator qualifications, and the need for certifying crane operators. The oil and gas industry and general public will be requested to comment and make recommendations concerning regulation of cranes on offshore platforms.

Abstract: Regulations are being considered to amend the rules governing oil and gas and sulphur operations in the Outer Continental Shelf. The regulations would address plans to propose digital/electronic reporting requirements for well tests and for gas meter documents as part of the effort to move to electronic data interchange (EDI). The alternative is not to implement the new reporting requirements. Significance: Agency Priority

Legal Authority: 33 USC 1321; EO 12777

CFR Citation: 30 CFR Not yet determined

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: Regulations are being developed to implement the authority of Minerals Management Service (MMS) under the Federal Water Pollution Control Act (FWPCA) as amended by the Oil Pollution Act of 1990. These regulations will address oil spill prevention and response in State submerged lands as well as in the Outer Continental Shelf. A nonregulatory alternative will not meet the mandate of the FWPCA as amended. The expected costs will depend on the extent to which existing practices in State and Federal waters meet the new mandated requirements. The expected benefits will be an assurance that oil spill prevention and response capability are being addressed on all facilities in both State and Federal waters.

CFR Citation: 30 CFR 217

Legal Deadline: None

Abstract: The Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) requires that the Secretary of the Interior establish a comprehensive inspection and auditing system to provide the capability to accurately determine royalties, interest, fines, penalties, fees, deposits, and other payments owed on Federal or Indian oil and gas leases. This responsibility has been delegated to MMS. However, performance of the required audits may be delegated to States or Indian tribes pursuant to sections 202 and 205 of FOGRMA or to independent certified public accountants under contract. The FOGRMA also requires the promulgation of regulations to establish audit standards and procedures, payor requirements and responsibilities, and authorities and responsibilities which may be delegated by MMS to a State, Indian tribe, or an independent certified public accountant. The purpose of this rulemaking action is to establish the regulations required by FOGRMA.

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 250.154

Legal Deadline: None

Abstract: The development of this notice of proposed rulemaking resulted from the recommendation of a task force that examined many contributing causes to recent fatal accidents in the North Sea and the Gulf of Mexico. The task force identified areas where changes in regulations should be considered. This action considers changes to the regulations concerning better communication among personnel, protection of pipeline risers, safe fuel storage, fire survivability of the accommodation, and the placement of shutdown valves on pipelines as a means to isolate the pressurized hydrocarbons in the pipeline from potential danger that could result from a fire or other damage to the pipeline. An alternative is to leave the rules unchanged.

Abstract: The current gas valuation regulations provided that when the lessee of any gas lease committed to a federally approved unitization or communitization agreement does not take the full share of production under the terms of the agreement, the entitled, but not taken, production is still subject to royalty payment and reporting requirements. This rulemaking would eliminate the requirement that the actual disposition of any part of production to which a lessee was entitled but did not take governs the valuation of that part. Under the rulemaking, the regulations would be amended to allow lessees to value their entitled, but not taken, production at prices based upon information that is accessible to the lessee. This rule will

reduce the administrative burden for payors and MMS so that there is certainty in the determination of royalty values. The adoption of these rules would not affect the requirement in Indian leases and the current regulations for the performance of major portion analyses or dual accounting.

Abstract: Public Law 101-599 requires that the Secretary of Transportation establish standards to ensure continued burial of offshore pipelines lying between the mean high water mark and the point where the subsurface is under 15 feet of water as measured from mean low water. The Department of the Interior has jurisdiction over gathering pipelines on Federal offshore oil and gas leases. The Minerals Management Service will promulgate burial and inspection regulations for these pipelines. As of July 1992, there were 287 platforms on Federal leases in the Gulf of Mexico that were installed in water depths of between 7 and 16 feet.

Legal Authority: 43 USC 1337(a)(3)

Abstract: Existing regulations at 30 CFR 203.50 would be amended to cross reference 30 CFR 256.57. The substance of the existing regulations would be

recodified at 30 CFR 256.57 and amended to broaden the rules to include enhanced oil recovery projects as recommended by the General Accounting Office as well as to encourage investment in economically borderline new production on existing producing leases. The rule would retain current incentives to continue production that has declined to its economic limit. The rule could result in a substantial increase in production of otherwise unrecoverable oil and gas. The alternative would be to leave the existing regulations in place.

CFR Citation: 30 CFR 218

Abstract: Section 10 of the Outer Continental Shelf Lands Act (OCSLA), 43 USC 1339, requires that a lessee or payor under an offshore lease submit a request to Minerals Management Service (MMS) for recoupment or refund of an overpayment (credit adjustment) within 2 years of the date of the original payment. However, current law does not provide for a time limitation on credit adjustments under onshore Federal or Indian leases similar

to that provided in the OCSLA. This rule would add a new provision entitled "Limitations on Credit Adjustments" which would restrict credit adjustments without prior authorization to payments due within 5 years before the date of the adjustments. The rule provides that MMS could authorize credit adjustments with respect to payments made more than 5 years but less than 10 years before the date of the adjustments. However, credit adjustments with respect to any payment made more than 10 years before the date of the adjustment would be prohibited.

Abstract: The Debt Collection Act of 1982 (DCA), 31 USC 3716, provides for a Federal Agency's exercise of administrative offset to collect claims of the United States Government. The DCA instructs each Agency to prescribe regulations before collecting a claim by administrative offset. In accordance with the requirements of the DCA, the Minerals Management Service (MMS) is proposing new regulations governing collection by administrative offset of royalties, interest, and other amounts

due under Federal and Indian oil, gas, and other mineral leases. Under this rule, collection by administrative offset would only be used after other attempts to collect the debt had been attempted by MMS.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250

Legal Deadline: None

Abstract: The Minerals Management Service (MMS) is proposing to amend the regulatory program by establishing new requirements for the development and production of oil and gas leases located in deepwater. The proposed requirements address the installation and operation of floating production facilities and other deepwater production facilities, extended well tests for deepwater reservoirs, oil storage, and/or offloading systems, and other associated deepwater production safety systems. This action serves to notify the public of the changes MMS is proposing and to solicit comments on the subject. The costs to lessees to implement these amendments are not expected to significantly increase over the costs of complying with the current program under 30 CFR 250.

Abstract: This rule would regulate unitization across the State and Federal jurisdictional boundary (revision of 8(g) of the Outer Continental Shelf Lands Act (OCSLA)) of the Consolidated Omnibus Budget Reconciliation Act of April 8, 1986. The rule would also revise the rules for prevention of waste caused by unrestrained competitive development (section 5(j) of the OCSLA). Revisions of parts 250 and 256 to implement sections 5(j) and 8(g) will not result in substantial increases in costs to industry. Successful completion of these revisions will clarify the questions raised as to the ramifications of these legislative actions. Nonaction will only continue the confusion regarding the ramifications of the mandate in section 5(j).

CFR Citation: 30 CFR 216; 30 CFR 218

Legal Deadline: None

Abstract: 30 CFR 216.40(b) and 218.40(b) authorize the Minerals Management Service (MMS) to assess an amount not to exceed \$10 for each report received by the designated due date but which is incorrectly completed. The reports subject to this assessment are required to be submitted to MMS by royalty payors, lease operators, lessees, or other parties in accordance with statutes, regulations, contracts, orders, or terms of Federal or Indian mineral leases. The MMS regulations do not provide for an assessment for incorrect reports if the incorrect report is received after its designated due date. However, the administrative costs incurred by MMS to research and resolve reporting errors are identical whether or not the report is received timely or late. So that MMS may be compensated for all administrative costs incurred due to reporting errors, MMS is amending sections 216.40(b) and 218.40(b) to include as assessable, all reports that are submitted incorrectly regardless of whether or not the report was received by the designated due date or was received late.

CFR Citation: 30 CFR 218

Abstract: Section 218.54 of 30 CFR of the MMS regulations provides for late-payment interest charges on oil and gas late royalty payments based on the rate applicable under section 6621 of the Internal Revenue Code, 26 U.S.C. 6621(a)(2) (Supp. 1987). However, MMS regulations applicable to solid minerals and geothermal resources late royalty payments provide for late payment interest charges based on the lower rate prescribed by the Department of the Treasury as the "Treasury Current Value of Funds Rate." The MMS is amending its solid minerals and geothermal resources regulations to provide for the higher interest rate authorized by section 6621 of the

Internal Revenue Code. This rule amendment will provide for consistency in MMS regulations.

Abstract: MMS currently incorporates by reference 68 documents that describe recommended practices or design criteria that must be followed in conducting specific offshore operations.

Many of these incorporated documents have been revised and replaced with new editions; therefore, MMS needs to update the offshore operating regulations by incorporation of new editions of documents to those incorporated by reference. Most new editions reviewed would be adopted; however, in some cases it may no longer be necessary to incorporate a specific document into the regulations. The costs to lessees to implement these amendments are not expected to significantly increase over the costs of complying with the current program under 30 CFR 250.

Abstract: The existing regulations provide for the valuation of unprocessed gas, residue gas, or any gas plant product which is not sold pursuant to an arm's-length contract to be determined in accordance with a benchmark method. In the final regulations, MMS adopted as the first benchmark the lessee's gross proceeds received under its non-arm's-length transaction if they were equivalent to

the gross proceeds received under comparable arm's-length contracts for like-quality production in the same field or area. The criteria to be considered in defining comparable contracts were also outlined. However, since the adoption of the revised regulations, numerous questions have been raised as to the interpretation of the first benchmark. These questions have identified the need to further clarify MMS's intention in this regard.

Section 250.18 specifies periods of time that certain geological and geophysical data will be protected from disclosure to the public when submitted on specific forms. The alternatives of providing guidance through an OCS order or through a Notice to Lessees and Operators on a region-to-region basis fail to ensure that information is uniformly available to the public. This rulemaking does not involve any significant additional costs. Its benefits are the removal of ambiguity in the current regulations and the clear identification of items of data and information that are made available for public information.

Abstract: The MMS Auditing and Financial System (AFS) matches and applies each payment received to its corresponding report or bill. If a payment cannot be automatically matched and applied by the AFS because of inadequate or erroneous information, it must be manually

matched and applied by MMS personnel. The manual matching of payments to reports and bills results in MMS incurring substantial costs so that the AFS can operate properly to account for and distribute royalties. This situation also delays the payment application process and can result in delay in distribution of royalties and related information to States and Indian Tribes and allottees. To recover the costs, MMS is proposing to amend its regulations to add a new assessment amount not to exceed \$250 per incident. The new assessment would encourage payors to submit their payment, when required, together with the applicable report or copy of the bill and for the same amount as the report or bill. The new assessment would also encourage payors to adequately identify payments to the report or bill to be paid.

Abstract: This rulemaking would amend current regulations requiring lessee surety bonds. The monetary value of surety bonds designated in current regulations was established over 20 years ago and is seriously inadequate to protect the Government from loss due to lessee failure to meet the terms of the OCS lease for royalty payments, proper abandonment of

wells, site cleanup, and ongoing lease operations. Bond requirements may be increased on a case-by-case basis, as an alternative to rule change. This might result in inconsistent requirements. The potential costs are whatever increase is incurred in obtaining a higher value bond. Benefits would be a reduced potential for Government loss and a greater protection of the public interest.

Abstract: Because royalty payments are a major source of income to many Indian allottees, and the only source in some instances, it has been a longstanding Department of the Interior policy that overpayments made by lessees and other royalty payors to Indians cannot be recovered by refund. This policy was established to prevent an undue financial burden on Indian allottees who may have limited financial means to refund the overpayment. However, the adopted policy permits lessees and payors to recoup overpayments as a credit against future rental or royalty accruals due to Indian tribes or allottees. Lessees and operators were instructed to follow this recoupment policy in

"Notice to Lessees and Operators of Indian Oil and Gas Leases No. 1A" (NTL-1A), issued by the Conservation Division of U.S. Geological Survey in 1977. The MMS published revised final oil and gas product valuation regulations at 30 CFR part 206 on January 15, 1988 (53 FR 1184 and 53 FR 1230), effective March 1, 1988. Abstract: There is a conflict in MMS regulations at 30 CFR 220.030 with the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) as to the time period that an offshore net profit share lessee (NPSL) must maintain records and all other documentation pertaining to the NPSL capital account. Therefore, MMS is

proposing to amend 30 CFR 250.030 to extend the time period to 6 years, from 36 months, consistent with the statutory requirement of FOGRMA. The MMS is also proposing to remove 30 CFR 220.033 which includes language that conflicts with the recordkeeping requirements of FOGRMA and MMS regulations at 30 CFR 212.50 and 212.51.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.67

Legal Deadline: None

Abstract: The rules for Hydrogen Sulfide are being amended to revise the requirements for visual and audible warning systems, personnel protection, hydrogen sulfide (H2S) and sulphur dioxide (SO2) detection and monitoring, and the criteria for the activation of visual and audible warning systems. These amendments are necessary to be consistent with the new personnel exposure limits for H2S and SO2 established by the Occupational Safety and Health Administration. Amending the rule would reduce personnel exposure limits, thereby decreasing the risks associated with hazardous environments. An NPRM was published in the Federal Register on August 15, 1990 (55 FR 33326), soliciting comments. The comments received were reviewed and revisions were written. Due to the extensive nature of the revisions, a decision was made to repropose the rule soliciting further comments. The costs to lessees to implement these amendments are not expected to significantly increase over the costs of complying with the current program.

Abstract: It is MMS's current practice to only allow the offsetting of underpayments and overpayments within an individual lease and not between leases unless both of the leases are included in the same unitization or communitization agreement. However, it may not be appropriate, in certain cases of obvious payor reporting errors, for MMS to assess late payment interest charges or deny a request for refund of an overpayment on a Federal offshore lease which is subject to the filing and reporting requirements of section 10 of the Outer Continental Shelf Lands Act, 43 USC 1339. This rulemaking would amend MMS regulations to allow payors to offset royalty underpayments on one lease against overpayments on a different lease (referred to as cross-lease netting) in certain cases where reporting errors do not result in harm to the royalty recipients. The rule specifies the conditions that must be met before MMS would allow cross-lease netting.

1696. OIL AND GAS AND SULPHUR OPERATIONS IN THE OUTER CONTINENTAL SHELF, REPORTING FORMS

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250

Legal Deadline: None

Abstract: This final rule amends Minerals Management Service (MMS) regulations at 30 CFR part 250 that govern Outer Continental Shelf (OCS) reporting forms used for collecting information related to oil and gas and sulphur drilling and production in the OCS. The current OCS reporting forms are being updated and modernized as part of the effort to reduce the paperwork and respondent burden imposed on the public as required by the Paperwork Reduction Act of 1980 (Pub. L. 96-511, 44 USC 3501 et seq.). These revisions are a result of an analysis by an MMS task force and comments received from industry in response to several Federal Register notices published in August 1990 on the proposed forms. These changes will enable MMS to process the data submitted by industry more efficiently, reduce the reporting requirements for industry, and establish a consistent format and syntax to facilitate submission of information by electronic data transmission.

Abstract: The Minerals Management Service (MMS) is continually reviewing its operations relative to the collection and disbursement of royalties and other revenues from Federal and Indian mineral leases for improvements that can be made to improve efficiency. As a result of this ongoing process, MMS has revised its Form MMS-2014 (Report of Sales and Royalty Remittance) to provide for the reporting thereon of all sales and royalty information from any type of Federal or Indian mineral lease. Federal and Indian mineral leases include oil and gas leases, geothermal resources leases, and solid minerals leases. Therefore, MMS is amending its regulations to remove all references to Form MMS-4014 because that form will no longer be used after the effective date of this final rule. The consolidation of all payors reporting requirements on the revised Form MMS-2014 will simplify reporting requirements on the part of the payor and improve the efficiency of MMS' collection process.

Legal Authority: PL 101-380; EO 12777

CFR Citation: 30 CFR 253 (New)

Legal Deadline: None

Abstract: The Oil Pollution Act of 1990 (OPA) and its implementing Executive Order 12777 assigned offshore financial responsibility certification functions from the U.S. Coast Guard (USCG) to the Minerals Management Service (MMS). The existing financial responsibility regulations in 33 CFR 135 are being transferred to MMS' regulations and redesignated as 30 CFR 253. This action will result in no substantive change to the regulatory requirements at this time (i.e., the \$35 million level of financial responsibility that exists in the regulations is retained). Rulemaking at a later date will address the new financial responsibility requirements set in the OPA.

Final Rule Stage

Abstract: On May 9, 1988, the Minerals Management Service (MMS) published a Notice of Final Rulemaking in the Federal Register (53 FR 18408) to amend its regulations to provide for lease operators to report onshore production data to MMS as a result of the transfer of accounting responsibility from the Bureau of Land Management (BLM). The transfer of responsibility from BLM to MMS has been completed. The MMS has also completed installation of a new computer system. As a result, certain sections of 30 CFR Part 216

relative to reporting requirements require amendment. The amendments are administrative changes only and will result in a reduction of operator reporting burden by the elimination of certain reporting forms. The amendments also clarify existing operator responsibilities for reporting operations information to MMS.

Abstract: The MMS regulations at 30 CFR 243.2 address the effectiveness of its Royalty Management Program decisions and orders pending administrative appeal. At the time the rule was issued in 1984, it was MMS's interpretation that most decisions and orders would not be suspended pending appeal. However, in 1986, the Interior Board of Land Appeals (IBLA) determined that unless there were special circumstances, the Director, MMS, was required to stay effectiveness of decisions and orders pending appeal provided the appellant posted adequate surety (Marathon Oil Company, 90 IBLA 236 (1986)). In view of the IBLA decision, an amendment is needed to MMS regulations at 30 CFR 243.2 to reflect clearly that MMS decisions and orders are stayed pending administrative appeal, the

types of sureties which would be acceptable to MMS, and related issues.

Abstract: The Office of Surface Mining Reclamation and Enforcement's (OSM) regulations concerning the protection of historic properties from surface coal mining operations, promulgated on February 10, 1987, were remanded by the DC District Court on October 7, 1991, for failure to comply with the National Historic Preservation Act (NHPA). The Court held that the rules were based on the incorrect premise that the State permitting actions are not Federal undertakings and remanded the matter to the Secretary of the Interior to

settlement agreement and would provide a method of calculating civil penalties when compliance with section 816.102(a) cannot be accomplished using best technology currently available or where compliance would result in significant harm to the environment and the operation does not qualify for an exemption to total highwall elimination in accordance with 30 CFR 816.102(k).

Abstract: Some processors purchase raw coal from operators on an estimated clean coal basis. The Office of Surface Mining Reclamation and Enforcement's rules require reclamation fee payment on the actual gross weight of the clean or raw coal at the time of sale, transfer or use. Records required to document the basis of a coal sale are not clearly defined. Legislative changes provide OSM the authority to audit coal preparation plants, tipples and loading facilities. Records a person operating a coal preparation plant must maintain on coal purchases are not specified in regulation. A person operating a preparation plant is not liable for fee payment on coal sales that exceed purchases. This rule would allow an operator who sells coal to a processor, who actually cleans the coal, to pay fees on the same basis on which the operator is paid by the processor. The person who operates a coal preparation plant would be liable for reclamation fee payment on all coal sold that exceeds coal purchased. Records to be maintained to document the basis for coal sales would be defined in regulation.

Abstract: The proposed rule will establish standards for review and rebuttal of presumptions regarding ownership and control relationships

between permit applicants and violators as well as between permittees and violators. The rule will also specify requirements for verifying whether the ownership and control information specified on a permit application is complete, require use of OSM's applicant violator computer system and other available data by regulatory authorities when conducting violation reviews and establish procedures for regulatory authorities to use in determining the status of outstanding violations. The rule will prescribe sanctions in cases where a permit applicant intentionally fails to provide complete or accurate ownership and control information. The rule will also require regulatory authorities to conduct an annual verification of certain ownership and control information for all permittees. In addition, the rule will specify measures for OSM to take should a state regulatory authority fail to implement these new requirements. 721. DEFINITION AND CRITERIA FOR VALID EXISTING RIGHTS**Significance:** Regulatory Program**Legal Authority:** 30 USC 1201 et seq**CFR Citation:** 30 CFR 761.5**Legal Deadline:** None

Abstract: This rule will amend the portions of the permanent program which address the circumstances which constitute valid existing rights to mine coal in areas where Congress has otherwise prohibited mining under section 522(e) of the Surface Mining Control and Reclamation Act of 1977. This revision is in response to a court decision in round III of the litigation on DSM's permanent program regulations.

Abstract: This rule will clarify that a permittee must obtain approval from the regulatory authority before ceasing coal mining operations on a permit that results in the delay of contemporaneous reclamation on areas which are incidental to, or necessary to facilitate, continued mining of the remaining coal reserves. The rule will state that an application to temporarily cease mining operations may be approved if the regulatory authority finds that recoverable coal reserves remain, that the bond is adequate, and that based on pre-approval inspection, the site is in compliance with all applicable requirements, including contemporaneous reclamation, drainage control, and structure certifications. The rule will specify that temporary cessation may be approved for a period not to exceed one year, after which time the permittee may file for subsequent one year renewals.

Legal Authority: 43 USC 617; 43 USC 391; 43 USC 485; 43 USC 390; 5 USC 552; 373 US 546, Arizona v. California

CFR Citation: 43 CFR 415

Legal Deadline: None

Abstract: Colorado River water has been apportioned for consumptive use among water users with valid water rights within the States of Arizona, California, and Nevada. Future requests for delivery of this water are expected to exceed the amount that will be available. Formal rules will help ensure that water is put to beneficial use and that unauthorized uses are eliminated. The rules will provide a basis for the Secretary of the Interior to curtail unauthorized water use and establish a due process for water users to appeal adverse action decisions. Without formal rules and an appeals process, it is likely that the Secretary would be

unable to enforce an action to curtail unauthorized water use and be subject to legal action by valid water users for not preventing unauthorized diversions of water. The initial cost of implementing the rule is estimated at \$125,000; annual costs thereafter - \$12,000, all costs in 1991 dollars. Costs are expected to be recovered from beneficiaries.

Abstract: This proposed rule establishes guidelines for mining in certain military installations under the Mining Law of 1872, as amended, and for assuring the safe, uninterrupted, and unimpeded use of the lands for military purposes. The Military Lands Withdrawal Act of 1986 specifically provided for certain military lands previously withdrawn from mining to be considered for opening to the operation of the Mining Law of 1872, as amended, with certain special restrictions. Military Lands identified as suitable for mining through the Bureau of Land Management's planning system are proposed to be opened on the effective date of an opening order that will be published in the Federal Register.

1777. MINERAL MATERIALS DISPOSAL

Legal Authority: 30 USC 801 et seq

CFR Citation: 43 CFR 3600

Legal Deadline: None

Abstract: This rule will improve the economies of scale of mineral materials production by providing for contracts with a longer term than the current 10 years, either a longer fixed term, or a term based on the duration of production tied to diligence requirements. It will also provide for contracts for concomitantly larger quantities of mineral materials, the quantity available at the contract site.

Legal Authority: 43 USC 1181e; 30 USC 601 et seq

CFR Citation: 43 CFR 5473; 43 CFR 5474

Legal Authority: 50 USC 167 et seq

CFR Citation: 30 CFR 602

Legal Deadline: None

Abstract: Issuance of a revision to 30 CFR 602 is designed to correct a deficiency identified by the Inspector General. Under the existing rule, the Bureau of Mines has not been able to bill and collect the \$5 per thousand cubic feet price premium for Bureau helium purchased for sale to Federal agencies but sold to commercial accounts. The Inspector General estimated that \$293,000 and \$437,000 went uncollected in 1989 and 1990, respectively. Estimates of any future benefits are uncertain because of changing market conditions.

1798. NONDISCRIMINATION ON THE BASIS OF AGE IN PROGRAMS OR ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Legal Authority: 42 USC 6103

CFR Citation: 28 CFR 42 subpart I (New)

Legal Deadline: None

Abstract: This regulation will implement the Age Discrimination Act of 1975, as amended, in program or activities assisted by the Department of Justice (DOJ). The statute requires that Federal agencies providing Federal financial assistance promulgate

implementing regulations consistent with the general regulations issued by the Secretary of Health and Human Services (HHS), and the statute provides that such agency regulations shall not be effective until approved by HHS. In 1980 the proposed rule was published for comment, modified, approved by the DOJ Office of Legal Counsel, and on November 10, 1980, a draft final rule was sent to HHS for approval. On July 13, 1984, HHS conditionally approved the draft regulation. On August 12, 1987, DOJ submitted to HHS a draft final

regulation. On August 3, 1991, HHS approved a DOJ draft final regulation.

Abstract: This proposed rule will revise the requirement that all supporting documents submitted by individuals applying for immigration benefits be accompanied by certified copies or that copies be certified by designated INS personnel at the time of receipt for retention with the petition(s) or application(s). Available data do not show a significant number of rescission/revocation actions based on fraudulent claims to warrant continuing to require that all documents in support of a request for an immigration benefit be certified. The public will be less burdened with having to produce and pay for certified copies. The public will also have to spend less time standing in line at an INS office waiting for their documents to be read and matched for certification.

Abstract: This rule implements sections 601(a)(3) and 602(a)(4) of the Immigration Act of 1990 by permitting the Service to introduce under certain restrictions, relevant information that is classified under EO 12356 to be considered "in camera" and "ex parte" in exclusion, deportation and rescission hearings by a special inquiry officer.

This rule is necessary to aid in expelling alien terrorists from the United States and thus reduces the threat that such aliens pose to the national security and other vital interests of the United States.

1816. CONTRACTUAL AUGMENTATION OF FEDERAL INSPECTIONAL SERVICES

Legal Authority: 8 USC 1103; 8 USC 1356

CFR Citation: 8 CFR 286

Legal Deadline: None

Abstract: Presently international passengers pay a five dollar user fee to fund immigration inspection services at airports and some seaports. A legislative change is being sought to Section 286 of the INA, to permit airport operators, bridge owners and local government or special governmental districts to contract with the INS to provide augmented levels of inspectional services at airport, seaport or land border ports of entry, beyond that level available through the user fee or appropriations process. This rule would be promulgated after such change was made to the INA.

Legal Authority: 8 USC 1103; 8 USC 1362; 8 CFR 2

CFR Citation: 8 CFR 292.3

Legal Deadline: None

Abstract: This rule modifies two grounds for suspension or disbarment of attorney or nonattorney representatives by removing the restriction on attorneys or their representatives to advertise the availability of their services on immigration matters, and by removing

the restriction to make and retain a copy of a record in a case without authorization.

Removal of these two outdated grounds for ethical standards should increase the respectful attention paid by attorney and nonattorney representatives to the serious obligations imposed by 8 CFR 292. The effect of these modifications will be that INS regulations regarding suspension and disbarment will conform with the current state of the law and everyday practice.

Legal Authority: 8 USC 1101; 8 USC 1303; 8 USC 1357; 8 CFR 2

CFR Citation: 8 CFR 263

Abstract: This rule permits the Immigration and Naturalization Service to register aliens on probation and parole. By so doing, INS can regulate such aliens by having them report to the Service for registration. At that point, it can be determined if the alien is amenable to deportation. If so, the alien can be placed in deportation proceedings. Failure to report can be prosecuted as a misdemeanor or can result in the alien's probation or parole status being revoked.

Abstract: The regulation would clarify that at the time of arrival of an aircraft all passengers must be presented for inspection. Failure to present any passenger at the time of arrival of an aircraft will be considered noncompliance with section 271 of the Immigration and Nationality Act.

This regulation would also provide that all arriving aircraft, including those arriving from contiguous territory or adjacent islands, will be required to present all passengers for inspection by INS, except passengers who are (1) predeclared, or (2) intended TWOV's (pursuant to section 238 TWOV Agreement).

1831. UNLAWFUL BRINGING OF ALIENS INTO THE UNITED STATES

Legal Authority: 8 USC 1323

CFR Citation: 8 CFR 273

Abstract: The regulation would provide clarification of the meaning or implementation of section 273 of the Act.

All instances of an alien being brought to the U.S. without a visa when one is required (except for arrivals from contiguous territories) would render the carrier subject to a fine under section 273 of the Immigration and Nationality Act.

Individual waivers of visas (such as 212(d)(4)) granted after arrival in the U.S. do not relieve a carrier of fine liability. Similarly, granting of parole or subsequent admission into the U.S. does not remove fine liability.

Abstract: This rule would change the standard for granting interim work authorization to aliens while their asylum applications are being granted. It will also change the process for review of decisions to deny asylum and to allow asylum offices the discretion to deny claims from persons who come directly to the US without seeking asylum from a third country that served

as a safe haven. Finally it will permit asylum officers, rather than require them, to seek the view of the Department of State on specific asylum claims.

Abstract: This rule would permit an immigration judge and the Board of Immigration Appeals to consider classified information in the case of an alien applying for Temporary Protected Status. This information requires protection from unauthorized disclosure in the interest of national security after the Commissioner of the Immigration and Naturalization Service first determines that such information is relevant. This rule is necessary to ensure that the methods and/or means of gathering information is not compromised if disclosed in an open forum such as a deportation proceeding.

Abstract: This rule provides procedures to the States to transmit to the Immigration and Naturalization Service certified records of conviction of aliens who have been convicted of violating the criminal laws of the State.

The rule defines the term "record of conviction", and will provide a means of certifying records that are electronically transmitted to the Service by the States.

The rule also provides the States flexibility by permitting the use of abstracts of criminal conviction records, if that option makes providing the needed records easier.

The rule will help the States meet the requirements of Section 507 of the Immigration Act of 1990, and will help the Service in expelling from the United

States, aliens who have been convicted of violating criminal laws of this country.

Abstract: The Immigration Reform and Control Act of 1986 (IRCA) imposes sanctions against employers who hire aliens not authorized to work. Since many of the nation's agricultural employers have become dependent upon such workers to meet production and harvesting needs, Congress created the Special Agricultural Workers (SAW) Program and the Replenishment Agricultural Workers (RAW) Program to grant permanent resident status to certain agricultural workers. To clarify the process through which employers can employ nonimmigrant seasonal and temporary agricultural workers, Congress moved agricultural employment from H-2 classification into a separate H-2A class, and incorporated a labor certification process into the statute. This rule establishes special H-2A regulatory criteria. It supplements the Department

of Labor's rules covering the temporary agricultural labor certification process. This rule amends Service regulations relating therefore to temporary alien workers seeking classification under section 101(a)(15)(H) of the Immigration and Nationality Act.

Abstract: This rule amends regulations by permitting service of a subpoena to be made by an immigration officer except when the subpoena is issued by a special inquiry officer on behalf of a party other than the Immigration and Naturalization Service.

The rule would permit an immigration officer to ask for a subpoena from an immigration judge. It deletes the Regional Director, Office of Professional Responsibility, as an official who may issue a subpoena and/or designate service of same. The new rule specifically permits the subpoenaing of demonstrative evidence. Finally, the rule authorizes specified Immigration Service officials as well as special inquiry officers, to issue subpoenas on behalf of the service subsequent to commencement of any proceeding.

1878. TEMPORARY ALIEN WORKERS SEEKING CLASSIFICATION UNDER THE IMMIGRATION AND NATIONALITY ACT

Significance: Regulatory Program

Legal Authority: 8 USC 1101; 8 USC 1103; 8 USC 1184; 8 USC 1186A; 8 USC 1187; 8 CFR 2; 8 USC 1104

CFR Citation: 8 CFR 214; 8 CFR 214.2

Legal Deadline: None

Abstract: This regulation implements provisions of the Immigration Act of 1990 (IMMACT), Pub. L. 101-649, as they relate to temporary alien workers seeking nonimmigrant classification and admission to the US under sections 101(a)(15)(H),(L),(O), and (P) of the Immigration and Nationality Act.

This rule also contains technical amendments which reflect the Service's operating experience under the H and L classifications.

This rule will conform Service policy to the intent of Congress as it relates to these classifications, implement new nonimmigrant classifications and requirements established by IMMACT, and clarify for businesses and the general public requirements for classification, admission, and maintenance of status.

INS Regulation 1452-92 alters some of the procedures required to petition for an H-1B nonimmigrant and also describes the eligibility criteria for foreign physicians. The rule clarifies new requirements for eligibility and admission.

INS Regulation 1454-92 implements provisions of Pub. L. 102-232 concerning aliens eligible for H-1B, O, and P classifications.

Abstract: This interim final rule is in response to section 319 of PL 101-121. Section 319 generally prohibits recipients of Federal contracts, grants, and loans from using appropriated funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a specific contract, grant, or loan. Section 319 also requires that each person who requests or receives a Federal contract, grant, cooperative agreement, loan or a Federal commitment to insure or guarantee a loan, must disclose lobbying activities.

Abstract: This section prohibits discrimination on the basis of national origin and citizenship status. The existing regulations implementing the anti-discrimination provisions of section 274B of the Immigration and Nationality Act, 8 U.S.C. 1324b, need to be modified to incorporate the Immigration Act of 1990 amendments. As currently written, portions of the existing regulations conflict with the amended statute. This conflict creates a significant problem in the enforcement and the comprehension of the anti-discrimination provisions. In addition, as the case law develops under this new statute, two issues have arisen. First, many issues have not been addressed or defined by the statute or regulations. Second, while it is possible for these issues to be decided on a case by case basis, the case law is not reported by any service. This has created a significant problem in the comprehension of the anti-discrimination provisions. The main objectives of this rulemaking will be to eliminate contradictions, to incorporate additions, to promote a better understanding of the anti-discrimination

provisions, and to determine whether additional clarification of the (cont)

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Labor.

ACTION: Semiannual agenda of regulations selected for review or development.

SUMMARY: This document sets forth the Department's semiannual agenda of regulations that has been selected for review or development during the coming 1-year period. The agenda complies with the requirements of both Executive Order 12291 and the Regulatory Flexibility Act. The agenda lists all regulations that are expected to be under review or development between October 1992 and October 1993.

FOR FURTHER INFORMATION CONTACT: Roland G. Droitsch, Deputy Assistant Secretary for Policy, Office of the Assistant Secretary for Policy, Department of Labor, 200 Constitution

Avenue NW., Room S-2312, Washington, DC 20210, (202) 523-9058.

Note: Information pertaining to a specific regulation can be obtained from the agency contact listed for that particular regulation.

SUPPLEMENTARY INFORMATION: Executive Order 12291 and the Regulatory Flexibility Act require the semiannual publication in the **Federal Register** of an agenda of regulations.

Executive Order 12291 became effective February 17, 1981, and in substance, requires the Department of Labor to publish an agenda listing all the regulations it expects to have under active consideration for promulgation, proposal, or review during the coming 1-year period. It also requires the Department to conduct a Regulatory Impact Analysis for all "major" regulations being developed.

The Regulatory Flexibility Act became effective on January 1, 1981, and applies only to regulations for which a notice of proposed rulemaking was issued on or after that date. It requires the Department of Labor to publish an agenda listing all the regulations it expects to propose or promulgate that are likely to have a "significant economic impact on a substantial number of small entities" (5 U.S.C. 602). For any regulation that will have this impact, the Department must conduct a Regulatory Flexibility Analysis to gauge the economic consequences of the rule and to analyze the availability of more flexible approaches for lightening the rule's regulatory burden on "small entities."

If a proposed regulation will not have a "significant economic impact on a substantial number of small entities," the Department of Labor must publish a certification to that effect at the time of the general notice of proposed rulemaking or at the time of the publication of the final rule. That certification must be accompanied by a succinct statement explaining the reasons for the Agency's determinations.

As permitted by law, the Department of Labor is combining this publication of its agendas under the Regulatory Flexibility Act and Executive Order 12291.

These regulatory reform requirements have more recently been amplified by requirements under Executive Order 12778 to ensure that regulations are clear and, to the extent possible, reduce litigation by the Negotiated Rulemaking Act of 1990 and by the President's direction that the Department carefully review its regulations and how they are issued.

Further improvement is certainly needed, and we are constantly seeking new and innovative approaches in pursuit of this goal. All interested members of the public are invited and encouraged to let departmental officials know how our regulatory reform process can be further improved and, of course, to participate in and comment on the review or development of the regulations listed on the agenda.

Lynn Martin,
Secretary of Labor.

1924. COORDINATED ENFORCEMENT OF FARM LABOR PROTECTIVE STATUTES

Legal Authority: 29 USC 49 et seq; 29 USC 201 et seq; 29 USC 651 et seq; 29 USC 1801 et seq; 8 USC 1188(g)(2); 5 USC 301

CFR Citation: 29 CFR 42

Legal Deadline: None

Abstract: The Department intends to revise its regulations for coordinated enforcement of farm protective statutes.

The rule will clarify existing regulatory language and update the regulations by making nomenclature and other technical amendments. The sections also will be reorganized for clarification. These regulations were first promulgated in 1980 to coordinate the farm labor enforcement activities of the Department's Employment and Training Administration, the Employment Standards Administration, the Occupational Safety and Health Administration, and the Office of the Solicitor of Labor (45 FR 39489). The

regulations establish a National Farm Labor Coordinated Enforcement Committee, which meets quarterly, consisting of the heads of the above DOL agencies, to oversee that coordination. A Regional Farm Labor Coordinated Enforcement Committee, which meets quarterly, is established in each DOL regional office. The Regional Committee is made up of the head of each of the above Agencies' regional offices. Each Regional Committee holds at least one annual public meeting to discuss farm labor issues.

Additional Information: Since 1980, a number of changes have taken place in DOL's farm labor activities; such as: The Farm Labor Contractor Registration Act has been replaced by the Migrant

and Seasonal Agricultural Worker Protection Act; the title of the head of the National Committee has been changed from Under Secretary to Deputy Secretary; the Immigration Reform and Control Act of 1986 has amended the Immigration and Nationality Act, authorizing DOL to enforce work contracts executed by employers of alien (H-2A) farmworkers; the role of States in operating the Employment Service under the Wagner-Peyser Act was enhanced in 1982; regional offices of the Employment Standards Administration no longer exist and the regional farm labor

enforcement role is now coordinated by the Regional Administrator for Wage Hour; and the Assistant Secretary for Policy has assumed a role in farm labor programs at the national level. These and other changes necessitate updating the coordinated enforcement regulations.

Abstract: These regulations cover nondiscrimination and affirmative action obligations of Federal contractors under Executive Order 11246, as amended; the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 USC 4212), as amended; and Section 503 of the Rehabilitation Act of 1973, as amended. The NPRM published 08/25/81 and supplemented on 04/23/82 extended the effective date of a final rule published 12/30/80 and proposed amendments to that rule. OFCCP's review of regulatory options continues with emphasis on Executive Order recordkeeping requirements, use of desk audits to establish priorities for onsite reviews, certification requirements and coverage provisions.

Significance: Regulatory Program

Legal Authority: 29 USC 203

CFR Citation: 29 CFR 570

Legal Deadline: None

Abstract: Section 3(1) of the Fair Labor Standards Act requires the Secretary of Labor to issue regulations with respect to minors between 14 and 16 years of age ensuring that the periods and conditions of their employment do not interfere with their schooling, health, or well-being. The Secretary also is directed to designate occupations that may be particularly hazardous for minors 16 and 17 years of age. Child Labor Regulation No. 3 sets forth the permissible industries and occupations

in which 14 and 15 year olds may be employed. In addition, this regulation specifies the number of hours in a day and in a week, and time periods within a day that such minors may be employed. The nonagricultural hazardous occupations orders which prohibit the employment of minors in such occupations are also contained in 29 CFR 570. Changes in technology and job content over the years require a review of the regulations to ensure the safety and health of such minors and at the same time avoid unnecessary restrictions on their employment opportunities. Revisions to HOs 2, 10, and 12 were published in final on 11/20/91 (CONT)

The Department intends to modify the hours restriction in Child Labor Regulation No. 3 for 14- and 15-year-olds to limit hours of work on evenings preceding school days (in contrast to existing limits on hours of work on school days) and to expand permissible hours under conditions that do not interfere with their schooling (e.g. allowing more hours on evenings preceding non-school days).

Significance: Regulatory Program

Legal Authority: 29 USC 213(a)(1)

CFR Citation: 29 CFR 541

Legal Deadline: None

Abstract: These regulations set forth the criteria used in the determination of the application of the Fair Labor Standards Act exemption for "executive," "administrative," "professional" and "outside sales employees" from the minimum wage and overtime requirements of the Act. The existing regulation was targeted for review by the President's Task Force on Regulatory Relief. A final rule increasing the salary test criteria was published on 01/13/81 (46 FR 3010) and was scheduled to become effective on 02/13/81. On 02/12/81 (46 FR 11972) an indefinite stay of the final rule was published. On 03/27/81 (46 FR 18998) a proposal to suspend the final rule indefinitely was published with comments due by 04/28/81. As a result of numerous comments and petitions received from industry groups regarding the duties and responsibilities tests as set forth in the regulations, as well as recent case law developments, the Department concluded that a more

comprehensive review of these regulations was needed and decided to reopen the comment period and broaden the scope of the review to include all aspects of the regulations. An ANPRM was published on 11/19/85 and its comment period was (cont)

1928. EMPLOYMENT OF HOMEWORKERS IN CERTAIN INDUSTRIES

Significance: Regulatory Program

Legal Authority: 29 USC 211

CFR Citation: 29 CFR 530

Legal Deadline: None

Abstract: This regulation sets forth restrictions on industrial homework and governs the issuance of certificates authorizing the employment of

homeworkers in certain industries, pursuant to Section 11(d) of the Fair Labor Standards Act (FLSA). As originally issued, these regulations restricted the employment of industrial homework in seven industries: knitted outerwear; women's apparel; jewelry; buttons and buckles; gloves and mittens; handkerchiefs; and embroideries. The ban was removed on homework in the knitted outerwear industry by the Department on 11/9/81, following extensive hearings and public comment. This action was subsequently upheld by the District Court for the District of Columbia. However, on appeal the ban was reimposed 2/29/84 by the U.S. Court of Appeals for the District of Columbia Circuit. On 3/27/84, the Department published a proposed rule rescinding the ban on homework in the knitted outerwear industry only. In addition to soliciting comments on the proposed rescission, the Department sought comments on various alternatives to such action (49 FR 11786). On 11/5/84, a final rule was published lifting the ban on homework for (cont)

Additional Information: ABSTRACT CONT: employers in the knitted outerwear industry who obtain a certificate from the Department. Based on analysis of the results of its enforcement experience under the new certification procedure, and review of comments from a Notice of Proposed Rulemaking published on August 21, 1986 (51 FR 30036), a proposal was published on March 30, 1988 (53 FR 10342) which included enforcement mechanisms to enhance compliance among employers of homeworkers. The comment period was later extended to May 13, 1988 (53 FR 15063). The

proposal also excluded the women's apparel industry and stated that this industry would be the subject of separate rulemaking. A final rule was published November 10, 1988 (53 FR 706). An ANPRM concerning women's apparel homework was published December 30, 1988 (53 FR 53344). Public hearings on this issue were held in seven cities during March and April 1989. The public comment period on the ANPRM closed on May 5, 1989 (54 FR 2008). The Department is considering whether it would be appropriate to modify the existing regulations in the women's apparel industry.

Significance: Regulatory Program
Legal Authority: 29 USC 1781
CFR Citation: 41 CFR 60-1; 41 CFR 60-2
Legal Deadline: Final, Statutory, October 1, 1983.

Abstract: Section 481 of the Job Training Partnership Act of 1982 (JTPA) requires OFCCP to issue regulations which will specify the degree to which contractors' participation in JTPA approved training programs will satisfy their affirmative action obligations under Executive Order 11246, as amended. Among the issues to be determined are: (1) the extent to which contractor's participation in an approved training program satisfies its affirmative action obligations; (2) the contents of an abbreviated affirmative action program; (3) methods for determining compliance; and (4) recordkeeping and reporting requirements.

Abstract: OFCCP is planning to revise its regulations implementing Section 503 of the Rehabilitation Act of 1973: (1) to make them consistent with the Americans with Disabilities Act, (2) to incorporate legislative and other changes that have occurred, and (3) to generally clarify Section 503 Affirmative Action Program requirements. Costs are undetermined. These revisions should greatly assist the public, and employers in particular, by providing a comprehensive set of up-to-date regulations.

principally for the furnishing of services through the use of service employees and, on contracts over \$2,500 where the predecessor contract was not subject to a collective bargaining agreement, requires the Department of Labor to determine locally prevailing wages and fringe benefits to be paid to various classifications of workers on the contract. Prevailing wage determinations issued by the Department become part of the Federal contract and establish the minimum compensation for employees performing on that contract. The proposed rule would provide for a variance from the Act's requirement for locality-based fringe benefit determinations, pursuant to Section 4(b) of SCA, to reflect the Department's practice of issuing fringe benefit amounts derived from data collected on a nationwide basis. Section 4(b) of SCA permits variances from the Act's requirements in "special circumstances" where the Secretary determines the variance is "necessary and proper in the public interest or to avoid serious impairment of government business, and is in accord with the (CONT)

Abstract: With the passage of legislation proposed by the Employment and Training Administration to implement the Job Training 2000 initiative (youth apprenticeship program), the Employment Standards Administration intends to revise the regulations regarding the employment of student learners at subminimum wages under the Fair Labor Standards Act. These revisions would make the regulations consistent with the Job Training 2000 initiative and would open up job opportunities for students, as well as enable employers to hire and train them without incurring significant labor costs.

Significance: Agency Priority

Legal Authority: PL 101-157; 29 USC 201 et seq

CFR Citation: 29 CFR 517

Abstract: The Fair Labor Standards Amendments of 1989 were enacted on November 17, 1989. Among other provisions, the amendments provide that employers may pay employees under the age of 20, under certain conditions, a wage rate of at least 85 percent of the minimum wage, but not less than \$3.35 per hour, for a period

to 90 days. An employee who has been paid at the training wage for 90 days can be employed by any other employer at the training wage an additional 90 days, but only if that employer provides on-the-job training in accordance with regulations required to be issued by the Department of Labor. The training wage provisions took effect April 1, 1990 and expire March 31, 1993. The statute provides that the Secretary of Labor shall issue regulations containing criteria for what qualifies as on-the-job training, and for defining what constitutes the requisite proof of previous periods of employment with other employers that is required to be provided by employees. Abstract: The Fair Labor Standards Amendments of 1989 were enacted on November 17, 1989. Section 9 of the 1989 amendments amends Section 16(e) of the Fair Labor Standards Act (FLSA) to provide that employers who willfully or repeatedly violate the FLSA minimum wage (Section 6) or overtime compensation (Section 7) provisions shall also become subject to a civil penalty of up to \$1,000 per violation. On May 31, 1991, a final rule was published (effective 7/1/91) amending existing procedures for assessment of civil money penalties for child labor violations (29 CFR parts 579 and 580) to incorporate procedures for assessment of civil money penalties for violations of minimum wage and overtime compensation provisions (56 FR 24990). On June 3, 1991, a proposed rule (29 CFR part 578) was published for the implementation of civil money penalties for minimum wage and overtime violations (56 FR 25168).

Abstract: The Employment Standards Administration (ESA) and the Employment and Training Administration (ETA) promulgated regulations governing the filing and enforcement of labor condition applications filed by employers seeking to use aliens in specialty occupations on H-1B visas. Under the Immigration and Nationality Act as amended by the Immigration Act of 1990, an employer seeking to employ an alien in a specialty occupation on an H-1B visa is required to file with the Department of Labor, and receive approval therefor, a labor condition application before the Immigration and Naturalization Service may approve an H-1B visa petition. The labor condition application process is to be administered by ETA and complaints and investigations regarding labor condition applications will be the responsibility of ESA. Abstract: The Department intends to amend the regulations defining the terms "construction," "prosecution," "completion," and "repair" on federally financed and assisted construction contracts subject to the Davis-Bacon and Related Acts. This revision is necessary to reflect the decision by the U.S. Court of Appeals for the District of Columbia Circuit in Building and Construction Trades Department, AFL-CIO v. United States Department of Labor, Wage Appeals Board, Midway Excavators, Inc., 932 F.2d 985 (DC Cir. 1991). In that decision, the court invalidated the provisions in section 29 CFR 5.2(j) of the regulations that apply the act to employees of construction contractors and subcontractors who

haul materials and supplies to the site of a Davis-Bacon covered project.

Abstract: This proposed rule would amend the Walsh-Healey Public Contracts Act regulations to provide an alternative "regular dealer" definition applicable to information systems integration businesses which bid on contracts to furnish the government with operational information processing ("ADP") systems. The alternative definition would relieve potential contractors in this industry from having to physically maintain inventories from which sales are made, a custom that is inconsistent with this industry's practices. A proposed rule was published on June 22, 1989 inviting public review and comment. Two comments were received during the comment period which ended July 24, 1989 (54 FR 2612). In addition, in November 1989, the Subcommittee on Legislation and National Security of the Committee on Government Operations, U.S. House of Representatives, held a series of hearings on the Federal Government's purchase of ADP

equipment which included a review of some procurements awarded to systems integrators. Based on information from these hearings, it was decided to reopen the comment period (cont)

Abstract: This rule implements DOL's responsibilities under the 1990 amendments to the crewmember (d) visa (Public Law 101-649). The law prohibits the performance of longshore work by alien crewmen in U.S. ports, except in 5 circumstances, 2 of which are under DOL purview: (1) The employer has filed with DOL an attestation that the prevailing practice in the local port permits the work by alien crewmen; that there is no strike or lockout in the course of a labor dispute; that use of the alien labor is not intended or designed to influence the election of a bargaining representative at the port; that the employer has provided a notice of attestation to the bargaining representative or to longshore workers where there is no bargaining representative. (2) The employer operates self-unloading automated vessels for which the prevailing practice is presumed to be to use alien crewmembers for longshore work. The Employment Standards Administration will administer the enforcement provisions in the legislation through regulations that incorporate the labor standards/attestations issued by ETA, and set forth procedures for enforcement of those labor standards.

INSURANCE REGULATIONS****Significance:** Agency Priority**Legal Authority:** 29 USC 1841(b)(3)**CFR Citation:** 29 CFR 500.121(b)**Legal Deadline:** None

Abstract: Pursuant to section 401(b)(3)
of the Migrant and Seasonal
Agricultural Worker Protection Act
(MSPA), farm labor contractors,
agricultural employers, and associations
who transport migrant and seasonal
agricultural workers are required to
maintain certain minimum levels of
insurance sufficient to satisfy liability
for personal injury and damage to
property. Section 401(b)(3) of MSPA
provides that the required level of
insurance shall be at least the amount
required for common carriers of
passengers under part II of the
Interstate Commerce Act, and any
successor provision of subtitle IV of
title 49 of the United States Code, and
regulations prescribed thereunder.
Effective November 19, 1985, the
insurance requirements under the
Interstate Commerce Act were
increased through rulemaking by the
Interstate Commerce Commission. The
MSPA vehicle liability insurance
requirement, therefore, must also
increase by operation of law. The
Department modified the MSPA
regulations to reflect the statutorily-
mandated increases in liability (Cont)

Abstract: In response to recent
developments in private litigation, the
Department is revising the regulations
to clarify certain requirements for
exemption of public sector employees
as bona fide executive, administrative,
and professional employees under
section 13(a)(1) of the Fair Labor
Standards Act. On September 6, 1991,
the Department published an interim
final rule (56 FR 45824) and a proposed
rule (56 FR 45828) to revise the
regulations to provide an exception
from the requirement for payment "on a
salary basis" to reflect public sector
compensation practices which, in some
cases, are based on statutes or
regulations regarding the accountability
of public employees.

Abstract: Section 210A of the Immigration and Nationality Act (INA), as amended by the Immigration Reform and Control Act, requires an employer to report information on certain resident aliens who perform seasonal agricultural services as defined in the INA. Resident aliens identified with an Immigration and Naturalization Service (INS) Alien Registration Number ("A" number) in a particular series are subject to the reporting requirement. INS changed the alien registration number series for reportable workers under INA in October 1989. Regulations 29 CFR Part 502, Reporting and Employment Requirements for Employers of Certain Workers Employed in Seasonal Agricultural Services are revised to conform to the INS changes. Hearing requests to contest civil money penalty assessments for violations of INA or these regulations must be in writing within thirty days of the notice of assessment. The regulations are revised to provide that hearing requests be sent to the official who issued the notice of civil money penalty assessment at the address appearing on the assessment notice.

Abstract: The Department has removed section 5.5(a)(4)(iv) of 29 CFR Part 5, relating to a maximum allowable ratio

of two semi-skilled "helpers" for every three journeymen utilized on Federal construction projects subject to the Davis-Bacon and Related Acts. On April 21, 1992, the U.S. Court of Appeals for the District of Columbia Circuit held that the fixed maximum ratio contained in this section of the regulations was arbitrary and, therefore, invalid. All other provisions of the helper regulations were upheld. Thus, section 5.5(a)(4)(iv) was removed to conform to the court decision. See Building and Construction Trades Department, AFL-CIO v. Martin, Civ. No. 90-5345 (D.C. Cir. April 21, 1992).

Abstract: These regulations are being developed to implement the monetary

would receive as a benefit payment under the Act. An eligible protected employee is a person who has had at least 4 years of employment with a certificated air carrier as of October 24, 1978 and who loses his or her job during the ten years following such date in a bankruptcy or major employment contraction if and only if the Department of Transportation determines that the principal causes of such job loss was deregulation. On May 17, 1984 the U.S. District Court for the District of Columbia held that Section 43 of the Airline Deregulation Act was unconstitutional. On July 16, 1985, the U.S. Court of Appeals decided that the employee protection provisions of Section 43 were severable from the legislative veto provisions. The U.S. Supreme Court ruled on March 25, 1987 that the legislative veto provisions were unconstitutional but the first right-to-hire provisions were constitutional, therefore, rulemaking can proceed on the (cont)

Significance: Agency Priority

Legal Authority: 42 USC 301 Older Americans Act of 1965

CFR Citation: 20 CFR 674

Abstract: The Senior Community Service Employment Program has not published final regulations since 1976. For a variety of reasons that are no

longer pertinent, proposed revisions published for comment in 1990 and 1985 were not promulgated in final. Thus statute Title V of the Older Americans Act, mandates that the Senior Community Service Employment Program is to be administered and regulations are to be issued by the Department of Labor. With reauthorization of the Older Americans Act scheduled for late 1991, but still not completed, a new opportunity presents itself. Immediately after reauthorization, the Department of Labor will enter into formal proposed and final rulemaking.

Significance: Regulatory Program

Legal Authority: 26 USC 7805; 42 USC 1302

CFR Citation: 20 CFR 606

Legal Deadline: None

Abstract: Since 1981, Congress has enacted major changes in the Federal Unemployment Tax Act (FUTA) and Social Security Act (SSA) with respect to advances to States for the payment of unemployment insurance and the repayment of such advances and interest thereon. Promulgation of comprehensive regulations is being undertaken in two phases. The proposed rule will replace instructions contained in several Unemployment Insurance Program Letters approved under OMB No. 1205-0199 expiring November 30, 1993. This action

represents the second phase, governing States receiving and voluntarily repaying advances to their unemployment funds and paying interest in such advances. The final rule for the first phase, governing relief from automatic repayment and interest charges, was published in the Federal Register on September 26, 1988 (RIN 1205-AA14).

Abstract: Regulatory action is necessary to provide specific requirements and guidelines for programs designed to assist workers dislocated as a consequence of reductions in Defense Department procurement and activities, including both personnel and facilities reductions in the military, in compliance with the Defense Authorization Act of 1990 (H. 12045). Under the Act grants may be made to States, substate grantees, employers, employer associations, and representatives of employees to provide training, adjustment assistance and employment services to such eligible dislocated workers in accordance with

the requirements of the Act. These provisions are being promulgated to implement the amendment to the Job Training Partnership Act (JTPA) enacted as part of the Defense Authorization Act which added a new Section 326 to Title III of JTPA.

The law becomes effective on October 1, 1991, and is effective until September 30, 1994. Implementing regulations for this program will be published by April 1, 1992. (cont)

Abstract: This rule is necessary to implement section 122 of Public Law 101-649, the Immigration Act of 1990. This section requires the Secretary of Labor to establish a pilot which provides for a determination of labor shortages or surpluses in up to 10 occupational classifications. The occupation may then be used in lieu of an individual, case-by-case labor certification. The pilot program is effective during the 3-fiscal year period beginning with FY 92.

CFR Citation: 20 CFR 655; 29 CFR 508

Legal Deadline: Other, Statutory,
October 1, 1991.

Other deadline is for interim final rule.

Abstract: This rule is necessary to
implement section 221 of the
Immigration Act of 1990, Public Law
101-649, which regards off-campus work
authorization for students under the F-1
visa. In order to employ an F-1 student,
the employer must provide the
Secretary of Labor with an attestation
that it has recruited for at least 60 days
for the position, and that it will pay the
greater of the prevailing or actual wage.
The Secretary also has enforcement
responsibility under this new law.

Other deadline is for interim final rule.

Abstract: This rule is necessary to
implement certain revisions to the
nonimmigrant H-1B visa category made
by Public Law 101-649. The law
provides that no alien may be admitted
or provided status under this category
unless the petitioning employer attests
to the Secretary of Labor that the
employer is offering prevailing wages
and working conditions and that there
is not a strike or lockout in the course
of a labor dispute in the occupational
classification at the place of
employment. The law also directs the
employer to notify the bargaining
representative at the place of

employment of the filing of an H-1B
petition. If there is no bargaining
representative, the employer must post
a notice in conspicuous locations at the
place of employment. The law provides
a procedure for any aggrieved person or
organization to challenge the
employer's attestation.

Under amendments effected by the Retirement Equity Act of 1984

(REA) to the anti-assignment and alienation provisions of ERISA and the Code, benefits under a pension plan may be assigned or alienated pursuant to a domestic relations order only if the order constitutes a QDRO. This ANPRM is intended to facilitate early public participation in the development of regulations, in the event that regulations are proposed.

Abstract: Regulation 29 CFR 2510.3-3(d)(2)(ii) describes the circumstances under which a plan participant receiving a distribution of benefits ceases to be a participant covered under the plan. Under the existing regulation, a participant covered under a pension plan loses his status as such where he receives an annuity contract guaranteeing his benefits from an

insurance company licensed to do business in a state. PWBA will solicit suggestions from the public with respect to development of a proposed amendment of this regulation that would provide that a participant covered under a pension plan would not automatically lose his status upon purchase of an annuity.

Significance: Agency Priority

Legal Authority: 29 USC 1021

CFR Citation: 29 CFR 2520.101

Abstract: Section 101(d) of ERISA provides that when an employer maintaining a plan other than a multiemployer plan fails to make a required installment or other payment required to meet minimum funding standards under section 302 to a plan before the 60th day following the due date, the employer shall notify each participant and beneficiary of such failure. Section 101(d) also provides that the notice shall be made at such time and in such manner as the Secretary shall provide. Because OBRA 1989 added section 502(c)(3) to permit the imposition of substantial penalties upon employers who fail to give the notice required by section 101(d), there will be an increased need for regulatory guidance by the Secretary as to the time and manner in which notice under section 101(d) must be provided.

Abstract: The Labor-Management
Reporting and Disclosure Act of 1959,
as amended (LMRDA), requires covered
labor organizations to file an annual
financial report with the Department of
Labor. The regulations currently require

unions to file detailed annual financial
reports (Form LM-2 or LM-3). The
revision will implement an abbreviated
annual financial report (Form LM-4)
which may be filed by unions having
approximately \$15,000 or less in annual
receipts. The revised regulation will
lessen the financial reporting burden on
small labor organizations, many of
which have frequent officer changes,
part-time unpaid officers, and officers
with minimal accounting/ bookkeeping
expertise.

Abstract: This proposed regulatory
amendment deals with the information
that unions must disclose concerning
their financial condition and operations
under statutes requiring them to file
financial reports (Form LM-2 or LM-3)
with the Secretary. In view of
developments in decisional law and
accounting standards, it has been
determined by the Secretary and
announced by the President that unions
should be required to disclose their
finances in terms of the functions of
their disbursements and generally
accepted accounting principles.

Abstract: In June 1991, the Secretary established an advisory committee to make recommendations concerning the conditions under which air coursed through the belt entry could be safely used in the face areas of underground coal mines. A series of six public

advisory committee meetings began in April 1992, with the final meeting held in September 1992. To the extent possible, the advisory committee will make consensus recommendations with respect to: (1) the conditions under which belt haulage entries could be safely used as intake air courses to ventilate working places; (2) minimum velocities in conveyor belt haulageways, and (3) ventilation of escapeways.

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 56, subpart E; 30 CFR 57, subpart E

Legal Deadline: None

Abstract: In March 1991, MSHA's January 1991 final rule revising its safety standards for explosives at metal and nonmetal mines was challenged in the U.S. Court of Appeals (D.C. Circuit). On September 12, 1991, (56 FR 46500) after a series of stays, MSHA issued a one-year, partial administrative stay of certain provisions of the final rule. After re-examining the rulemaking record, MSHA determined that the stayed provisions needed further public input. MSHA's proposed rule addresses the following stayed provisions: definitions of "blast site," "magazine," and "storage facility," the requirements for storage of packaged blasting agents, the location of explosive material storage facilities, vehicles used to transport explosives, primer protection, loading and blasting, double trunklines in nonelectric initiation systems, hazards of excessive temperatures and burning explosive material.

Abstract: Hearing impairment is a serious occupational hazard in the mining industry. Many miners are consistently exposed to noise levels that are near maximum levels currently permitted by MSHA. As a result, miners may be suffering hearing impairment, notwithstanding existing MSHA noise standards. MSHA is using comments and information submitted in response to the December 1989 ANPRM to develop a proposed rule which would establish noise standards to apply to all mining.

Abstract: The advance notice of proposed rulemaking published in December 1991 requested comments on how to address the hazards of working in confined spaces. In mining operations, the majority of the fatalities associated with confined spaces occur in storage bins, hoppers, and stockpiles. The primary hazards to miners occur from being trapped by shifting piles of loose materials, falling into materials, and being struck by overhanging materials. Many hazards are identical to those confined space hazards that exist in general industry for which OSHA issued a proposed rule on June 5, 1989 (54 FR 24080).

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 14; 30 CFR 18; 30 CFR 75

Legal Deadline: None

Abstract: Conveyor belts are one of the leading causes of fires in underground coal mines. These mines often use many miles of conveyor belts. The remote location of the belts can allow fires to start and spread to the coal before they are detected. MSHA has developed a new, more stringent test to evaluate the flame-resistance of conveyor belts. Belts passing the revised test would be resistant to ignition and to flame propagation. This

proposal would revise the existing approval regulations and address the use of the improved belting by mine operators.

Legal Deadline: None

Abstract: MSHA currently requires waterlines to be installed along all belt conveyors in underground coal mines. Potential firefighting problems exist whenever air used to ventilate belt conveyor entries moves in an outby direction. Waterlines located in these entries are susceptible to severe damage caused by the spread of fire to the outby areas of where the water is needed to fight the fire. MSHA is currently evaluating the need to revise this regulation so that waterlines are located to effectively fight all fires, regardless of the direction of air flow.

Abstract: Currently 30 CFR 75.1101-23 requires each operator of an underground coal mine to adopt a program for mine evacuation in the event of an emergency, such as fire or explosion. However, the existing standard does not directly address heat sensing and carbon monoxide detection systems and the actions to be taken when such systems activate an alarm. In addition, regular review and update of firefighting and evacuation plans is not required by the existing standard. This rulemaking would address these issues.

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: During the past decade, diesel-powered equipment has been introduced into the underground coal mining industry in increasing numbers. MSHA does not have regulations that specifically address the health hazards associated with the particulate in the exhaust emitted by diesel-powered equipment in underground mines. In July 1990 the National Institute for Occupational Safety and Health issued an exploratory risk assessment for diesel particulate based on an animal study. The Agency is in the early stages of developing a permissible exposure limit to control miners' exposure to diesel exhaust and reduce the incidence of illness and disease related to this substance in the mining industry. In January 1992, MSHA issued an advance notice of proposed rulemaking in which the Agency requested public comments on a series of issues relating to health effects, methods of monitoring to measure exposure, duration and frequency of exposure, and technological and economic feasibility. MSHA expects to address the appropriate exposure levels for diesel particulate in rulemaking after the public comments and data can be collected (CONT)

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 18; 30 CFR 75

Legal Deadline: None

Abstract: This rulemaking would apply to high voltage longwall electric face equipment used in underground coal mines. Presently, 30 CFR 75.1002 precludes the use of high-voltage cables within 150 feet of pillar workings. Therefore, mine operators have had to file petitions for modification so that they may use high-voltage longwall equipment. High-voltage longwall equipment would still be required to comply with the requirements of part 18, but this rulemaking would address additional safety requirements for the use of high-voltage longwall equipment, including trailing cables, motor, and shearer cables.

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 77.1713

Legal Deadline: None

Abstract: Under 30 CFR 77.1713 coal mine operators are required to conduct examinations of each active working area of surface mines and active surface installations during each shift. Any hazardous conditions detected must be entered into a report of such examination along with a description of corrective actions taken. The Agency has interpreted this standard to exclude surface work areas of underground mines. The possibilities for hazards associated with such areas are numerous. The majority of the injuries and fatalities are a result of hazardous conditions not detected and corrected. This rulemaking would revise the standard to apply the on-shift examination requirement to surface such areas of underground mines. By conducting an on-shift examination of hazardous conditions in these areas, the mine operator will better guarantee a

safe working environment for the miners and a reduction in accidents.

2005. ● SAFETY STANDARDS FOR OPERATION AND MAINTENANCE OF MACHINERY AND EQUIPMENT IN UNDERGROUND COAL MINES**Legal Authority:** 30 USC 811**CFR Citation:** 30 CFR 75.1725(c)**Legal Deadline:** None

Abstract: Currently, 30 CFR 75.1725(c) requires that the power be cut off and the machinery be blocked against motion before repairs can be done. MSHA proposes to revise this standard to clarify that activities involved in

extending or retreating conveyor belts be considered maintenance. The hazards that persons are exposed to while extending conveyor belts are essentially the same as those involved in more routine belt maintenance such as replacement or adjustment of rollers and installing and splicing new sections of belt.

Abstract: MSHA has an established mining equipment approval program which includes evaluation criteria and corresponding safety standards requiring the use and maintenance of approved equipment. However, existing approval regulations do not generally apply to the diesel-powered equipment now being used in coal mines. In July 1988 an advisory committee convened by the Secretary of Labor made recommendations to the Secretary concerning standards for the use of diesel-powered equipment in underground coal mines. Based on those recommendations, MSHA published a proposed rule that addressed the approval and use of diesel equipment, including monitoring requirements for certain diesel emissions. Public hearings were held in February and March 1991.

Permissible exposure limits and standards for use of respiratory protective equipment will replace outdated incorporations by reference. The final rule also will update asbestos standards. Other issues being considered are: requirements for exposure monitoring; precautions for handling restricted-use chemicals; miner observation of monitoring; notification to workers of overexposures; miner access to exposure monitoring records; medical surveillance and transfer of miners required to use respirators and miners using certain carcinogens. Significance: Regulatory Program
Legal Authority: 30 USC 811; 30 USC 825

Abstract: MSHA proposed to amend the definition of "experienced miner" to mean a miner who has had one year of mining experience and, for new miners hired after October 13, 1978, has completed new miner training. MSHA proposed to strengthen the training requirements for experienced miners by adding course requirements. Also, MSHA proposed to delete the supervisory personnel exemption from the training requirements. The comments received by MSHA on its September 1991 proposed rule addressed such issues as the appropriate training for different types of mining, the need for training of contractors, training for construction workers, and other suggested training changes. MSHA is reviewing these comments to determine the appropriateness of any further changes to the Agency's training regulations. Public hearings on the proposed rule were held in July 1992. MSHA intends to complete the more limited rulemaking of the current proposal by publishing a final rule in March 1993.

Significance: Agency Priority
Legal Authority: 30 USC 811; 30 USC 957
CFR Citation: 30 CFR 18; 30 CFR 7; 30 CFR 57; 30 CFR 75
Legal Deadline: None

Abstract: This final rule revises existing 30 CFR part 18 specifications and test requirements for the approval of electric cables and incorporates a new requirement for the approval of cable splice kits as a subpart to 30 CFR part 7. Under Part 7, testing is done by the applicant or a third party, subject to agency requirements and approval. The rule updates the existing approval criteria, establishes minimum standards for the material used to repair cables, and allows the introduction of new technology, where appropriate. Conforming amendments made to the agency's electrical safety standards in 30 CFR parts 57 and 75 require cables and splices to "be accepted or approved by MSHA as flame resistant."

Abstract: The final rule published in May 1992 establishes revised standards for ventilation that apply to all underground coal mines, while retaining requirements for each underground mine to have a ventilation system and methane and dust control plan (ventilation plan). The final rule also includes provisions for the introduction of new technology for systematic monitoring of explosive methane gas, as well as gasses that may indicate a mine fire. Other important issues addressed deal with longwall systems, including installation and removal, and the ventilation of worked out areas. The existing escapeway standards contained in 30 CFR 75.1704 are incorporated into the rule.

Abstract: On January 19, 1989, OSHA modified (54 FR 2332) the Z table permissible exposure limits of 29 CFR 1910.1000 in response to current scientific data. Section 6(b) of the Act requires where appropriate, provision for medical surveillance in each 6(b) rulemaking for a harmful substance. A generic standard for medical surveillance would satisfy the requirements of the Act thus enabling the Agency to deal directly with the narrower issues of the revision of the tables. OSHA published an Advance Notice of Proposed Rulemaking on September 27, 1988, (53 FR 37595) to acquire additional information. OSHA also intends to review its compliance experience with medical surveillance provisions and seek experienced medical opinion in the form of a symposium or other public discussion. In addition, OSHA initiated a survey in 1990 to collect information regarding the prevalence and effectiveness of current medical surveillance programs. In October 1992, OSHA will determine whether or not to proceed with rulemaking.

Abstract: The Bureau of Labor Statistics (BLS) has reported the number of reported "disorders associated with repeated trauma" have more than doubled since 1984. These serious, potentially crippling disorders account for 48 percent of all occupational illnesses reported to OSHA in 1988, up from 28 percent in 1984. These disorders are being recognized as very serious problems by the industrial nations of the world and some have promulgated ergonomic

standards in the last several years. In November 1988, OSHA received a petition from a meat packing industry representative requesting the development of a standard covering ergonomic issues. Prior to issuing a Notice of Proposed Rulemaking (NPRM), OSHA will publish an Advance Notice of Proposed Rulemaking (ANPRM) to gather, review, and analyze available information in industry on individual case studies, anecdotal data, and statistical data in which ergonomic hazards have been addressed and resolved. OSHA also will seek this information from a variety of other sources.

2022. INDOOR AIR QUALITY IN THE WORKPLACE

Significance: Regulatory Program
Legal Authority: 29 USC 655
CFR Citation: 29 CFR Not yet determined
Legal Deadline: None

Abstract: Health complaints related to indoor air quality (IAQ) have increased significantly following energy conservation measures instituted in the early seventies. Such measures have generally reduced the infiltration of outside air, allowing the build-up of indoor air contaminants. Adverse health effects associated with indoor air contaminants are classified as: (1) sick building syndrome which is characterized by general complaints that may include headaches, fatigue, nausea, mucous membrane (eye, nose, and throat) irritation, coughs, and muscle pain; and (2) building-related

illness which describes those specific medical conditions of known etiology which can often be documented by physical signs and laboratory findings. These include respiratory allergies and Legionnaires' disease. A particular concern with matters dealing with indoor air quality is exposure to passive tobacco smoke (PTS). A wide range of health effects caused by passive exposure to tobacco smoke have been reported by the Surgeon General, the National Research Council, the Environmental Protection Agency (EPA), and private researchers, as well as by citizens reporting (cont)

Additional Information: ABSTRACT (CONT): health effects due to exposure to passive smoke while at work. These effects range from acute annoyance and eye and respiratory tract irritation to the development of chronic pulmonary disease, cardiovascular disease, and lung cancer. OSHA received two petitions for an Emergency Temporary Standard (ETS) in May 1987. Both requested an ETS to prohibit smoking in all indoor workplaces except certain specified areas. OSHA determined that available data did not demonstrate the existence of a "grave danger," due to workplace exposure to passive tobacco smoke, as defined in Section 6(c) of the OSH Act. OSHA, therefore, denied the petitions on September 1, 1989. In response to the OSHA denial, a suit was filed by the Action on Smoking and Health (ASH) in the United States Court of Appeals for the District of Columbia D.C. Circuit for a review of the Agency's decision and for an order pursuant to 5 USC, Section 706 setting aside the denial. The Court upheld OSHA's decision not to issue an ETS in an unpublished decision issued on May 10, 1991. OSHA published a request for information on Indoor Air Quality September 20, 1991 (56 FR 47892). Comment period was extended to March 20, 1992.

Abstract: The present crane regulations for construction and general industry have not been revised since being promulgated in 1971. They rely heavily on outdated 1968 ANSI standards. OSHA has received comments that the existing provisions are inadequate and need revision to reflect current conditions and equipment. It has also been suggested that there is need to establish additional crane installation and use provisions, including possible certification programs for crane operators and riggers. OSHA anticipates that this project will come about in several phases due to the magnitude of the project.

2024. ● SAFETY AND HEALTH MANAGEMENT PROGRAM

Significance: Regulatory Program
Legal Authority: 29 USC 655
CFR Citation: Not yet determined

DOL—OSHA

Legal Deadline: None

Abstract: Current OSHA regulations address specific safety and health hazards or specific safety and health conditions. While this approach offers discrete instruction to employers about how to protect workers from specific exposures, the cumulative impact of these regulations often is perceived by the regulated public as resulting in duplicative, and sometimes contradictory requirements. The most obvious burden is created by the more than 200 separate standards requiring employee training on safety and health issues. The agency needs to identify methods to simplify and ease this regulatory burden without reducing the protections afforded employees. The

agency believes, with almost unanimous public commentor support, the most effective way to accomplish this goal is to explore a generic training requirement in the broader context of a comprehensive workplace safety and health management program. The agency already published Voluntary Safety and Health Program Management Guidelines on January 26, 1989 (FR Vol. 54, NO. 16 Pages 3902 to 3918).

Abstract: The present respiratory protection standards have been in place for more than 10 years and do not take into consideration the current state-of-the-art for respiratory protection. In addition, the general industry standard for respirators contains redundancies and includes several advisory provisions which should be eliminated or changed. Abstract: The purpose of this regulatory action would be to update and revise a standard first issued in 1960. The current language in many instances addresses the hazards of cargo handling involving methods long since abandoned, and fails to address the serious hazards of newer methods. Because much of the current standard is out of date, there are problems with compliance. These revised requirements will provide both employers and

employees with a blueprint for effective and safe work practices in the cargo handling industry. No alternative other than revision is contemplated. The annual cost of the revision is expected to be minimal -- less than five million dollars.

Abstract: OSHA proposes to revise and update its existing Part 1910 and Part 1926 subparts covering welding, cutting and brazing operations, and to develop performance-oriented standards designed to reduce the number of deaths and injuries due to unsafe equipment and unsafe operations. There has been no substantial revision to these subparts since their adoption in 1971. A complete and comprehensive revision is needed at this time to bring the standards into line with the current state-of-the-art and updated consensus standards. In developing its proposed revision for welding provisions in Part 1910 (General Industry), OSHA has determined that a similar revision to the Part 1926 (Construction Industry) welding provisions are warranted.

Abstract: On May 20, 1986, the Environmental Protection Agency (EPA) issued a report to OSHA, under Section 9(a) of the Toxic Substances Control Act, stating that EPA has reasonable basis to conclude that the risk of injury to worker health from exposure to four glycol ethers during their manufacture, processing and use is unreasonable, and that this risk may be prevented or reduced to a significant extent by OSHA regulatory action. EPA gave OSHA 180 days in which to respond to its report. OSHA published its response on December 11, 1986, stating that OSHA had preliminarily concluded that occupational exposures to the subject glycol ethers at the current OSHA permissible exposure limits may present significant risks to the health of workers. OSHA published an Advance Notice of Proposed rulemaking (ANPRM) on April 2, 1987, (52 FR 10586). OSHA will use the information received in response to the ANPRM, as well as other information and analysis, to prepare a proposed standard.

2030. ● HAZARDOUS MATERIALS (PART 1910)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910, subpart H

Legal Deadline: Final, Statutory, November 15, 1991.

Abstract: Standards in 29 CFR Part 1910, Subpart H, which address the storage, handling and use of hazardous materials, such as compressed gases, acetylene, hydrogen, oxygen, liquified petroleum gases, and flammable and combustible liquids, will be revised. This regulatory action will provide a new approach to the revision of Subpart H and will occur in four phases in an expanded timeframe. The four phases will be (1) Process Safety Management, (2) Flammable and Compressed Gases, (3) Hazardous Liquids, and (4) Explosives. The first phase of the proposed action is intended to better protect employees from unexpected releases of significant quantities of dangerous substances, and this phase has been completed. The remaining phases are intended to simplify, clarify and consolidate standards on hazardous materials and assist employers and employees in general industry to better understand and better focus on the hazards inherent in the use, handling, and storage of such materials.

Abstract: This regulatory action will complete the consolidation and updating of Parts 1915 and 1910 by providing shipyard employees with coverage under one comprehensive OSHA standard. This revision effort will involve the promulgation of 20 maritime subparts. Its completion will be done in stages and will relieve shipyard owners from the burden of having comply with two sets of rules that are complex, prescriptive, confusing and, in some cases, conflicting. OSHA has established an Advisory Committee to assist the Agency is reviewing and revising these subparts. Experts from government, industry, unions and the states are working with OSHA on this project. A previously identified project, Surface Preparation and Preservation (RIN: 1218-AA96), will be included in this project.

Abstract: Concerns about the reliability and utility of injury and illness data have been raised by Congress, OSHA, NIOSH, BLS, the National Academy of Sciences, OMB, the General Accounting Office and representatives of business and labor. The revision of the regulations, forms, and associated interpretive material are being undertaken to simplify the injury and illness recordkeeping system. OSHA is currently working on this project and has not collected sufficient information to determine the effect on paperwork burden. Benefits will include: (1) A system that is easier for employers, employees and government personnel to use; (2) increased reliability and utility of the records; (3) comprehensive records of the injury and illness experience at a given site will be available; and (4) employee involvement and awareness in safety and health matters will be enhanced.

2033. PEL UPDATE PROPOSAL FOR CONSTRUCTION, AGRICULTURE, AND MARITIME

Significance: Regulatory Program

Legal Authority: 29 USC 655; 29 USC 657

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The permissible exposure limits (PELs) promulgated by OSHA in 1971 do not reflect current knowledge of the health effects of many toxic substances. OSHA published a proposal on June 7, 1988 (53 FR 20960) to amend and expand the PELs for general industry. On January 19, 1989 OSHA set new PELs for the toxic substances originally covered in 1971 and covered new substances in a single rulemaking that applied to general industry. OSHA now plans to update the old PELs for construction, maritime, and possible agricultural sectors not covered by the general industry proceeding. The PELs for these sectors are outdated: the construction industry (29 CFR 1926) references the 1970 ACGIH TLVs; the maritime industry cites three different references--29 CFR 1918 (longshoring), "dangerous gaseous contaminants not immediately dangerous to life" and "heavy concentrations of dusts." In addition, in the agricultural section, OSHA will consider the fact that chemicals and pesticides are currently regulated by EPA. As a result of this rulemaking, OSHA expects that a unified table of PELs for toxic substances will be adopted for all industries. On June 12, 1992 (57 FR 26001), (CONT)

2034. CONTROL OF HAZARDOUS ENERGY (LOCKOUT/TAGOUT)—CONSTRUCTION (PART 1926)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910; 29 CFR 1926

Legal Deadline: None

Abstract: Hazards at construction sites resulting from the absence of effective lockout/tagout procedures to control hazardous energy appear to be caused by several factors, all associated with the nature of the construction industry. These factors basically relate to such considerations as the types of machines and equipment found in construction; the makeup of the industry in which employment is relatively "short term," lasting only as long as the length of the current project; the presence of multiple employers having different employer/employee relationships and the temporary nature of the "in-the-field" maintenance activity. The Occupational Safety and Health Administration (OSHA) expects the proposal to address lockout-related hazards in those construction work-site areas in which the available data indicate these hazards to be significant. Regulatory options involve developing a comprehensive standard covering all potentially hazardous energy sources. OSHA will consider the use of the construction advisory committee to assist in the development of this standard.

2035. POWERED INDUSTRIAL TRUCK OPERATOR TRAINING

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.178

Legal Deadline: None

Abstract: Nationally, fatalities due to unsafe operation of industrial vehicles and equipment account for approximately 12 percent of the private sector fatalities. This is the second leading cause of fatalities in the private sector, behind only highway vehicle fatalities. The present standard has proven to be ineffective in reducing the number of accidents involving powered industrial trucks. OSHA intends to revise the present standard to increase its effectiveness by requiring, in performance language, initial and refresher training as necessary. The frequency of the refresher training will be based upon the ability of the vehicle operator to retain the knowledge, skills and abilities to perform the job safely. OSHA will also give guidance as to what information the instruction should include. There will also be other amendments to the standard to increase its effectiveness.

2036. LEAD IN CONSTRUCTION

Significance: Regulatory Program

Legal Authority: Not yet determined

CFR Citation: 29 CFR 1926

Legal Deadline: None

Abstract: On November 14, 1978 (43 FR 52952), OSHA promulgated a standard that limited occupational exposures to lead. The standard also contained requirements for exposure monitoring, protective equipment, housekeeping and hygiene practices, medical surveillance, medical removal protection, posted areas and education and training. However, the scope of the standard did not include the construction industry. Lead exposures in the construction industry continued to be regulated by the air contaminants standard for construction (29 CFR 1926.55) which has no protective ancillary provisions such as those contained in the general industry standard. This standard adopted the 1970 American Conference for Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (200 ug/m3) which is four times the current standard for general industry. OSHA recognized that this level represents a potential for material impairment of health and is in the process of developing a proposal.

Proposed Rule Stage

Legal Deadline: None

Abstract: A critical element of OSHA's comprehensive enforcement strategy under the Occupational Safety and Health act is assurance that employers have abated hazards cited during inspections. Currently, unless an employer voluntarily complies with OSHA's request to submit documentation, OSHA has no proof of hazard abatement without conducting a followup inspection. From 1972 to the present, OSHA has implemented several administrative measures to induce employers to provide abatement documentation, but some 30 percent of cited employers still do not voluntarily

do so. OSHA's internal audits, the Department of Labor's Inspector General, and the General Accounting Office have pointed out this deficiency. The regulation OSHA now proposes will require cited employers to provide hazard abatement documentation. The NPRM will address the kinds of evidence to be required, what notice to employees is needed, potential penalties for non-reporting, possible certification forms for compliance, and other questions. Work on this project has not progressed to the point where costs and benefits of possible regulatory approaches can be determined.

Abstract: OSHA's policy concerning the use of engineering controls and respirators was targeted for review by the President's Task Force on Regulatory Relief in 1981. Current OSHA regulations require that employers implement feasible engineering controls to maintain air contaminant concentrations in the workplace at or below the prescribed permissible exposure limits. The use of respirators is permitted only in those cases where engineering controls are not feasible, not yet installed, or not adequate. This policy has been criticized as being inflexible, not cost-effective, and often unnecessary for employee health protection. OSHA believes that any changes to the policy for use of engineering controls must be closely coordinated with revisions in the respiratory protection regulations (29 CFR 1910.134). This rulemaking does not address the assessment and reduction of any absolute existing risks, but rather addresses the possible change in risk abatement associated with the use of respirators instead of engineering controls. OSHA published a proposal on June 5, 1989 (54 FR 23991). Hearings were held on May 30-31, 1990, and continued on July 9-10, 1990.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.266 (Revision)

Legal Deadline: None

Abstract: Logging is a very hazardous industry. It has an incidence rate nearly twice that of manufacturing, and reflecting the seriousness of the injuries incurred, a lost workday rate nearly four times as high. The purpose of the standard will be to protect workers from the ever-present hazards of chain saw operation, falling objects (trees, branches), rolling or sliding logs, falls from trees, and materials handling accidents. At present there is no OSHA standard specifically applicable to logging in general. There is a standard, 29 CFR 1910.266, applicable only to pulpwood logging; however, pulpwood logging is estimated to account for less than half of the logging activity in the United States. Development of a national OSHA standard addressing all types of logging will provide coverage for those loggers not now protected. The new regulation will provide coverage where there is no approved state regulation and will set a minimum safety level for those states that chose to develop a state regulation.

Abstract: A major area of coverage not addressed in the current OSHA electrical standards for general industry (29 CFR 1910) involves the maintenance and operation practices associated with electrical transmission and distribution lines, substations and generating stations. It is intended that the proposed standard fill this void by establishing minimum requirements for electrical safety work practices for qualified employees working on or near installations whose purpose is the generation and distribution of electricity. The proposal also revises the standards for electrical protective equipment, which is used routinely for electrical power work.

Abstract: This regulatory action will revise the existing shipyard standards covering access and egress and will consolidate all related and applicable 29 CFR part 1910 provisions into 29 CFR part 1915. The revision will develop, in part, performance-oriented standards, address current gaps in coverage, address new technology, and eliminate outmoded and redundant provisions.

Abstract: Existing standards for eye, face, head, and foot protection reference outdated national consensus standards which have been updated and improved. Consequently, criteria for personal protective equipment for eye, face, head, and foot would be revised to reflect improved developments in these types of equipment. This would allow the use of better personal protective equipment and would result in improved employee protection from eye, face, head, and foot hazards.

Abstract: On October 10, 1985, EPA referred 1,3-butadiene (BD) to OSHA for possible regulatory action under section 9(a) of the Toxic Substance Control Act. On April 11, 1986, OSHA responded to the EPA referral indicating that the Agency has preliminarily concluded that BD poses risk to the occupationally exposed population at the current OSHA permissible exposure limit and that the risk can be reduced or prevented through the promulgation of a revised standard. On October 1, 1986 (51 FR 35003), OSHA published an ANPRM initiating regulatory action within the meaning of section 9(a) of TSCA. Comments were submitted to OSHA by

Abstract: In July 1985, OSHA was petitioned by the United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) to issue a hazard alert; issue an emergency temporary standard; and to begin work on a new permanent standard for methylene chloride (DCM). This request was based on information obtained from the Environmental Protection Agency and the National Toxicology Program indicating that DCM is an animal carcinogen and may have the potential to cause cancer in humans. In November 1986, OSHA notified the UAW that its petition had been granted, in part, and denied, in part. Specifically, OSHA issued a set of guidelines for controlling occupational exposure to DCM and OSHA denied that portion of the petition requesting the issuance of an emergency temporary standard. OSHA published an Advance Notice of Proposed

Rulemaking on November 24, 1986 (51 FR 42257). After reviewing and analyzing the comments received in response to the ANPRM, OSHA published a proposal in the Federal Register on November 7, 1991 (56 FR 57036). The comment period closed on April 6, 1992. On June 9, 1992, OSHA published a notice of informal public hearings to be held in Washington, DC on (CONT)

Abstract: OSHA promulgated a final rule on August 24, 1987, that extended the protections of its Hazard Communication Standard (HCS) from the manufacturing sector to all other workplaces where employees are exposed to hazardous chemicals. The HCS requires covered employers to establish hazard communication programs for their employees, including labels on containers, material safety data sheets, and training programs. On

August 8, 1988, OSHA published a NPRM to modify the final rule, and provide an opportunity for public comment. Public comments have been received, hearings have been held, and OSHA will prepare a final rule based on the public record for this standard, including the record developed in earlier rulemakings. OSHA published a request for information (RFI) on May 17, 1990, (55 FR 20580) to improve the quality and representation of the information provided on the MSDS's and labels and to consider a standardize format. OSHA will determine if the rule should be reopened after the comments and other relevant information are analyzed. The comment period for the RFI expired on August 15, 1990.

Abstract: On June 20, 1986, OSHA published revised standards governing occupational exposure to asbestos, tremolite, anthophyllite and actinolite in general industry and construction. In these standards, OSHA reduced the 8-hour time weighted average (TWA) permissible exposure limit (PEL) to 0.2 f/cc, and established other protective provisions. This standard was legally challenged, and as a result, the Court of Appeals for the District of Columbia upheld the standard except that the court held that OSHA must reconsider several of the standard's provisions to determine if more protective regulatory provisions are available to reduce risk. One of the issues to be reconsidered was the need for a short-term limit for occupational exposure to asbestos in response to the Court's directive. This limit was established as 1 f/cc averaged over a 30-minute sampling period and a legal notification of this amendment was published on September 14, 1988, at 53 FR 35610. (cont)

2057. ACCREDITATION OF TRAINING PROGRAMS FOR HAZARDOUS WASTE OPERATIONS (PART 1910)**Significance:** Regulatory Program**Legal Authority:** 29 USC 655(b); PL 101-549 (November 15, 1990); 5 USC 552(a); 5 USC 533**CFR Citation:** 29 CFR 1910.121, subpart H**Legal Deadline:** None

Abstract: Public Law 99-499 requires the Secretary of Labor to promulgate a final standard for Hazardous Waste Operations and Emergency Response. The final standard was issued on March 6, 1989. Section 126 of Public Law 99-499 was amended by Congress on December 22, 1987 to require the Secretary of Labor to include in the final rule a training course certification program at least as comprehensive as the EPA's model program for asbestos abatement in public buildings. This proposed revision would add criteria and requirements for training course certification of training for workers involved in hazardous waste operations. Separately, OSHA has collected additional information on this rulemaking during the second half of CY 1991 on the characteristics of selected training programs for emergency response personnel for hazardous materials incidents. Accordingly, the Agency will be submitting this report to the public record in early 1992, and will be granting the public an opportunity to review and comment on the report and survey results. OSHA is presently reviewing comments submitted in response to a partial reopening of the record for this rulemaking. The notice was published (CONT)

Abstract: OSHA currently has no general regulation requiring that employers train their employees in the safe operation of motor vehicles on the job, including the required use of seat belts, although motor vehicle crashes are the single largest cause of occupational fatalities. On-the-job motor vehicle crashes, in both on-road and off-road vehicles, caused over 30 percent of traumatic work-related fatalities. In the manufacturing sector, which is the primary target of most OSHA regulations, more workers are killed by motor vehicles than by fixed machinery. The hazards faced by workers operating automobiles and trucks, both on public highways and at private facilities, could be greatly reduced by requiring employers to train their employees in safe driving techniques, including the required use of seat belts. OSHA plans to proceed with a single NPRM that would regulate all employers covered by the OSHA Act. The approach will be to develop a generic, performance-oriented standard. Various state regulations governing the use of seat belts, and related studies will be considered in this proposal. OSHA expects that the regulation could prevent as many as 684 fatalities each year.

Abstract: Concerns have been raised by Congress, OMB, OSHA, NIOSH, BLS, the National Academy of Sciences, GAO and representatives of business and labor about the reporting of fatalities and multiple hospitalizations. These include the procedures employers are required to follow, the length of time employers have to report the fatalities to OSHA, and the number of hospitalizations required before the employer must report the incident to OSHA. In particular, 48 hour reporting may allow too many workplace factors to change before OSHA can reach the worksite to perform an adequate investigation of the incident. In addition, there are concerns that the current regulation may not adequately inform employers of the need to report all occupational fatalities, including those that occur extended periods of time after the employee was originally injured. Benefits will include more accurate employer reporting of fatalities and multiple hospitalizations, an improved ability for OSHA to respond to serious accidents while evidence is still "fresh", an improved count of fatalities and multiple hospitalizations and an upgraded data base for researchers and policy officials.

Abstract: On June 20, 1986, OSHA issued revised standards governing occupational exposure to asbestos, tremolite, anthophyllite, and actinolite in general industry and in the construction industry. These standards replaced OSHA's previous asbestos standard promulgated in 1972. Since the issuance of the revised standards, OSHA received letters and petitions concerning the appropriateness of regulating nonasbestiform tremolite, anthophyllite and actinolite as asbestos. OSHA granted a temporary stay of the effective dates of the current standards as they apply to nonasbestiform varieties of tremolite, anthophyllite and actinolite. This action was taken, in part, to enable the Agency to review letters and memoranda from the National Institute for Occupational Safety and Health as well as submissions by the R. T. Vanderbilt Company and various other trade associations concerning the appropriateness of regulating nonasbestiform tremolite, anthophyllite and actinolite in the revised standards. In addition, the temporary stay was imposed to allow sufficient time for OSHA to reopen the rulemaking record and conduct supplemental proceedings (CONT)

Additional Information: ABSTRACT CONT: on the issue of whether, and how, to regulate occupational exposure to the nonasbestiform varieties of tremolite, anthophyllite and actinolite. On February 12, 1990 (55 FR 4938), OSHA published a proposal to gather additional information and data to determine whether and how to regulate the nonasbestiform varieties. Hearings were held May 8-14, 1990, and the comment period closed on June 28, 1990. After the close of the post-hearing comment periods, the American Thoracic Society (ATS) submitted a final report on "The Health Effects of Tremolite." Abstract: 4,4'-Methylenedianiline (MDA) is a chemical used primarily to manufacture methylenediphenyl diisocyanate, which is used to make polyurethane foams and elastomers. Recent scientific data indicate that MDA is a carcinogen in animals and a potential carcinogen in humans. In 1983, OSHA and the Environmental Protection Agency participated in a joint effort to publish an advance notice of proposed rulemaking to solicit information on MDA production and use, estimates of environmental and occupational exposure, and studies of its toxic and carcinogenic effects. EPA evaluated the data received in response to the advance notice and concluded that the chemical presents an unreasonable risk of injury to the health of exposed workers. Under the provisions of section 9(a) of the Toxic Substances Control Act, EPA referred MDA to OSHA for action. OSHA responded to the EPA referral on 2/26/86. OSHA established a mediated rulemaking advisory committee composed of interested parties from labor, industry and government to assist the agency in developing a proposed standard. The Committee completed its work in June 1987 (cont)

Significance: Regulatory Program

CFR Citation: 29 CFR 1910.1048

Legal Deadline: None

Abstract: On December 4, 1987, the Occupational Safety and Health Administration (OSHA) published a revised standard for occupational exposure to formaldehyde (29 CFR 1910.1048). This standard contained permissible exposure limits of 1 part weighted average (TWA) and 2 ppm as a 15-minute short-term exposure limit (STEL), along with ancillary protective provisions. Several interested parties petitioned the courts to review this standard. On June 9, 1989, the U.S. Court of Appeals for the District of Columbia Circuit issued its decision, which upheld the standard, but remanded the standard back to the Agency for reconsideration of two

issues: the assessment of the risk of cancer at 1 ppm, and the failure of the Agency to require medical removal protection (MRP). The final standard also required that hazard-warning labels be placed on containers of all products composed of greater than 0.1 percent formaldehyde or capable of releasing formaldehyde into the air under any normal condition of use at concentrations reaching or exceeding 0.1 ppm. Additional Information: ABSTRACT CONT: The Formaldehyde Institute filed an application for administrative stay of the formaldehyde standard's cancer labeling requirement. Based on the confusion and misunderstanding of the standard's requirements reflected in the application and in numerous comments submitted to the Agency subsequent to the application, the Agency decided to stay the hazard communication provisions of the formaldehyde standard (29 CFR 1910.1048(m)(1)(i) through (m)(4)(ii)). The purpose of the stay is to permit the Agency to propose to revoke these paragraphs and rely on the provisions of the hazard communication standard or develop some appropriate alternative. The stay was first granted on December 13, 1988 (53 FR 50198). On June 13, 1990 (55 FR 24070), OSHA extended the administrative stay until August 13, 1990, to consider further developments in the hazard communication rulemaking in determining what regulatory action to propose on formaldehyde. Based on public comment and the rulemaking record, OSHA published a formaldehyde proposal on July 15, 1991. The comment period ended on August 14, 1991. The final standard was published on May 27, 1992 (57 FR 22290).

Significance: Regulatory Program

Legal Authority: 29 USC 655 et seq

CFR Citation: 29 CFR 1910 (Table Z-2)

Legal Deadline: None

Abstract: On June 18, 1986, the International Chemical Workers Union and the Public Citizen Health Research Group petitioned OSHA to issue an emergency temporary standard reducing the permissible exposure limit for cadmium to one microgram of cadmium per cubic meter of air. On June 25, 1987 the union and HRG filed a petition with the Court of Appeals requesting the Court to order OSHA to promulgate an ETS. In its July 1, 1987, response to the petitioners, OSHA stated that issuance of an emergency standard was not warranted, but that exposure to cadmium at levels permitted under the current standard represented a significant risk to worker health which would be addressed through section 6(b) rulemaking procedures. On September 26, 1988, OSHA published guidelines for controlling exposure to cadmium and recommended reduced exposure levels significantly below the permissible exposure limit. OSHA published a proposal on February 6, 1990 (55 FR 4052), and conducted hearings on June 5, 1990, in Washington, DC and on July 17, 1990, in Denver, CO. The comment period closed on October 18, 1990. OSHA reopened the record on September 18, 1991, (Cont)

Abstract: The Veterans' Reemployment Rights (VRR) law 38 USC, Sections 2012-2206 with subsequent amendments and judicial constructions has become a confusing and cumbersome doctrine. As a result, the Administration proposes to introduce legislation replacing the existing Veterans' Reemployment Rights statute. The proposed legislation requires the Secretary of Labor to issue regulations implementing and

interpreting the statute. The proposal will seek to: (1) make the law understandable (2) determine the veteran's entitlement and eligibility requirement on time rather than category of service, (3) promote expedited resolution of claims and (4) provide statutory processing timeframes. The costs and benefits are intangible and relate to the ability to maintain sufficient membership in the Armed Forces, and to ensure the availability of citizen-soldiers.

CFR Citation: 22 CFR 89

Legal Deadline: Final, Statutory, December 31, 1992.

Legal deadline reflects the statutory requirement that the list be updated on an annual basis.

Abstract: The above-mentioned statute requires the Secretary of State to compile, and update annually through Notice-and-Comment rulemaking procedures, a list, by particular longshore activity, of countries where performance of such activity is prohibited by law, regulation, or in practice in the country concerned. According to the statute cited above, the Attorney General will use this list for enforcing restrictions on work performed by crewmembers of vessels from such countries. Compilation of the list itself does not involve any significant costs and is based upon information being provided to the Department of State by U.S. diplomatic missions overseas as well as by the public. Questions regarding the policy justification for the list and its use are best directed to the Department of Labor, Transportation, and Justice.

Significance: Regulatory Program

Legal Authority: 31 USC 1352; 22 USC 2658

CFR Citation: 22 CFR 138 (New)

Legal Deadline: None

Abstract: This interim final rule establishes a uniform regulation for nonprocurement Federal transactions among 29 Federal agencies. The regulation adopts and implements guidance published by the Office of Management and Budget (see 54 52306, December 20, 1989), pursuant to section 319 of the Interior and Related Agencies Appropriations Act for Fiscal Year 1990. Section 319 added section 1352, "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions,"

to title 31, United States Code. The interim final rule, published February 26, 1990, establishes semiannual reporting requirements. There has been no final action on the interim final rule, because new legislation has been proposed by Senator Levin which, if enacted, would rescind the current requirement for semiannual reporting, and add a provision requiring registration by all lobbyists with the Department of Justice.

Abstract: The Immigration Act of 1990 (the Act), Pub. L. 101-649, enacted on November 29, 1990, constitutes a comprehensive revision of the United States immigration law. The law partially restructured the immigrant visa system. The Immigration and Nationality Act at section 104 (8 U.S.C. 1104) grants the Secretary of State general authority over the issuance and refusal of visas and to promulgate necessary regulations.

Department Regulations Agenda;
Semiannual Summary

AGENCY: Office of the Secretary, DOT.

ACTION: Department regulations agenda.

SUMMARY: The regulations agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The agenda provides the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of and allow it to more effectively participate in the Department's regulatory activity. The public is also invited to submit comments to continuously open regulatory review dockets, suggesting items for consideration as part of the Department's ongoing review of existing regulations.

ADDRESSES: The mailing address for the initiating offices of the Department which appear in the agenda is 400 Seventh Street SW., Washington, DC 20590; except for the Federal Aviation Administration, which is located at 800 Independence Avenue SW., Washington, DC 20591, and the U.S. Coast Guard, which is located at 2100 2nd Street SW., Washington, DC 20593.

Agenda

SUPPLEMENTARY INFORMATION:

Background

Improvement of Government regulations is a prime goal of the Bush Administration. There should be no more regulations than necessary, and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department of Transportation (Department) achieve these goals and in accordance with Executive Order 12291 "Federal Regulation" (46 FR 13193; February 19, 1981) and the Department's Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), the Department prepares a semiannual regulations agenda for publication in the *Federal Register*. The agenda summarizes all current and projected rulemaking, reviews of existing regulations, and completed actions of the Department. These are matters on which action has begun or is projected during the

succeeding 12 months or such longer period as may be anticipated or for which action has been completed since the last agenda.

The agendas are based on reports submitted by the initiating offices in January and July each year. After these reports are consolidated for and reviewed by the Department Regulations Council, the Department's regulations agenda is prepared and published in the *Federal Register*. The Department's last agenda was published in the *Federal Register* on April 27, 1992 (57 FR 17012). The next one is scheduled for publication in the *Federal Register* in April 1993.

Regulatory Flexibility Act

In 1980, Congress passed the Regulatory Flexibility Act (RFA), Public Law 96-354, which requires the designation of those regulations for which a Regulatory Flexibility Analysis will be prepared; i.e., those regulations that would have a significant economic impact on a substantial number of small entities. A Regulatory Flexibility Analysis is required for a rulemaking which, in the heading "Small Entities Affected," indicates an effect on small businesses, governmental jurisdictions, or organizations. If a Regulatory Flexibility Analysis will be prepared for a particular rulemaking, that fact also will be noted under the heading "Analysis."

The RFA also requires that, each year, the Department publish a list of those regulations that have a significant economic impact on a substantial number of small entities and are to be reviewed under the Act during the succeeding 12 months. The agenda includes those regulations to be reviewed under the RFA or those for which review has been concluded since the last agenda. However, it should be noted that, after a preliminary assessment of the regulations listed for RFA review, it may be found that the regulations, in fact, do not have a significant economic impact on a substantial number of small entities, and a full RFA review will be unnecessary.

Regulatory Impact Analysis

A preliminary and final Regulatory Impact Analysis is required for each proposed and final regulation, respectively, that

(1) is likely to result in:

DOT

(a) An annual effect on the economy of \$100 million or more;

(b) a major effect on the general economy in terms of costs, consumer prices, or production;

(c) a major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions;

(d) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets; or

(2) the Secretary or head of the initiating office has determined requires such an analysis.

Definitions

The agenda covers all rules and regulations of the Department, including those that establish conditions for financial assistance. The following definitions are provided for ease in understanding the information in this document.

(1) *Initiating office* means an operating administration or other organizational element within the Department, the head of which is authorized by law or delegation to issue regulations or to formulate regulations for issuance by the Secretary.

(2) *Significant regulation* means a regulation that is not an emergency regulation and that, in the judgment of the head of the initiating office or the Secretary or the Deputy Secretary,

(a) is a major regulation;

(b) concerns a matter on which there is substantial public interest or controversy;

(c) has a major impact on another operating administration or other parts of the Department or other Federal agency;

(d) has a substantial effect on State and local governments;

(e) has a substantial impact on a major transportation safety problem;

(f) initiates a substantial regulatory program or change in policy;

(g) is substantially different from international requirements or standards; or

(h) otherwise involves important Department policy.

(3) *Major regulation* means a significant regulation for which a Regulatory Impact Analysis is required to be prepared.

(4) *Emergency regulation* means a regulation that, (a) in the judgment of the head of the initiating office, circumstances require to be issued without notice and opportunity for public comment or made effective in less than 30 days after publication in the Federal Register or (b) is governed by short-term statutory or judicial deadlines.

(5) *Nonsignificant regulation* means a regulation that, in the judgment of the head of the initiating office, is neither a significant nor an emergency regulation.

Explanation of Information on the Agenda

The format for this agenda is required by Office of Management and Budget memorandum of June 11, 1992.

First, the agenda is divided by initiating offices. Then, in accordance with the OMB memorandum, for each initiating office, the agenda is divided into four categories: (1) Prerule stage, (2) proposed rule stage, (3) final rule stage, and (4) completed actions. For each entry, the agenda provides the following information: (1) The "significance" of the action (i.e., whether it is significant because it is on the Regulatory Program or because of agency priority or whether it is nonsignificant or routine and frequent); (2) a short descriptive title; (3) the legal basis for the action being taken or the regulation being reviewed; (4) the related regulatory citation in the Code of Federal Regulations; (5) an indication of any legal deadline and, if so, for what type of action (e.g., NPRM, final rule); (6) an abstract of the review or the proposed or final regulation; (7) a timetable, including the earliest expected date for a decision, on whether to issue the proposed or final regulation or complete the review and determine the corrective action to be taken. (The action taken can be revocation or revision of the regulation, or it can be a determination that no regulatory action is necessary because the regulation is found to be achieving its goals and the goals and objectives of Executive Order 12291 and the Department's Regulatory Policies and Procedures.); (8) an indication as to whether the rulemaking will affect small entities and/or levels of government and which categories of small entities or governments will be impacted; (9) if there is information that

does not fit in the other categories, it will be included under a separate heading entitled "Additional Information"; (10) a listing, where determined, of any analyses an initiating office will prepare or has prepared for the rulemaking document; e.g., a Regulatory Impact Analysis or Evaluation, an Environmental Impact Statement (EIS), a Regulatory Flexibility Analysis, or an Urban Impact Analysis. (It should be noted that, even though a Regulatory Impact Analysis is not required for some items on the agenda, the Department requires an economic analysis for all of its regulations. This economic analysis is contained in the Regulatory Evaluation, if a Regulatory Impact Analysis is not prepared.); (11) an agency contact office or official who can provide further information, including advice on how to obtain documents referenced in the agenda; and (12) a Regulation Identifier Number (RIN) assigned to identify an individual rulemaking in the agenda and facilitate tracing further action on the issue in the Federal Register which may occur between agenda publications. (Departmental rulemaking documents published in the Federal Register now contain RIN numbers.)

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules), to keep those requirements operationally current, only the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations are included; individual regulations are not listed.

If a regulatory docket number has already been established, it may be provided under the "Additional Information" heading. If a member of the public desires further information regarding a particular proposal or regulation, reference should be made to this docket number.

In the "Timetable" column, abbreviations are used to indicate the particular documents being considered for issuance by that date. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, NPRM for Notice of Proposed Rulemaking, and FR for Final Rule. Listing a future date in this column is not an indication that a proposed or a final rule will be issued

DOT

on that date; it is the earliest date on which a decision is expected to be made on whether to issue the document listed. Submittal of any proposed or final rule to the Office of Management and Budget for review under Executive Order 12291 must follow such a decision. For major rules, this review could take 60 days or more. If any document is issued, publication in the **Federal Register** would follow within a few days. In addition, these dates are based on current schedules. Information received subsequent to the issuance of this agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

Finally, a dot (●) preceding an entry indicates that the entry appears in the agenda for the first time.

Mailing Lists for Regulatory Documents

To assist the public in obtaining regulatory documents issued within the Department of Transportation, an Appendix A has been included in this document. The appendix contains instructions on how to be placed on mailing lists for or to obtain copies of specific regulatory documents, including the Department's semiannual regulations agenda issued by the operating administrations of the Department and the Office of the Secretary. There is no charge for this service; however, because of the costs involved, the number of copies of a document forwarded to an individual requestor may be limited. Persons already on mailing lists for particular documents within the Department will remain on those lists and should not reapply.

By following the instructions specified in the appendix, a person can be placed on a mailing list for future copies of the Department's regulations agenda, which will be updated and published in the **Federal Register** every year during April and October. By using the agenda, individuals can determine which notice or advance notice of proposed rulemaking, to be issued by elements of the Department, is of interest to them. Then, using the instructions in the appendix, such persons also can be placed on a mailing list to ensure that, after the document of interest is issued, a copy will be mailed to them for their

review and comment. In this way, individuals will be relieved of the burden of having to review the **Federal Register**, perhaps on a daily basis. The Department expects that this process will ensure that those people placed on mailing lists will receive early notice so that their views on the document can be adequately prepared and presented within the established comment period.

General Rulemaking Contact Persons

To assist persons desiring to obtain general information concerning the rulemaking process within the Department's operating administrations, an Appendix B has been added to the agenda. This appendix sets forth the addresses and the telephone numbers of the persons who can respond quickly to requests for general rulemaking information. Please note, however, that questions related to particular rulemaking actions should still be referred to the contact person listed with the particular rulemaking on the agenda.

Public Rulemaking Dockets

To facilitate the inspection of docket files and the submission of comments by the public, an Appendix C sets forth the addresses and working hours for the Rules Docket for each operating administration.

Request for Comments

Agenda

Our agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful information, as well as make the agenda easier to use. We would also like you, the public, to make suggestions or comments on how the agenda could be further improved. For example, do you find the information presented in an easily understandable manner? Do you find it easy to follow a regulation's development from agenda to agenda? Do you find that the format for setting out the information enables you to use the agenda easily? Do you find that the presentation of the information in the agenda is clearly explained in the preamble to the agenda? Your responses to these questions or any other comments or suggestions you may have should be sent to Neil R. Eisner, whose address appears above.

Reviews

In an effort to comply further with the spirit of Executive Order 12291 and the Regulatory Flexibility Act, we are also seeking suggestions on existing regulations that should be included in our review of existing regulations; that is, which existing regulations issued by an operating administration of the Department or the Office of the Secretary do you believe need to be reviewed to determine whether they should be revised or revoked? The Department is particularly interested in obtaining information on requirements that have a "significant economic impact on small entities" and, therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please send them, along with your explanation of why they should be reviewed, to the concerned operating administration or the Office of the Secretary. To ease the process for submission of suggestions of regulations warranting review by departmental entities, each operating administration and the Office of the Secretary maintains a continuously open regulatory review docket. Suggestions should be submitted to the docket section of the relevant modal administration or Office of the Secretary, attention "Regulatory Review Docket," with the following specific rulemaking docket numbers:

Federal Aviation Administration, Docket 26768;

Federal Highway Administration, Docket 92-12;

Federal Railroad Administration, Docket RSS-1-92-1;

Federal Transit Administration, Docket 92A;

Maritime Administration, Docket R-141;

National Highway Traffic Safety Administration, Docket 92-04;

Office of the Secretary, Docket 47978;

Research and Special Programs Administration, Docket RR-1;

Saint Lawrence Seaway Development Corporation, Attn: Marc Owen, Chief Counsel;

United States Coast Guard, Docket 92-005.

The addresses of the docket sections are contained in Appendix C. Multiple copies of the suggestions would be appreciated but are not required.

DOT

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that are targeted for review under the RFA. Those comments should be addressed to the "contact" person of the operating administration involved.

Purpose

The Department is publishing this regulations agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity. Knowledge of the nature and scope of this activity, as well as the specific proposals and reviews being considered, should result in more effective public participation in the Department's regulatory activity. For example, awareness of the dates when notices may be issued seeking public comment should allow appropriate planning and more efficient use of the comment period. By providing the expected date for a decision on whether to issue a final rule, the Department expects that more appropriate planning by those concerned with the regulation will also be possible. This publication in the **Federal Register** does not impose any binding obligation on the Department or any of the offices within the Department with regard to any specific item on the agenda. Regulatory action, in addition to the items listed, is not precluded. If further information is desired on any of the items listed in the agenda, the public is encouraged to contact the individual listed for the particular item. Additional information concerning the agenda in general or the Department's Regulatory Policies and Procedures may be obtained from Neil R. Eisner, whose address and telephone number appear above.

Issued in Washington, DC, on September 14, 1992.

Andrew H. Card, Jr.,

Secretary of Transportation.

Appendix A - Instructions for Obtaining Copies of Regulatory Documents

Some Administrations within the Department differ in procedures or as to inclusion on a mailing list. For the offices listed below, persons desiring to obtain a copy of a specific regulatory document to be issued that is listed in this agenda should communicate, either by telephone or by letter, with the

contact person listed with the regulation at the addresses below.

United States Coast Guard (USCG)

(Name of contact person), United States Coast Guard, 2100 2nd Street SW., Washington, DC 20593.

Federal Highway Administration (FHWA)

(Name of contact person), Federal Highway Administration, 400 7th Street SW., Washington, DC 20590.

Abstract: Consistent with DOT antidrug initiatives for DOT employees and employees of regulated industries, DOT

was considering requiring its contractors to establish antidrug programs (including drug testing and employee assistance programs) for employees performing safety-sensitive or security functions under DOT contracts. Although initially considered significant because of substantial public interest, the Department is considering withdrawing this rulemaking. Uniform, government-wide regulations to deter drug use among contractor employees have been issued to implement the Drug-Free Workplace Act.

Significance: Nonsignificant

Legal Authority: 49 USC 1381

CFR Citation: 14 CFR 399

Legal Deadline: None

Abstract: Donald L. Pevsner petitioned the CAB to institute a rulemaking proceeding to ban use of the term "direct flight" because it is deceptive, and to declare use of the term to be a prima facie violation of section 411 of the Federal Aviation Act of 1958. The Department is now considering what action to take in response to the petition.

Abstract: The DOT rules cited above state that any price stated for air transportation, a tour or a tour component must be the entire price for that transportation, tour or component. In this petition, Mr. Donald Pevsner complains that some tour operators advertise prices which do not include additional features which must be purchased and which cost extra. He asks that the rules be amended to state that such additional features may only be priced separately if they may be purchased separately, i.e., if they are optional rather than mandatory. The petition is under consideration.

Significance: Regulatory Program

Legal Authority: PL 98-575; PL 100-656, Sec 15(c) to 16 Commercial Space Launch Act

CFR Citation: None

Legal Deadline: None

Abstract: Persons authorized to conduct commercial launch activities by a license issued by the Office of

Commercial Space Transportation (OCST) are required to obtain insurance or demonstrate financial responsibility, in amounts and on terms prescribed by OCST, to protect against third-party or government property damage claims resulting from the licensed activities. Licensees and other launch participants are also required to enter into reciprocal waivers of claims arising out of licensed activities. In addition, persons engaged in commercial launch operations must provide proof of financial responsibility, or offer other assurances, adequate to

protect the government when its property or personnel are involved in such operations. This rulemaking codifies the procedures by which OCST sets appropriate levels and terms of insurance and financial responsibility required to be carried by persons subject to its authority. This action is significant because of substantial public interest.

Significance: Regulatory Program

Legal Authority: 49 USC app 2601 to 2623

CFR Citation: 14 CFR 400 to 415

Legal Deadline: None

Abstract: The Commercial Space Launch Act of 1984, as amended, grants the Department of Transportation's Office of Commercial Space Transportation authority to license and otherwise regulate commercial launches and the commercial operation of launch sites. The Office must ensure that commercial space launch activities are conducted in a manner that does not jeopardize public health and safety, and the safety of property without, however, imposing unnecessary regulatory burdens on the commercial launch industry. The industry has grown in size and complexity since the original regulations were published in 1988, and the Office's licensing program continues to evolve to reflect these changes. This rulemaking would modify the current regulations to reflect a streamlined and more mature licensing regime developed over the past few years. Such changes would benefit the industry by reducing regulatory burdens, thus reducing costs.

This rulemaking is significant because of substantial public interest.

Abstract: The Department is reviewing its regulation establishing a minority business enterprise (MBE) program in its financial assistance programs (49 CFR part 23). This regulation has been controversial, is of interest to most DOT grant recipients and contractors, and affects the operations of all DOT financial assistance programs. Section 106(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA) extended and modified the program as applied to FHWA and UMTA; similar legislation applied the same requirements to the FAA. The Department issued a final rule to make the STURAA changes in October 1987; a similar rule for FAA programs was published in May 1988. The Department intends subsequently to issue an NPRM that would propose further changes in the regulation.

CFR Citation: 49 CFR 41

Legal Deadline: NPRM, Statutory, January 5, 1993.

Abstract: Executive Order 12699 implements certain provisions of the Earthquake Hazards Reduction Act of 1977. The Department has up to three years from the date of the Order (January 1, 1990) to demonstrate compliance for developing and implementing its own mission-appropriate and cost-effective seismic safety and hazard reduction program. For DOT, this includes the design and construction of new transportation buildings, construction and leasing of new buildings, assistance in financing through grants/ loans and guarantees of newly constructed buildings, and responsibility for regulating the structural safety of new buildings. Abstract: This rule governs the activities of public charter operators, a type of indirect air carrier that sells charter air transportation to consumers, and airlines that perform the direct air transportation. DOT is proposing to amend the rule to remove unnecessary burdens on charter operators and airlines in order to foster competition and facilitate low-cost air transportation for the public while updating, restructuring, and simplifying the necessary consumer protection provisions of the rules. Abstract: The Department is proposing to provide formal notice to the public of its enforcement policy concerning the rebating of international air fares by adopting that policy as a Policy Statement in the regulations. No change in the substance of that policy is intended. The Department also proposes to revoke an existing Policy Statement on the advertising of rebates that is contrary to DOT's current enforcement policy. Although there is no judicial or
statutory deadline for the Department's
implementation, the statutory ban was
effective 02/25/90.

Abstract: This interim final rule
amends the rules governing smoking
aboard aircraft to incorporate a
statutory ban on smoking aboard most
U.S. flight segments. The statutory ban
applies to both U.S. and foreign air
carriers. This rulemaking proposed to
clarify the current rule and make other
minor changes. This rulemaking is

Abstract: An SNPRM proposed three
additions to part 382 to implement the
Air Carrier Access Act of 1986. The
additions concern standards for
boarding chairs; airport terminal
transportation systems; and substitute
service for persons denied the
opportunity to fly because of

Access Act of 1986. The proposed rule

Significance: Nonsignificant

Legal Authority: PL 94-135

CFR Citation: 29 CFR 1691

Abstract: The NPRM proposed to
prohibit age discrimination by
recipients of DOT financial assistance
programs. However, it has been
concluded that exceptions to the statute
would result in no substantive coverage
of DOT programs. Moreover, the
paperwork requirements for recipients,
without substantive coverage, would
have been counterproductive. The
NPRM will be withdrawn. The
Department will consider, in light of
any changes in DOT programs, whether
resultant substantive coverage would
then warrant a new rulemaking
proceeding.

Abstract: This action proposed to make
direct air carriers responsible for
returning charter passengers stranded
by strikes or other service interruptions,
by eliminating the force majeure clause
from charter contracts. However, the
CAB subsequently issued an
interpretive rule (ER-1387, 49 FR 33436)
which was affirmed in court. (Arrow
Air, Inc. v. Dole, 784 F.2d 1118 (1986)).
Therefore, this action is now moot; the

Abstract: This action would adopt as
final an interim Policy Statement on
preemption issued by the Civil
Aeronautics Board in 1979. It discusses
the policy of the Department with
respect to three areas in which State
law has been preempted by the Airline
Deregulation Act of 1978: regulation of
commuter air carriers and air taxis, the
rights of airport proprietors, and general
State authority as it directly or
indirectly affects air transportation

competition. The Supreme Court has
recently ruled in favor of the
Government's position, that section 105
of the ADA preempts even indirect
State regulation that "has a connection
with or reference to" airline rates,
routes, or services. The final Policy
Statement will incorporate this holding.

Abstract: The American Association of Airport Executives, the Airport

Operators Council International and the Air Transport Association of America petitioned the CAB to simplify its counter-sign requirements. Presently, airlines are required to display four different consumer protection notices on their ticket counters. The petitioners alleged that the current notices are hard to read and, therefore, do not provide much notice to passengers. They proposed replacing the four notices with one simplified counter sign. The CAB adopted an NPRM that proposed a number of alternatives, such as a long and/or short notice, where the notices would be required to be posted and whether a smoking notice should be included. DOT is now considering what action to take in response to the notice and comments filed.

Abstract: The Department of Transportation (DOT or Department) has proposed to establish procedures that must be followed when a Department employee or former employee is requested or subpoenaed to provide testimony or produce records concerning information acquired in the course of performing official duties or because of the official status of the employee. The proposed procedures and restrictions are necessary because Department attorneys and employees currently spend a considerable amount of time responding to litigants' requests for documents or testimony, often on the same matter. This rule would ensure more efficient use of Department resources, minimize the possibility of involving the Department in controversial issues not related to its mission, maintain the impartiality of the Department among private litigants, and

enhance the Department's ability to respond to requests.

Significance: Regulatory Program

Legal Authority: 49 USC 1381

CFR Citation: 14 CFR 255

Legal Deadline: None

Abstract: This proceeding promulgated stronger rules necessary to enhance competition in the airline and CRS industries by eliminating various CRS vendor practices that could restrain competition. As the Department must conduct a review within 5 years after their effective date, these revised rules will terminate December 31, 1997, unless extended further and, possibly, revised. American Airlines' rulemaking petition to severely restrict the use of elapsed time as a factor for ranking flights in CRS displays was denied. Many travelers consider elapsed time an important consideration in choosing airline service. American's proposal would have denied CRS's ability to use that factor in ordering their displays. This rulemaking was significant because of substantial public and industry interest.

2124. CONTROLLING THE MARINE ASBESTOS HAZARD (88-103)

Significance: Nonsignificant
Legal Authority: 46 USC 3306(a); 43 USC 1333
CFR Citation: 46 CFR 143
Legal Deadline: None

Abstract: Asbestos has been identified as a carcinogen for which there are no safe limits of exposure. This regulatory project would limit the hazards posed by asbestos to marine industry personnel aboard Coast Guard inspected vessels, mobile offshore drilling units, Outer Continental Shelf platforms, and deepwater ports.

DRAWBRIDGE OPENING (91-059)**

Significance: Nonsignificant

Legal Authority: 33 USC 499

CFR Citation: 33 CFR 117

(CGD 90-068)**

Significance: Regulatory Program

Legal Authority: 46 USC 4202

CFR Citation: 46 CFR 165

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: The Oil Pollution Act of 1990 directs the President by August 18, 1992 to (1) require periodic inspection of discharge-removal equipment to ensure that it is available in an emergency, and (2) require carriage of discharge-

removal equipment by vessels operating in the navigable waters of the U.S. and carrying oil or hazardous substances. This proposal would implement those provisions. This proposal is considered significant because of expected costs and substantial public interest.

**2134. + FACILITY RESPONSE PLANS
(91-036)**

Significance: Regulatory Program

Legal Authority: 46 USC 4202; 46 USC 5005; PL 101-30

CFR Citation: 46 CFR 165

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: This rulemaking partially implements sections 4202(b)(4) and 5005 of the Oil Pollution Act of 1990, P.L. 101-30 (OPA 90) concerning tank vessel and facility response plans. Section 4202(b)(4) of OPA-90 amends section 311(j)(5) of the Federal Water Pollution Control Act (FWPCA), which requires owners and operators of tank vessels and facilities to develop response plans for responding to worst-case discharges (or substantial threat thereof) of oil or hazardous substances. Section 5005 requires that response plans for tank vessels operating in Prince William Sound, Alaska, and facilities permitted under the Trans-Alaska Pipeline Authorization Act provided for additional measures of oil spill preparedness. This action is considered significant because of substantial public interest and environmental considerations. This rulemaking covers facility requirements. Tank vessel requirements is a separate rulemaking under RIN 2115-AD81.

2135. + STRUCTURAL AND OPERATIONAL MEASURES TO REDUCE OIL SPILLS FROM EXISTING TANK VESSELS WITHOUT DOUBLE HULLS (91-045)

Significance: Regulatory Program

Legal Authority: 46 USC 3703; PL 101-380

CFR Citation: 33 CFR Not yet determined; 46 CFR Not yet determined

Legal Deadline: None

Abstract: This rulemaking will address the interim measures existing vessels must take to provide substantial protection to the environment. The interim measures will apply to existing vessels until the vessel must comply with the double hull regulations beginning on January 1, 1995. No tank vessel without a double hull may operate after January 15, 2015. Interim measures are to include structural and operational standards to provide substantial protection to the environment that are economically and technologically feasible. This rulemaking is considered significant due to substantial public interest and environmental impact.

CFR Citation: 46 CFR 15.812; 46 CFR 10.700

Legal Deadline: None

Abstract: This proposal would: (1) delineate when certain inspected vessels are required to be under the

direction and control of a pilot, (2) describe first class pilotage areas where local pilotage expertise is warranted, (3) allow licensed individuals to serve as pilot in areas not identified as first class pilotage areas on vessels that they are otherwise qualified to control, and (4) permit individuals with 5 years experience on towing vessel combinations of at least 5,000 gross tons while acting under the authority of a license as master, mate, or operator of uninspected towing vessels, with a minimum of 2 of the 5 years having been on towing vessels combinations of at least 10,000 gross tons, to obtain without a written examination, an endorsement as first class pilot, restricted to tug and barge combinations only, for those routes over which they have made the required number of round trips. Abstract: This rulemaking is intended to regulate stability of tank vessels built under the mandate of section 4115(a) of the Oil Pollution Act of 1990. This section requires vessels constructed or adapted to carry oil in bulk or as cargo residue, for which a contract was placed after 30 June 1990, to be equipped with double hulls.

Abstract: This regulation project defines the conditions and designates the waters upon which tankers may operate with an unattended engine room. The SNPRM revised the NPRM by proposing to require the machinery spaces of integrated tug/barge combinations and tankers over 1,600 gross tons to be attended when underway in navigable U.S. waters.

2172. REFUSE RECORD BOOKS FOR SHIPS
Significance: Nonsignificant
Legal Authority: 33 USC 1903(b)
CFR Citation: 33 CFR 151
Legal Deadline: Final, Statutory, December 29, 1988.
Abstract: This regulation would require certain vessels and fixed or floating platforms to maintain a record of all their garbage discharges. This record is mandated by the Marine Plastic Pollution Research and Control Act of 1987. The alternatives being considered relate to the contents of the record, whether the record should be

maintained on the vessel or submitted to the Coast Guard, and what format should be used. The action's potential costs should be minimal and result from recordkeeping. This rulemaking action should reduce the number of illegal discharges of garbage, provide information for enforcement, and assist the Coast Guard in its studies of the methods of disposal being used, the problems encountered in port, and the amounts of garbage being generated at sea.

Significance: Nonsignificant
Legal Authority: 33 USC 1903(b)

Abstract: Proposal would require that hoses used to transfer bulk liquid hazardous materials to and from waterfront facilities and vessels be either labeled with the names of the products for which the hoses are used, be marked "oil service" or marked "for hazardous material service: Consult hose records for compatibility before use." Abstract: The Coast Guard has conducted the Port Access Route Study mandated by the Ports and Waterways Safety Act. As a result of the study, the Coast Guard has determined that potential conflicts between oil drilling and shipping require creation of a

Abstract: This rulemaking will implement the provisions concerning financial responsibility for vessels in the Oil Pollution Act of 1990 and the Comprehensive Environmental Response Compensation and Liability

Additional Information: The Oil Pollution Act of 1990 (OPA) repealed or superseded certain oil spill liability provisions under the Federal Water Pollution Control Act (33 USC 1321), Title III of the Outer Continental Shelf Lands Act Amendments of 1978 (43 USC 1814), the Trans-Alaska Pipeline Authorization Act (43 USC 1653) and the Deepwater Port Act of 1974 (33 USC 1517). The financial responsibility provisions of those Acts were replaced by a single financial responsibility regime under OPA and keyed to the broader liability of OPA. In addition to financial responsibility requirements under OPA, which is limited to oil, this project would include financial responsibility requirements under the Comprehensive Environmental Response, Compensation, and Liability Act, which concerns hazardous substances. This consolidation would allow the issuance of a single, unified Certificate of Financial Responsibility for vessels, replacing separate certificates and financial responsibility regimes under the previously mentioned Acts.

Significance: Regulatory Program

Legal Authority: 46 USC 4202; 46 USC 5005; PL 101-30

CFR Citation: 46 CFR 165

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: This rulemaking partially implements action 4202(b)(4) and 5005 of the Oil Pollution Act of 1990, P.L. 101-30 (OPA-90) concerning tank vessel and facility response plans. Section 4202(b)(4) of the OPA-90 amends section 311(j)(5) of the Federal Water Pollution Control Act (FWPCA), which requires owners and operators of tank vessels and facilities to develop response plans for responding to worst-case discharges (or substantial threat thereof) of oil or hazardous substances. Section 5005 requires that response plans for tank vessels operating in Prince William Sound, Alaska, and facilities permitted under the Trans-Alaska Pipeline Authorization Act provide for additional measures of oil spill preparedness. This action is considered significant because of substantial public interest and environmental considerations. This rulemaking covers tank vessel requirements. Facility requirements is a separate rulemaking under RIN 2155-AD82. The Coast Guard is utilizing a Regulatory Negotiation Rulemaking Committee to assist in this rulemaking. The initial meetings were held 8-10 January 1992.

Abstract: Rulemaking would redefine and establish more stringent qualifying criteria for individuals engaged in transporting and transferring various categories of oil and dangerous liquid cargoes. The Port and Tanker Safety Act of 1978 mandated the establishment of personnel qualification and manning standards for tank vessels. In addition, the International Convention on the Standards for Training, Certification, and Watchkeeping for Seafarers 1978 (STCW), has entered into effect and establishes international standards for tank vessel personnel qualifications. In view of the length of time since publication of the NPRM, a supplemental NPRM was issued.

Significance: Nonsignificant

Legal Authority: PL 101-380; 46 USC 3703

CFR Citation: 46 CFR Not yet determined

Legal Deadline: None

Abstract: This rulemaking is to develop standards which implement section

4116(c) of the Oil Pollution Act of 1990. It will address the areas of Prince William and Puget Sounds where a two-vessel escort will be required, define other areas in U.S. waters where an affected tanker must have a two-vessel escort, identify other appropriate vessels in addition to towing vessels as defined in 46 USC 2101, and define the operational procedures for escorting.

Significance: Agency Priority

Legal Authority: 46 USC 8105; 46 USC 9303; 46 USC 9304

CFR Citation: 46 CFR 401

Legal Deadline: None

Abstract: This action amended the Great Lakes Pilotage Regulations by increasing the basic pilotage rates. These changes were in order to increase the revenue received by the pilot organizations so that they may meet their operating costs pending development of a permanent rate methodology. This rulemaking was considered significant because it was of substantial public interest and controversial, and had international implications.

CFR Citation: 40 CFR 16

Legal Deadline: None

Abstract: This action further extends the implementation date of required testing of employees on U.S. vessels in waters subject to the jurisdiction of a foreign government. This final rule is considered significant because of the substantial public interest in, and concern for, a drug-free transportation environment. Under this final rule, these employees must become subject to testing no later than 01/02/95.

Abstract: After a review of existing regulations, the Coast Guard has determined that this rulemaking is not necessary. This entry is, therefore, terminated. Coast Guard determined that its existing alcohol regulations at 33 CFR 95 and 46 CFR 4 appropriately address current needs for alcohol testing in the maritime industry. If it is determined in future that additional requirements are appropriate, a new rulemaking will be initiated.

Significance: Nonsignificant

Legal Authority: 46 USC 4310

CFR Citation: 33 CFR 179.01 to 179.19

Legal Deadline: None

Abstract: This rulemaking is intended to require marine dealers to furnish boat and engine manufacturers with serial numbers of new boats and engines sold and the names and addresses of retail first purchasers of those products. Manufacturers would use the information to locate purchasers of boats and engines recalled for defects which create a substantial risk of personal injury to the public and for failures to comply with applicable regulations. The proposed action was withdrawn because State vessel numbering and registration information is available to boat manufacturers from most issuing authorities and can also be used for defect notification. Withdrawal will allow existing records to be utilized instead of increasing information and other paperwork burdens for boat and engine manufacturers and marine dealers.

Significance: Nonsignificant

Legal Authority: 33 USC 1221

CFR Citation: 33 CFR 162

Legal Deadline: None

Abstract: This action was to revise and update the inland waterways navigation regulations for the Gulf Intracoastal Waterway from St. Marks, FL, to the Rio Grande River; certain frequently granted exemptions regarding length and width of tows were to be incorporated into the regulations. However, in view of comments received, the proposal was withdrawn. Granting universal permission for double-wide tows could create an increased threat of collision, environmental damage, and economic loss, a risk too great to accept.

Abstract: This notice would propose to
revise the fatigue requirements for
damage-tolerant structures on transport
category airplanes to require full-scale
fatigue testing and to require that the
thresholds for inspections be based on
crack growth from initial flaws in the
structure. These proposed changes are
based on the service history of
airplanes evaluated to the current
damage tolerance requirements and are
intended to ensure that, should serious
fatigue damage occur within the
operational life of the airplane, the
remaining structure can withstand
reasonable loads without failure until
the damage is detected. This

Aging Aircraft Safety Act of 1991; action must be initiated by 04/24/92.

Abstract: This notice would propose to require air carriers of certain aircraft used in air transportation to demonstrate that the aircraft's maintenance has been adequate to ensure the highest degree of safety.

This notice would propose to require air carriers of 15-year-old or older aircraft with a maximum certificated takeoff weight of 75,000 pounds or more to demonstrate that certain specified maintenance actions have been performed and to make the aircraft available to the Administrator of the FAA for inspection. This rulemaking is considered significant because of substantial public and congressional interest.

Omnibus Transportation Employee Act of 1991

Abstract: This action would implement the FAA-related provisions of the Omnibus Transportation Employee Testing Act of 1991, which was enacted on October 28, 1991. By amending the Federal Aviation Act of 1958, Congress has imposed a statutory obligation on the Administrator of the FAA to prescribe regulations that, among other things, establish an alcohol testing program for air carrier employees who perform safety-sensitive duties.

DOT-FAA

Proposed Rule Stage

This action would also propose to prohibit certain alcohol-related conduct by covered air carrier employees and would require pre-employment, random, reasonable suspicion, post-accident, and follow-up testing to detect and deter such conduct. This rulemaking is considered significant because of substantial public and congressional interest.

Abstract: This notice would revise the medical standards and the medical certification procedures of the Federal Aviation Regulations. This action follows the completion of a comprehensive review of the medical standards which was announced in previous notices. If adopted, these revised standards for airman medical certification and associated administrative procedures will better provide for safety in the aviation system and reflect current medical knowledge, practice, and terminology. Legal Deadline: None

Abstract: This action would amend the pilot and flight instructor certification rules to include additional use of aircraft aircraft flight simulators and flight training devices for pilot training, testing, and checking. This notice also would propose a new Part 142 that would govern a new concept called training centers. This new concept will emphasize the use of flight simulators in training applicants for pilot certificates. This rulemaking is considered significant because of substantial public interest; it involves a major change in the way industry trains applicants.

Abstract: This notice proposed to amend the Federal Aviation Regulations to update, clarify, and consolidate into one part, new Part 119, the certification and operations specifications requirements for persons who conduct passenger-carrying or cargo-carrying air operations for compensation or hire. Significant changes included defining what must be included in operations specifications; defining "scheduled" and "domestic" operations; increasing the lead-time period for application for a certificate; defining a "wet lease" operation; including in the regulations criteria to determine who has operational control of an operation; and standardizing the requirements and qualifications for management personnel. This action is needed to establish permanent minimum safety standards following the "sunset" of the Civil Aeronautics Board on December 31, 1984, and the enactment of the Airline Deregulation Act of 1978. This action would also replace SFAR 38, as amended, which has provided interim certification and operations specifications regulation. Abstract: Current repair station rules were developed during the infancy of the aviation industry. Very few changes were made to those rules since they were adopted in 1952. This rulemaking project proposes to review foreign repair station requirements and update the rules to reflect the current international and domestic environment and needs. The FAA has held four public meetings to solicit information and views to review the existing regulations and to explore alternatives in revising the rules of this part. This rulemaking is considered significant because of substantial public interest.

Abstract: In the 1950's, a vertical
separation minimum of 2,000 feet was
established for use between aircraft
operating above flight level 290.
Reducing the 2,000-foot separation
requirement to 1,000 feet would

Abstract: The FAA established an aviation rulemaking advisory committee (56 FR 20492, May 3, 1991), within which several subcommittees were established to provide advice and recommendations to the FAA on the full range of aviation-related issues. The Air Carrier/General Aviation Maintenance Subcommittee has been tasked to develop an advisory circular that will address the recordkeeping requirements of the present regulations, and a notice of proposed rulemaking that may include additional items and utilize the present state-of-the-art for recording and retention of records.

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This action would amend the Federal Aviation Regulations by upgrading the standards for protecting transport category airplanes from bird impact damage by requiring that airplanes be designed such that: (1) only minor damage would result from impact with a 4-pound bird and (2) the airplane would be capable of continued safe flight and landing after impact with an 8-pound bird. These standards are needed because of possible vulnerability of new technology flight controls, flight instruments, and flight structures to bird strike damage. These proposed changes are based on research and service experience and are intended to improve survivability of

the airplane by providing better protection of critical structures and systems.

2269. 1-G STALLING SPEED AS A BASIS FOR COMPLIANCE WITH PART 25 OF THE FEDERAL AVIATION REGULATIONS

Significance: Nonsignificant

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g)

CFR Citation: 14 CFR 25; 14 CFR 36

Legal Deadline: None

Abstract: This notice would propose to amend the Federal Aviation Regulations to redefine the airplane reference stalling speed as the 1-g stalling speed in lieu of the minimum stalling speed. This notice would: (1) provide for a consistent, repeatable reference stalling speed; (2) ensure consistent and dependable maneuvering margins; (3) clarify the requirement for the use of 1-g stalling speeds in determining structural design speeds; (4) increase the head-on gust structural design requirement; and (5) provide for adjusted multiplying factors to maintain essentially equivalent requirements in areas where the use of minimum stalling speed has proven adequate. These changes are needed since the stalling characteristics of modern jet transports as determined by current methods can result in inconsistent reference stalling speeds. These changes may result in a higher level of

safety where current methods have resulted in artificially low reference stalling speeds.

Abstract: This notice would propose to assess reasonable charges for certain services provided by the FAA. The charges would be set at a level approximating the cost to the Government to provide these services and would be adjusted periodically as the cost of these services change or as prescribed in the Anti-Drug Abuse Act of 1988. The cost of providing services for aircraft registration and recording and replacement of airmen certificates is not being fully recouped in accordance with the changes reflected in the Consumer Price Index of All Urban Consumers which was published by the Bureau of Labor Statistics of the Department of Labor or as set by the Anti-Drug Abuse Act of 1988. CFR Citation: 14 CFR 21

Legal Deadline: None

Abstract: Following World War II, a substantial number of surplus military airplanes were offered for sale to the public in order to meet an increased demand for civilian-use aircraft not being met by the civil aircraft industry. The current regulation permits both type and airworthiness certification for surplus military aircraft based on the particular aircraft's safety record and condition. As military aircraft have become increasingly complex and sophisticated, that practice is no longer acceptable. This action would remove the regulations for issuing type certificates for these surplus aircraft and eliminate references to obsolete standards. Surplus military aircraft would still be certificated in the normal, utility, acrobatic, commuter, transport, and restricted categories upon compliance with the applicable regulations.

Abstract: This action would propose to amend the exit seating rule to exclude from its applicability commuter air carrier aircraft having 9 or fewer passenger seats and on-demand air taxi aircraft having 19 or fewer passenger seats. These proposed amendments are intended to relieve air carriers and persons with disabling conditions of

DOT—FAA

Proposed Rule Stage

unnecessary burdens by allowing, on a commuter-carrier aircraft, seating in an exit-row seat a passenger who is not able, or willing without assistance, to activate an emergency exit. The revisions would eliminate unnecessary requirements for safe evacuation in an emergency, as seating configurations in such aircraft tend to differ from standard aisle-and-row seating and frequently include single units around a central open space in the cabin, couch seats, and club seating, which provide undefined, unrestricted paths to the exits.

Abstract: The FAA is amending its regulations to add a Special Federal Aviation Regulation (SFAR) to Federal Aviation Regulations Part 91 to provide limited issuance of special flight authorizations that allow certain nonrevenue operations otherwise prohibited by Part 91, Subpart I, Operating Noise Limits. This SFAR is necessary because the former one (SFAR 47-3) expired on December 31, 1991. The new SFAR is also necessary

because the Airport Noise and Capacity Act of 1990 provides for the operation of otherwise restricted Stage 2 aircraft in the United States if the aircraft are modified to meet Stage 3 noise levels.

CFR Citation: 14 CFR 36; 14 CFR 91

Legal Deadline: None

Abstract: This notice proposed revisions to the aircraft type certification standards and operating rules to require that future supersonic aircraft meet noise limits consistent with those required for future subsonic aircraft. These revisions would aid the development of next-generation supersonic aircraft by establishing a noise impact goal that is consistent with noise limits for conventional (subsonic) aircraft. The FAA believes that these revisions are necessary to guide developers of supersonic aircraft and to assure consistent and equitable noise type certification standards and operating rules for both subsonic and supersonic aircraft. This rulemaking is considered significant because of substantial public interest.

PL 100-223, Section 303, Airport and Airway Safety and Capacity Enhancement Act of 1987.

Abstract: This notice proposed new requirements for water survival equipment carried aboard airplanes and rotorcraft. The requirements would apply, after specified dates, to U.S.-certificate holders that conduct common-carriage operations with airplanes and rotorcraft. This proposal is in response to the Airport and Airway Safety and Capacity Enhancement Act of 1987 (PL 100-223) and relates to safety recommendations by the National Transportation Safety Board. The proposed requirements are intended to increase the likelihood of aircraft passengers surviving a crash landing in water and, thus, this rulemaking is significant because of the safety implications.

Abstract: This notice proposed to require that all seats of transport category airplanes used in air carrier operations and transport category airplanes used in scheduled intrastate service comply with improved crashworthiness standards. The Airport and Airways Safety and Capacity Expansion Act of 1987 directs the Secretary of Transportation to initiate a rulemaking proceeding to consider requiring all seats onboard all air carrier aircraft to meet improved crashworthiness standards based upon the best available testing standards. The intended effect of this action is to increase passenger protection and survivability in survivable impact accidents. This rulemaking is considered significant because of its safety implications and statutory requirements.

Abstract: This action proposed to revise the Federal Aviation Regulations to require the operator of an aircraft used in conducting authorized news-gathering operations in an area covered by temporary flight restrictions to be under the direction of the official in charge of the on-scene emergency response activities. Adoption of this proposal would reduce the potential for traffic conflicts and disruption of relief operations and would increase the level of safety afforded aircraft used in conducting rescue or disaster relief operations.

Abstract: The current regulations need to be revised to account for the changed operational practices stemming from airline economic deregulation. This proposal would clarify or change

the number of flight attendants required when passengers are on board an airplane, including at stops. This proposal includes two new requirements: (1) a revision of the reduced number of flight attendants which, under certain conditions, a carrier is permitted to have on board a passenger-carrying airplane during stops; and (2) a requirement for a demonstration of competency by the other authorized persons who may be permitted to be substituted for required flight attendants when passengers are on board the airplane during stops. This proposal would change the current rule by clarifying and specifying the training required to be completed by these other authorized persons. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposed to revise the current requirements for passenger emergency exits and to adopt two new exit types into the regulations.

These proposals are intended to provide more consistent standards with respect to passenger seating allowed for each exit type, and the type and number of exits required for passenger seating configurations. This notice proposed to reduce the maximum inflation time of an escape slide to reflect the current state of the art. These proposals resulted from the Public Technical Conference on Emergency Evacuation of Transport Airplanes held in Seattle, Washington, on September 3-6, 1985. This rulemaking is considered significant because it involves an important cabin-safety issue.

authorized under the original TSO issued for this equipment. The new equipment would be required for future installations. This proposal was prompted by unsatisfactory performance experienced with ELTs that are manufactured under the original TSO and relates to safety recommendations by the National Transportation Safety Board and the search-and-rescue community. Although most of the unsatisfactory field experience has been with automatic ELTs, the FAA is also proposing improved standards for survival ELTs. This proposal would save lives by increasing the number of survivors rescued after aircraft accidents. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposed changes to the airframe and flight airworthiness standards for normal, utility, acrobatic, and commuter category airplanes that are based on a number of recommendations discussed at the

Small Airplane Airworthiness Review Conference held on October 22-26, 1984. This action arose from the recognition that updated safety standards are needed for an acceptable level of safety in the design requirements for small airplanes used in both private and commercial operations. This notice included design requirements applicable to advancements in technology being incorporated in current designs and proposed to reduce the regulatory burden in showing compliance with some requirements while maintaining an acceptable level of safety. Abstract: This notice proposed to amend emergency egress requirements of the airworthiness standards for normal, utility, acrobatic, and commuter category airplanes. These proposed rules are necessary to improve the compatibility of the requirements for emergency exit provisions of commuter category airplanes with the corresponding requirements for similar sized transport category airplanes. These proposals provide alternative emergency exit requirements, applicable to commuter category airplanes, when additional bin safety features are included in the airplane design, and include specific requirements for flight crew emergency exits, emergency exit ditching provisions, and the size requirement of the passenger entry door for commuter category airplanes. This rulemaking is considered significant because it involves a cabin-safety issue.

Abstract: This proposed rule would prescribe benefit-cost-based criteria for establishment and discontinuance of LORAN-C nonprecision approach procedures at airports. It would consider traffic density, passengers served, and aircraft operating efficiencies along with the cost of establishing and maintaining an approach. The criteria will provide a guide for FAA management to assure the cost-effective placement of LORAN-C approaches. This rulemaking is considered significant because of substantial public interest.

Abstract: This proposed amendment would establish a requirement for Part 121 certificate holders to develop an FAA-approved ground deicing/anti-icing program and to comply with that program any time conditions are such that frost, ice, or snow could adhere to the aircraft's wings, control surfaces, or propellers. This action is necessary because several accidents and the recent International Conference on Airplane Ground Deicing indicate that, under present procedures, the pilot in command may be unable to effectively determine whether critical airplane components are free of all frost, ice, or snow prior to attempting a takeoff. The proposal is intended to provide an added level of safety to flight operations in adverse weather conditions, and is considered significant because of its safety implications.

Abstract: This action would amend various sections of the regulations. Some of the amendments are clarifying or editorial in nature or correct improper or obsolete references. Others relax certain existing requirements. Others allow issuance of special flight permits for an additional purpose, relax a requirement for passenger information signs, and eliminate the bulk erasure device on cockpit voice recorders. This action is in response to numerous complaints, suggestions, and petitions for exemption concerning several regulatory requirements received from users of the National Airspace System. These users state that these sections contain obsolete references and vague, complex, and inadequate language and that, in some instances, the cost of compliance is not justified by the benefits derived.

Abstract: This notice proposed to revise the performance requirements for transport category rotorcraft. The proposed changes are needed to define more clearly the factors for determining takeoff distances for transport category rotorcraft and to add several other relevant standards. If adopted, these changes would provide for an improved level of safety achievable because of recent technological advances in turboshaft engine design and associated rotorcraft design.

Abstract: This notice proposed to amend the airworthiness standards for

transport category airplanes to require a means to alert the flight crew of potentially unsafe low fuel quantities. There have been several fuel depletion incidents involving loss of power or thrust on all engines that could have resulted in forced landings and injury or loss of life. Most of these incidents resulted from improper fuel management techniques. This proposed amendment would require new transport category airplane designs to incorporate a low fuel quantity alert system that would allow for correction of certain fuel management errors or provide the flightcrew the opportunity to make a safe landing prior to engine fuel starvation.

Abstract: This notice responded to a petition for rulemaking from Aerospace Industries Association of America, Inc., and proposed to amend the Federal Aviation Regulations to incorporate new one-engine-inoperative (OEI) power ratings for multiengine, turbine-powered rotorcraft. If adopted, this

proposal would enhance rotorcraft safety after an engine failure or precautionary shutdown by providing OEI power, when required, with the assurance that the drive system would maintain its structural integrity and allow continued safe flight while operating at the new OEI power ratings with the operable engine(s).

Abstract: This notice proposed to add comprehensive crash resistant fuel system design and test criteria to the airworthiness standards for normal and transport category rotorcraft. The proposed standards would minimize fuel (and other flammable fluid) spillage near ignition sources, minimize potential ignition sources and, therefore, improve the evacuation time needed for crew and passengers to escape a postcrash fire. These proposals, if adopted, would minimize the postcrash fire hazard, save lives, and substantially reduce the severe physiological and psychological injuries sustained from postcrash fires in otherwise survivable accidents.

Abstract: This notice proposed new design standards for airplane jacking and tie-down provisions for transport category airplanes. This proposal is needed to provide manufacturers of transport category airplanes with design standards for jacking conditions and is intended to provide protection of the airplane primary structure during wind gust conditions, during jacking operations, and while tied down.

CFR Citation: 14 CFR 23

Legal Deadline: None

Abstract: This notice proposed to amend the 61-knot stall speed limitation requirement applicable to normal, utility, and acrobatic category single-engine and certain multiengine small airplanes of less than 6,000 pounds maximum weight. The proposal would require additional occupant protection requirements for those airplanes with a stall speed exceeding 61 knots. This proposal retains the current level of airplane occupant protection and permits the design and type certification of higher performance, single-engine airplanes capable of attaining an increase in cruise speeds with better specific fuel consumption. This improvement in performance and operating economies cannot be achieved without substantial increased cost and complexity if these designs are constrained by the present 61-knot stall speed limitation.

Airport Noise and Capacity Act of 1990

Abstract: This action established more efficient methods of allocating existing capacity at high density airports in order to provide improved opportunities for operation by new entrant air carriers. In addition, this rulemaking added a new definition of a "limited incumbent," allocated all newly available slots to new entrants and limited incumbents, amended the use-or-lose provisions, and created a special pool of slots for use by new entrants and limited incumbents. This rulemaking was considered significant because of substantial congressional and public interest.

The Department of Transportation and the FAA believed that the most productive and efficient means of initiating the rulemaking required by the Airport Noise and Capacity Act of 1990 would be to incorporate Notice Number 88-18 (53 FR 51628, December 22, 1988) into this rulemaking. Therefore, the supplemental notice of proposed rulemaking represented a continuation of the rulemaking initiated in Notice Number 88-18, as well as the Department of Transportation's action in compliance with the requirements of the Act. The comments received in response to Notice Number 88-18 were addressed, together with the additional comments received in response to the supplemental notice. (A correction to the existing rule was published 11/06/91, 56 FR 56571.)

Abstract: This action amended several sections of the Federal Aviation Regulations. Several proposals provide the FAA with the means to enforce certain safety regulations. Others made current operator practices regulatory requirements. Several proposals established regulations on child restraint systems, safety belts aboard airships, and flight crewmember use of shoulder harnesses aboard aircraft. Two of the proposals clarified the regulations concerning fire extinguishers and protective breathing equipment, and one obsolete section of the regulations and several obsolete references to particular dates were removed. This action will reduce the number of passenger violations and

enhance safety aboard aircraft. This rulemaking was considered significant because of substantial public interest and safety implications.

Abstract: This final rule revises the Federal Aviation Regulations to require improved access to Type III emergency exits (typically smaller over-wing exits) in transport category airplanes with 60 or more passenger seats. These changes are the result of tests which were conducted at the FAA's Civil Aeromedical Institute, and are intended to improve the ability of occupants to evacuate an airplane under emergency conditions. They affect air carriers and commercial operators of transport category airplanes as well as the manufacturers of such airplanes.

2337. + REVISION OF AVIATION
MAINTENANCE TECHNICIAN
SCHOOLS REGULATIONS

Significance: Agency Priority
Legal Authority: 49 USC 1354(a); 49
USC 1355; 49 USC 1421; 49 USC 1427
CFR Citation: 14 CFR 147
Legal Deadline: None

Abstract: This action updated the
regulations for certificating aviation
maintenance technician schools
(AMTS) to accommodate the increasing
demand for maintenance technicians
with higher levels of skill and
knowledge. This action (1) modified
portions of the current rule that have
been open to subjective judgments by
the FAA and the AMTS industry and
(2) modified the portions that specify
the skill and knowledge requirements
for an aviation maintenance technician.
In addition, this action revised the core
curriculum to ensure that a person
graduating from an aviation
maintenance technician school will be
prepared to function in the current
technological environment. This
rulemaking was considered significant
because of substantial public interest.

REQUIREMENTS FOR TRANSPORT

Significance: Agency Priority
Legal Authority: 49 USC 1344; 49 USC

USC 106(g)
CFR Citation: 14 CFR 25
Legal Deadline: None

Abstract: This amendment revised the
airworthiness standards for transport
category airplanes concerning flutter,
divergence, vibration, and buffet. It
clarified the requirement to consider
flutter and divergence when treating
certain damage and failure conditions
required by other sections of the
Federal Aviation Regulations. It revised
the safety margins related to aeroelastic
stability to make them more
appropriate for the conditions to which
they apply. These changes are intended
to provide consistency with other
sections of the Federal Aviation
Regulations, to relieve a design burden
which is now unnecessary as a result of
advances in technology, and to improve
certain safety margins as a result of the
evolution in the design of transport
airplanes. This action was considered

significant because of substantial public
interest.

CFR Citation: 14 CFR 91
Legal Deadline: None

Abstract: This final rule amends the
Federal Aviation Regulations to allow
Part 91 operators to continue flight, or
ferry certain aircraft, in the event that
the flight recorder and/or cockpit voice
recorder is inoperable. This change
provides Part 91 operators similar relief
to that afforded air carriers and
commercial operators operating under
Part 91 of the Federal Aviation
Regulations. Additionally, this change
permits Part 91 operators to operate for
up to 15 days with an inoperative flight
recorder or cockpit voice recorder.
These amendments are intended to
prevent Part 91 operations from being
forced out of service unnecessarily.

Abstract: This action rescinded the
requirement that any transponder
newly installed in an aircraft must be a
Mode S transponder. This action was
necessary because the Mode S ground
sensors are not expected to be fully
operational until late 1995 and the Air
Traffic Subcommittee (an entity of the
Aviation Rulemaking Advisory
Committee) has recommended further
study as to Mode S transponder
requirements for general aviation. This
action was considered significant
because of substantial public and

Abstract: This action complies with the
Order of the President of the United
States to prohibit the takeoff from,
landing in, or overflight of the territory
of Libya, other than takeoffs, landings,
or overflights expressly approved by a
United Nations special committee. This
action also prohibits the landing in,
takeoff from, or overflight of the
territory of the United States by any
aircraft on a flight from or to any
intermediate destination, if the flight's
origin or ultimate destination is Libya.
This action is taken to prevent an
undue hazard to the aircraft that would
be engaged in such a flight, as well as
to persons involved in the flight, arising
from international adherence to or
enforcement of UN Security Council
Resolution 748 (1992) mandating, inter
alia, an embargo of most air traffic with
Libya. Issuance of this rule implements
and is fully consistent with UN Security
Council Resolution 748. This action was
significant because of substantial public
interest and safety implications.

Type and Airworthiness Certification.
Appendix J would provide an
alternative to the helicopter noise
standards required in Appendix H of
Part 36 for normal, transport, and

of the temporary procedures for the
operation of all aircraft in the airspace
above Grand Canyon National Park up
to an altitude of 14,500 feet above mean
sea level. The provisions of SFAR 50-2

to allow the National Park Service
(NPS) time to complete studies of the
impact of aircraft overflights on the
Grand Canyon and to forward its
recommendations to the FAA. This rule
continues the effectiveness of these

Legal Deadline: None

Abstract: This amendment established
a new termination date for Special
Federal Aviation Regulation (SFAR) No.
38-2, which contains the certification
and operating requirements for persons
conducting commercial passenger or
cargo operations. This was necessary to
establish a new termination date for
SFAR 38-2 to allow time for the FAA to
complete the rulemaking process that
will consolidate the rules regarding
certification and operating requirements
and incorporate SFAR 38-2 into the
Federal Aviation Regulations.
Therefore, the expiration date of
06/01/92 was extended to 06/01/93.
However, if a final rule, which
consolidates those rules, is issued
before the new termination date, the
FAA intends to publish a notice
rescinding SFAR 38-2 concurrently with
the publication of the final rule in the
Federal Register.

Abstract: This rulemaking responds to
a petition filed by the North American

carrying such explosives, be subject to

Federal rather than State length limits
when in combination with semitrailers
operating on the National Network.

Abstract: This action was initiated to improve identification systems for truck and bus drivers as identified by the Congress in the Truck and Bus Regulatory Reform Act of 1988. Alternatives that were considered included retinal eye scans and advanced fingerprint technologies. After (1) further review (2) a careful analysis of public comments submitted to the ANPRM and (3) a review of demonstration project results, the FHWA has determined that current technology has not progressed to the point where an identification system could be established nationwide in a cost-effective manner and still provide the benefits for which a system was intended. Therefore, the FHWA has published an informational notice to summarize the results of the pilot study and the comments to the ANPRM to demonstrate how the technologies studied fall short of the demands in a commercial licensing environment. When information is available that the

technologies would be beneficial to the CDL program and after completing additional studies on the accuracy of the current systems, the FHWA will propose standards for the biometric identifier. This project is considered significant because of substantial (cont)

Abstract: The FHWA is proposing to exempt commercial motor vehicles (CMV's) with a gross vehicle weight rating (GVWR) or combination weight rating of less than 26,001 pounds from the Federal Motor Carrier Safety Regulations (FMCSR's), 49 CFR Parts 390 through 399. This exemption would not apply to: 1) vehicles transporting hazardous materials in quantities which require placarding, 2) vehicles transporting more than 15 passengers (including the driver), or the financial responsibility requirements in 49 CFR 387, from which the Motor Carrier Act of 1980 gave no provisions for waivers. The FHWA is also proposing numerous technical revisions. This rulemaking is considered significant because of its potential impact on the motor carrier industry.

Abstract: This rulemaking would revise 49 CFR 390.21 concerning the marking of motor vehicles. The marking requirement was promulgated in part to identify the motor-carrier population subject to the regulations and to assist in maintaining a current, up-to-date census file of all those motor carriers. This action would consider the possible use of a postcard-type form for annual census purposes in lieu of Forms MCS-137 and MCS-150, and is considered significant because of substantial public and industry interest.

Abstract: This rulemaking will implement the statutory requirements of sections 8 and 15 of the Hazardous Materials Transportation Uniform Safety Act (HMTUSA) of 1990. Section 8 addresses the establishment of motor carrier safety permit regulations for motor carriers transporting Class A or B explosives, liquefied natural gases, hazardous materials designated as extremely toxic by inhalation, or highway route controlled quantity radioactive materials. Section 15 of the HMTUSA requires inspection of vehicles transporting those radioactive materials before each trip. The proposed rule will incorporate those provisions into the safety permit regulations. This action is considered significant because of substantial public interest and safety implications.

Abstract: Currently, except for certain radioactive materials, DOT has not promulgated uniform, national standards for the highway routing of hazardous materials. The proposal would establish such standards and provide guidance to States and localities to minimize the promulgation of State and local routing requirements that are inconsistent with the Hazardous Materials Transportation Act. This rulemaking is significant because of the safety implications and possible federalism implications. The Hazardous Materials Uniform Safety Act of 1990 amended the HMTA to require the Secretary to issue Federal standards for highway routing.

Abstract: As a result of section 1029 of ISTEA, speed compliance and enforcement data will have to be collected on highways with speed limits up to 65 mph, in addition to data currently being collected on 55 mph highways. New regulations will be issued that ensure uniform monitoring programs by States, so that reliable data is submitted for use by the Secretary in determining compliance by each State with the speed limits. A

compliance formula must be included, which takes into account the amount by which speed limits are exceeded, and differentiates between types of road on which the violations occur. Enforcement efforts and accident information must be considered in development of the compliance formula. Abstract: 23 U.S.C. 303 requires the Secretary of Transportation to issue regulations for State development, establishment, and implementation of systems for managing highway

pavement of Federal-aid highways; bridges on and off Federal-aid highways; highway safety; traffic congestion; public transportation facilities and equipment; and intermodal transportation facilities and systems. The Secretary also must issue guidelines and requirements for the State development, establishment, and implementation of a traffic monitoring system for highways and public transportation facilities and equipment. States must be implementing each management system in Federal fiscal year 1995, or the Secretary may withhold up to 10% of funds apportioned under Title 23, U.S.C., or under the Federal Transit Act for any fiscal year beginning after September 30, 1995. The primary purpose of these systems is to improve the efficiency of, and protect the investment in, existing and future transportation infrastructure. The systems will provide additional information needed to make informed decisions for optimum utilization of limited resources. (continued)

Abstract: The Federal Highway Administration (FHWA) proposes to amend a portion of the hours of service regulations for commercial motor vehicle drivers. This rulemaking, if promulgated, would permit the on-duty-time limitation of 60 hours in 7 consecutive days or 70 hours in 8 consecutive days to begin anew after the driver had an off-duty "recovery period" of 24 consecutive hours or more. Through this action, the FHWA intends to provide the opportunity for improved efficiency in commercial motor vehicle operations consistent with highway safety. Abstract: This proposed rulemaking would revise the FHWA regulation on construction contract equal opportunity compliance procedures in order to clarify changes in policy and overall program implementation. Additionally,

the proposal has been written with the consideration that the FHWA no longer has equal employment opportunity (EEO) contract compliance responsibilities under Executive Order (E.O.) 11246, but clearly has the responsibility to ensure that federally assisted highway contractors are providing equal opportunity under 23 U.S.C. 140. The proposed regulation should provide greater uniformity in the equal opportunity contract compliance program and should provide greater flexibility in overall program administration.

Abstract: The FHWA requested public comment on how, under section 411(h) and 416(b) of the Surface Transportation Act of 1982 (STAA) (PL 97-424, 96 Stat. 2097), the Secretary may determine which safety or efficiency-enhancing devices are to be excluded when measuring the length and width of vehicles for compliance with federally mandated dimensions. The present system of employing rulemaking proceedings is too time-consuming and cumbersome to meet the needs of industry and is needlessly burdensome for FHWA. Therefore, a new approach will be proposed.

Significance: Nonsignificant

Legal Authority: PL 99-570; 49 USC

CFR Citation: 49 CFR 383

Legal Deadline: None

Abstract: Section 12009 of the
Commercial Motor Vehicle Safety Act
of 1986 establishes 21 requirements
under the Commercial Driver's License
(CDL) program which States must meet
before October 1, 1993 to avoid losing a
portion of their Federal-aid highway
funds. This regulation will delineate the
criteria and standards which the
FHWA will use in determining whether
a State is substantially in compliance
with the 21 requirements. In addition,
the rule will include a procedure
governing initial and subsequent
reviews of State compliance with these
requirements.

Abstract: This rulemaking action
proposes to amend existing regulations
contained in 23 CFR 657 by changing
the requirements for State enforcement
plans and certifications as well as the
FHWA evaluation of State operations
under the enforcement plans. The
revised requirements will rely on
available truck weight data and
enforcement records. The revisions will
result in evaluations and certifications
being based more closely on the
approved plans.

Abstract: The FHWA will list the States where LCVs and extra-length multi-unit combination vehicles could operate as of June 1, 1991, and the applicable operational conditions, routes, and legal citations. Future operation of these vehicles is limited to the States, routes, and conditions in effect as of June 1, 1991. The Federal Highway Administration will also 1) establish criteria for States to make minor adjustments to the list of States' weight and length limitations and requirements, 2) define loads which cannot be easily dismantled or divided, and 3) make other regulatory changes required by the Intermodal Surface Transportation Efficiency Act of 1991, PL 102-240. Legal Deadline: NPRM, Statutory, December 18, 1992. Final, Statutory, December 18, 1993. Other, Statutory, January 18, 1994.

Abstract: The Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) (Public Law 102-240) mandates that the FHWA report to Congress by December 18, 1992, on the effectiveness of private sector efforts to ensure adequate training of entry-level drivers of CMVs. The Act also directs the FHWA to initiate a rulemaking by December 18, 1992 on the need to require training of all entry-level drivers of CMVs. This rulemaking must be completed by December 18, 1993. If the FHWA determines as a result of the rulemaking proceedings that it is not in the public interest to issue a rule that requires training for all entry-level drivers, the FHWA must submit a report to Congress by January 18, 1994, on the reason for the decision, together with the results of a cost-benefit analysis conducted as part of the rulemaking proceedings.

Abstract: This action will amend the Federal Motor Carrier Safety Regulations to implement provisions of the Motor Carrier Safety Act of 1990 (section 15 of PL 101-500). This enactment prohibits a motor carrier that receives an "unsatisfactory" safety rating from operating commercial motor vehicles to transport hazardous materials in quantities for which vehicle placarding is required or to transport more than 15 passengers, including the driver. The prohibition is effective 45 days after receipt of an unsatisfactory rating and remains in effect until a satisfactory rating is secured. Abstract: This action would ban radar detectors from all commercial vehicles as defined in the Federal Motor Carrier Safety Regulations in 49 CFR 390. The proposal responds to the Congressional mandate in section 342 of PL 102-143 and to a petition filed jointly on July 18, 1990, by the Insurance Institute for

Highway Safety and seven other organizations. FHWA is considering whether such a ban would further highway safety by enhancing commercial motor vehicle driver compliance with speed laws. This action is considered significant because of anticipated substantial public interest and controversy involving the use of radar detectors.

Abstract: In response to the President's memorandum of January 28, 1992, "Reducing the Burden of Government Regulation," the FHWA, as lead agency for implementing the Uniform Act, proposes several amendments to the governmentwide rule implementing the Uniform Act. The amendments would enhance the relocation benefits available to displaced businesses and replace the language in Subpart G, relating to the application for certification, with a simplified provision. Also a proposed technical amendment would conform the language of one paragraph to the two statutes cited therein. The monetary relocation assistance benefits provided in the regulation are primarily established by the Uniform Act. This action is significant because of substantial public interest.

Abstract: The Federal Highway Administration (FHWA) requested comments on a proposed amendment to the design standards which apply to interstate highway construction and reconstruction projects eligible to receive funding under the Federal-aid highway program. A revised publication approved by the American Association of State Highway and Transportation Officials (AASHTO) entitled "A Policy on Design Standards--Interstate System, AASHTO 1988" would be substituted for the previous version of these standards last revised June 20, 1967. If the Federal Highway Administration (FHWA) adopts the 1988 document, the new AASHTO publication would constitute the FHWA's policy on geometric design for all federally assisted construction and reconstruction projects on the interstate highway system.

Abstract: This document amends 49 CFR part 396, Inspection, Repair and Maintenance, of the Federal Motor Carrier Safety Regulations (FMCSRs). The Federal Highway Administration (FHWA) delayed the compliance date to July 1, 1990, when motor carriers are required to implement the periodic inspection requirements contained in the final rule, Inspection, Repair and Maintenance, published on December 7, 1988, (53 FR 49402). On December 12, 1988, the FHWA clarified that provisions of the final rule were to be complied with by December 7, 1989 (53 FR 49968) except as provided for in part 396. This document also included recent interpretations, made minor technical amendments to clarify the rule and eliminated certain items from the inspection report. These interpretations were made in response to many requests the FHWA has received to clarify the intent of the final rule. The elimination of some of the items that were to be included in the inspection report was made to simplify the recordkeeping requirements. The final rule (delay in compliance date) became effective (cont)

Abstract: The FHWA would eliminate the requirement that motor carriers submit accident reports to the FHWA and notify the FHWA of fatal accidents as currently required by 49 CFR 394. Instead, the FHWA, in cooperation with the States, would implement a new accident reporting system based on State-required police reports, which will be electronically transmitted from the States to the FHWA through the SAFETYNET accident reporting system. The FHWA would adopt the National Governors' Association's (NGA) recommended guidelines for collection of accident data in an effort to increase the levels of accuracy, consistency, and uniformity in that data. Motor carriers would be required to keep certain information on file regarding accidents, and make that information available to an authorized representative or special agent of the Federal Highway Administration upon request or inquiry.

Significance: Nonsignificant

Legal Authority: 49 USC app 2505; 49 USC 3102

CFR Citation: 49 CFR 393

Legal Deadline: None

Abstract: By an Interim Final Rule published on 11/24/89, the FHWA amended 49 CFR 393, Parts and Accessories Necessary for Safe Operation, of the Federal Motor Carrier Safety Regulations (FMCSRs). The amendment allows Mexican motor carriers operating commercial motor vehicles in border commercial zones time to comply with the requirement that every commercial motor vehicle be equipped with brakes acting on all wheels. This action will facilitate the flow of trade and traffic between the two countries without interruption. The FHWA also removed the exception (paragraph (b)) from 393.1 which deferred application of part 393 to certain Mexican commercial motor vehicles until November 18, 1989. In this Interim Final Rule the FHWA requested comments on all issues addressed, and expects to proceed to final action.

Significance: Nonsignificant

CFR Citation: 49 CFR 383

Abstract: To reconcile the training needs of the motor carrier industry with the requirements of the commercial driver's license (CDL) program and the Commercial Motor Vehicle Safety Act of 1989, the FHWA is proposing additional minimum Federal standards for State-issued learner's permits that allow drivers to be trained in the operation of commercial motor vehicles (CMVs). Among the alternatives under consideration: Applicants for Commercial Driver Instruction Permits (CDIPs) might need to possess drivers' licenses and undergo record checks analogous to those now required for CDLs; CDIP transactions might be entered in the Commercial Driver's License Information System (CDLIS); and CDIP holders might be explicitly subject to the same disqualifications as CDL holders. Since driver training is nationwide in scope, the FHWA is proposing options that would allow a State to issue a CDIP to a driver trainee, or a 90-day CDL to a trained driver, without regard to his/her State of domicile.

Final Rule Stage

CFR Citation: 23 CFR 658**Legal Deadline:** None

Abstract: This rulemaking proposes to designate as specialized equipment van-type, drop-frame beverage semitrailers whose length, when equipped with an upper coupler plate that extends in front of the semitrailer, exceeds 28 feet, as illustrated in the appendix to the preamble. The resulting configuration would be subject to certain limitations in that the kingpin may not be mounted more than 28 feet from the rear of the semitrailer, exclusive of rear-mounted devices not measured in determining semitrailer length, and the upper coupler may not extend beyond the semitrailer's swing radius (measured from the center line of the kingpin to the front corner of the semitrailer). The rule would prevent States from imposing an overall length limit on such vehicles operating in semitrailer or double-trailer combinations and would guarantee tractor-semitrailer combinations of such vehicles the same access to points of loading and unloading as "pup" semitrailers in 23 CFR 658.19(a).

Abstract: This rulemaking combines RINs 2125-AC43, 2125-AC66 and 2125-AC67 into one rule. This action would amend the Federal Motor Carrier Safety Regulations (FMCSR's) to exempt from parts 390 through 399, motor carriers and drivers operating in interstate commerce that are providing direct assistance as a part of regional and local emergency relief efforts. Motor carriers and drivers would be exempt from parts 390 through 399 during certain emergencies declared by the President of the United States, governors of States, regional directors of the FHWA's Office of Motor Carriers, and federal, State, or local police officers who have declared emergencies or who have requested assistance as proposed. This rule would also remove the requirement for motor carriers to request authorization from FHWA prior to providing initial emergency relief.

Abstract: This action would determine the procedures necessary for implementation of section 1054 of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA), which provides for a temporary waiver of State matching funds. Section 1054 of the ISTEA allows a State to request an increase in the Federal share of the construction costs of a qualifying Federal-aid highway project, based on certification by a State's governor that sufficient funds are not available to pay costs of the non-Federal share. A State may receive up to 100 percent of Federal funds on a project for a period through September 30, 1993. Should the State fail to make timely reimbursement, 50 percent would be deducted per year from the State's apportionment funds until the deferred amount is paid.

Abstract: As a result of recent enactment of the Intermodal Surface Transportation Efficiency Act (ISTEA), Federal funds became available to the States to, among other things, remove nonconforming signs to comply with the Highway Beautification Act of 1965. This action was to consider options to ensure effective State programs for compliance, and was considered significant because of substantial public interest. However, further amendment of ISTEA has subsequently given the States discretion as to whether to use highway funds for removal of nonconforming signs; therefore, the NPRM no longer reflected current law and was withdrawn.

Abstract: Sections 207-209 of the Motor Carrier Safety Act of 1984 establish a process whereby any State law or regulation pertaining to commercial motor vehicle safety in interstate commerce will be reviewed and analyzed by the Commercial Motor Vehicle Safety Regulatory Review Panel (Safety Panel). The Safety Panel is to determine if such law or regulation has the same effect as, is less stringent than, or is additional to or more stringent than the Federal Motor Carrier Safety Regulations. The proposed regulations would provide guidelines for a continuous regulatory review of State laws and regulations; would establish deadlines for a State to achieve compatibility with the Federal Motor

Carrier Safety Regulations; and would establish procedures for the Federal Highway Administrator to determine whether or not a State law or regulation may be in effect and enforced with respect to interstate commercial motor vehicle safety.

Abstract: This rulemaking amended section 391.43 of the Federal Motor Carrier Safety Regulations (FMCSRs) to permit certain licensed health care professionals to perform physical examinations of commercial motor vehicle drivers. The FHWA addressed this issue in response to numerous requests received from motor carriers, medical facilities, physicians, physician assistants (PAs), and nurse practitioners (NPs) to allow PAs and NPs to perform physical examinations under the supervision of licensed doctors of medicine or osteopathy. This action permits drivers to have their physical examinations performed at more convenient times and locations and perhaps at a lower cost. This action requires health care professionals, who perform the physical examination, to become more knowledgeable of the FMCSRs requirements. The certification and determination that a driver is physically qualified in accordance with the requirements of 49 CFR 391 would remain with the licensed doctor of medicine or osteopathy.
